Fashions in Suits

Some very rapid and surprising changes occur from season to season in fashion suits. We thought when the blouse suit made its appearance last fall, that it had come to stay with us, at least through the spring season. But no—it had to give way to the march of progress, and take its place like thousands of other passe styles—probably to appear again in another generation.

We have quite a good many of our new suits in, and most every day is adding to our assortment.

In dress skirts we have some beautiful things ready for your approval. Elegant styles in black Taffeta, from \$10 to \$50.

In cloth dress skirts, our assortment is now complete—prices from \$7.50 to \$30.00.

We do not believe any other store takes as much care in fitting as we do.

WE CLOSE SATURDAYS AT 6 P. M.

SENATE AND THE BLUE BOOKS

Bill to Purchase a Lot of the Manuals Comes on For Sharp Debate.

LINCOLN, March 1.—(Special.)—President Pro Tem Steele called the senate to order this morning in the absence of Lieutenant Governor Savage, who is looking after the duties of the governor while that official is in Washington. After the roll call the senate listened to a prayer by Rev. Mr. Wharton. Owing to the fact that the republican members of the senate were defeated by a caucus, called for the purpose of pacifying a number of the members who were disappointed with the personnel of the sitting committee, the senate was an hour late in convening, and in the half hour left them before the time for the special order of business there was practically nothing accomplished. Two or three bills were reported back from committee, the rest of the time being taken up by a fruitless discussion, which arose over the matter of purchasing a supply of legislative blue books. Senator Edgar of the printing committee thought the senate should purchase at least 200 of these books, but later, when an opposition, led by Senator Owens, developed against the purchase of any blue books whatever, he was willing to make the number 100. He had conferred with the State Journal people, who were preparing the books, and had found that the books could be purchased for 43 each. A lower price, he said, would not be considered by the publishers. The books had been prepared at a great expense to the publishers and the senator from Gage thought the senate should make the usual purchase. Senator Young made a motion to purchase 100 of the books at \$2 each, but was informed by Mr. Edgar that any price below \$3 would not be considered. Senator Owens was of the opinion that inasmuch as the books had been completed with the intention of unloading them upon the legislature no hardship would be traceable to the senate should it refuse to purchase them, and he therefore moved to table the motions and amendments, which was followed in rapid succession by half a dozen other motions, one by Allen to proceed to the house for the special order of business finally prevailing, without any action being taken on the purchase of blue books. When the members returned to the senate from the joint convention a re-

cess was taken until 3 o'clock this afternoon.

HOUSE FIXES THE GAME LAW

Evans' Bill Amended and Recommended for Passage by Committee of the Whole.

LINCOLN, March 1.—(Special.)—The house resumed consideration of Representative Evans' game bill today and after amending it in several places recommended it for passage. As altered in the committee of the whole the bill is not different in any essential respect from the original draft. Practically all of the amendments offered by the committee on fish and game were adopted by the house and a few additional ones were added. The bill still provides for market hunting and for shortening the open hunting season. If the Evans bill becomes a law it will convey upon the governor the title of game and fish commissioner and authorize him to appoint two deputies and extra assistants whenever necessary. The bill says that one of these deputies shall be skilled in the science of fish culture and the other in the direction of the commissioner have the control and management of all fish hatcheries of the state and the distribution of fish spawn. Each deputy would receive a salary of \$1,200 per year. The resolution for the appointment of a sitting committee made its appearance in the house today—about two weeks earlier than expected. It was introduced by Latin of Gage county and was passed without opposition. It authorizes the speaker to appoint seven members for the committee. The resolution follows: Whereas, The time for the introduction of bills has expired and there are a large number of bills pending in the house, and the general rule, and also unreported in the hands of the several committees, and it being necessary for the more important of these bills to be advanced in order to insure their introduction, therefore, be it Resolved, That a committee of seven be appointed by the speaker, to be known as the sitting committee, and shall have the remainder of this twenty-seventh session of the legislature, and further, that no house bill or resolution be considered out of their general order or advanced, unless it has been recommended by the committee, or consideration out of their regular order. Without objection the house this afternoon agreed to hold sessions tomorrow and an adjournment was taken to 2 a. m. The senatorial ballot was taken as usual at noon and it is not improbable that afternoon sessions will be held by both branches.

SENATE SITTING COMMITTEE.

