SUBURBAN MAKES ANSWER

Denies That Its Tracks Interfere with Wright's Property Rights.

ROAD TO MANAWA STARTS UP TODAY

Seeks Power and Will Be Able to Build a Few People to the Lake - Present Outlook Good.

The Omaha, Council Bluffs & Suburban company late last evening filed its answer to the injunction suit brought in the superior court by George S. Wright and served notice to the latter that it would ask that the restraining order issued by Judge Aylesworth be dissolved.

In its answer the Suburban company denies that it is about to interfere with Wright's use of the property owned by him south of Sixth street by constructing its line along the thoroughfare. It asserts that the nearest rail will be twenty-six feet from the lot line and that the work of laying the track will not in any way interfere with the use of the property owned by Wright.

The latter that it would ask that the restraining order issued by Judge Aylesworth be dissolved. In its answer the Suburban company denies that it is about to interfere with Wright's use of the property owned by him south of Sixth street by constructing its line along the thoroughfare.

It points to the fact that it commenced the construction of the line last September and that Wright was fully aware that it intended laying a track on South Sixth street and that for that reason should be now estopped from claiming that the use of the street by the company would be an injury to his property or to the street.

In conclusion the company states it has expended about \$100,000 already in the construction of the line.

General Manager Dimmock of the old motor company discovered yesterday morning at an early hour that someone had connected the feed wire of the Suburban company with that of his company. In company with Master Mechanic Tarrington he investigated and found the connection at Fifth avenue and Sixth street. He ordered the connection cut and this gave rise to the report that the old company had cut off the wires of the Suburban company. Manager Reed of the Suburban company disclaimed any knowledge of the connection.

The Suburban company will run one steam train and two motors to the lake today, the Omaha Street Railway company having reconsidered its refusal to supply power. The work of construction is going rapidly on despite the fact that the wires are flying around and the company expects now to be able to do business on the Fourth at the lake, although its facilities for handling a large crowd will be somewhat impaired.

W. C. A. Hospital Report. Hospital of the Woman's Christian Association for the half year ending June 30 makes a good showing for this institution under the superintendency of Miss Madge E. Penny. The receipts for the first six months of this year show an increase of \$800 over the same period of last year. For June the receipts were \$200. The number of patients has steadily increased, sixty-one patients being admitted during the last six months more than during the same time last year.

The increased work has overtaxed and overworn the facilities of the hospital many times this year and the members of the association are very anxious to commence the erection of a new building. Several times it has been found necessary to refuse the admission of patients for want of room. So crowded has the hospital become that a room has had to be rented outside for the accommodation of the nurses. The number of student nurses has been increased to fourteen, over eight at the commencement of the year.