LINCOLN, March 1.—(Special.)—There was something of a warm time in the caucus held by the republican members of the senate this morning, when they met for the purpose of fixing up the differences arising out of the naming yesterday of a sitting committee. The friends of the Normal school bills claimed that the committee was decidedly against them, and their objection is said to have been made so strong that the committee offered to resign, but this was not insisted upon, and after a wrangle of an hour or more the caucus adjourned without any definite action having been taken. The report that the fusion members who were somewhat dissatisfied with their representation on the committee, would take advantage of the republican members who were not satisfied and would try and have the committee increased to seven members, with three fusionists, did not develop, as expected, today, and the probability is that the work of the sitting committee will henceforth be serene and uninterrupted.

GAGE MORTGAGES GROW.

BEATRICE, Neb., March 1.—(Special Telegram.)—During February there were eighty-four farm mortgages filed in Gage county and ninety-three released. The value of those filed exceeded the value of those released by \$19,182.

Naval Detachment Arrives.

The training ship Dixie, which has aboard a naval detachment to participate in the parade, is in the lower Potomac and will reach here tomorrow. The Hartford, Admiral Farragut's command flag ship, has been able to make her way up the river to a point opposite the Washington arsenal. The Lancaster is expected to reach Alexandria by Sunday night. It has not yet passed the capes, or at least has not yet reported. It is doubtful whether she will reach Washington in time to participate in the inaugural ceremonies. Without her the navy will lose 1,900 men in line, but if she arrives in season she will be swelled to 1,300 or 1,400. The Rawlins, with the Porto Rican battalion that is to participate in the inaugural ceremonies, arrived at Fortress Monroe this afternoon. The inaugural crowd has begun to arrive and sightseers were very much in evidence on the streets today. The first of the governors to arrive reached here tonight in the person of Governor Barnes of Oklahoma, who, with a delegation from the territory, will be present during the day participating in the inaugural ceremonies and urging the claims of the territory to statehood.

SIoux FALLS POSTMASTER

Name of N. E. Phillips is Withheld Until Next Session of Senate.

WASHINGTON, March 1.—(Special Telegram.)—It has been decided that N. E. Phillips is to be nominated for postmaster at Sioux Falls, S. D., before Monday, as it would be impossible to secure confirmation before the adjournment of this congress. Action has been withheld until the senate is called in special session. It is expected that Mr. Phillips will then be nominated for the place.

General Washburn Visits Aberdeen.

ABERDEEN, S. D., March 1.—(Special Telegram.)—General Washburn, accompanied by General W. D. Washburn, spent Wednesday in this city conferring with his representative, who is introducing lignite coal in this section of the state from the Washburn mines in North Dakota. Mr. Washburn spent a portion of the day discussing business matters with the Commercial club and also inspecting the grade of the Soe line, which is completed nearly all the way from this city to Bismarck. While Mr. Washburn was non-committal on the subject, the inference was drawn from his remarks that the Soe line would doubtless be the old grade soon and give Aberdeen a direct line to the coal fields.

Pierre Has Smallpox Scare.

PIERRE, S. D., March 1.—(Special Telegram.)—A smallpox scare developed this morning, there being two suspects quarantined in the north part of the city. It is reported that cases are numerous on the west side of the river, on Antelope creek, several miles south of Fort Pierre.

VETERANS HAVE THEIR WISH

Inaugural Parade Difficultly Adjusted at a Conference.

PRESIDENT WANTS HIS OLD COMRADES

Requests That They Be Made His Personal Escort and Grand Marshal is So Informed by Root.

WASHINGTON, March 1.—The dispute between the inaugural committee and the veterans of the war has proceeded in the parade Monday resulted today in a compromise under which the veterans will take part to a certain extent in the ceremonies. A conference between Secretary Root, General Francis Greene, grand marshal of the parade, and General Daniel E. Sickles it was decided that the local and visiting Grand Army veterans will form the honorary escort to the president from the White House to the capitol on March 4. The further conclusion was reached that on the return from the capitol to the White House, after the procession has passed through the court of honor, they will be reviewed by the president. After the conference Secretary Root sent the following instructions to General Greene, the grand marshal of the parade: "I am instructed by the president to request that the union veterans of the civil war should be assigned as his personal escort and executive mansion to the capitol building on the occasion of the approaching inauguration."

AMERICAN SOLDIERS ON THE CANVAS

Famous Russian Painter of Battle Scenes Arrives at Manila to Perpetuate Yankee Campaigners in Oil.

MANILA, March 1.—Twenty-one rebel officers and 120 bolomen have surrendered to Lieutenant Deane of the Forty-seventh United States Volunteer Infantry at the town of Irocin, in Alibey province, southern Luzon.

Vassil Verestchagin, the Russian painter of battle scenes, has reached the Philippines, searching for new war pictures. He has called upon General MacArthur. Verestchagin is favorably impressed with the American soldiers, and has made many sketches of the battlefields near Manila.

Excitement over gold mining in Lepanto, northern Luzon, is increasing, a number of pockets having been discovered, but no well defined ledges have been found. The federalists are securing many new members for their party in Laguna province, east of Manila.

Conservatives Try Writing It. The promoters of the conservative party have published a long address to Judge Taft, president of all the Philippines communities, written in flowery and ornate language, the gist of which seems to be expressed in the following paragraph: We confess to being distinct from some of those men who are co-operating with the American government in peace in that particular which refers to the maintenance against restrictions and exactions of our program, which places the maintenance of peace subject to a compliance with the conditions, which would lead to a point where there is no outlet. We believe there is no better means of perpetrating it than an absolute and unconditional admission as you, my brothers, and as conditions may admit, its aspirations, blessing the hand which strengthened it and kissing the hand, if it so deserves, that raised the last cord of its dependency and thus converting it into its own equal.

Examine, Blind, Curing, No Pay. Iching, blind, bleeding or protruding piles. Your surgeon will refund you money if PAZO OINTMENT fails to cure you. 50 cents.

Appoints Fish and Game Warden. PIERRE, S. D., March 1.—(Special.)—Governor Herreid has appointed as fish and game warden: For Bon Homme county, J. W. Turner of Springfield; for Campbell county, J. H. Kruger of Mound City; Day county, George Babin, Webster; Deuel county, H. H. Herricks, Gary; Hamlin county, C. E. Turner, Hazel; Minnehaha county, John W. Hutchinson, Sioux Falls; Sanborn county, Joseph Dood, Farrell; Spink county, C. L. Downey, Ashton.

THE GRIP CURE HAD DOES CURE. Laxative Bromo-Quinine removes the cause.

Two New Insurance Companies. PIERRE, S. D., March 1.—(Special.)—Two new fire insurance companies have been organized at Chamberlain, known as the Guaranty Fire and the Security Fire. They are both mutual companies and the organization is pushed at the present time to get in ahead of the provisions of any of the new laws which may be enacted by the present legislative session.

SENATE BILL TO AID FARMER'S INSTITUTE. Senate bills acted on were: The Sweet Linnor live stock bill; the bill making county commissioners elected by whole county, both of which passed, the latter wiping out all off-year elections. Senate bill to grant aid to farmers' institutes was killed by votes of farmers. This called out a general discussion, which was championed by Lawson, Redding and Heath of Bon Homme, Dorrland and Orland. The speaker appointed Kelly, Locke and Boylan house conferees on the oil inspection bill. Reports of the appropriation committee on special appropriations for the institutions were adopted and on motion of McDougall they were made a special order for tomorrow afternoon. The house appropriation committee reported favorably on the bill for state deficiency levy. Another morning session will be held tomorrow.

The senate held a short session, killing the bill to appropriate \$5,000 to Fred Evans for work on Soldiers' Home, but notice of reconsideration was given. A senate bill was passed donating certain property to Dell Rapids for a school. Swain's bill to abolish the railroad commission came up on committee report and was lost by a tie vote. In his remarks on the bill Sweet declared the board to be a useless piece of extravagance and read a large part of his work on collection of railroads, which practically advocates government ownership and which was presented to go into the record. Edgerton moved that the project be bound and presented to the State Historical society, but was ruled out of order.

The senate passed house bill to provide a fee of \$25 for the defense of indigent criminals. Senators Cooper, Stewart and Martin were appointed as senate conferees on oil bill. The senate general appropriation bill comes up as a special order tomorrow.

New South Dakota Corporation. PIERRE, S. D., March 1.—(Special.)—These articles of incorporation have been filed: Ramona State bank, at Ramona, Lake county, with a capital of \$5,000. Incorporators, Michael E. Hart, George C. Ackley, Margaret E. Hart and Burd M. Ackley. Salinger Bros., at Pierre, with a capital of \$100,000. Incorporators, Robert M. Two New Insurance Companies. PIERRE, S. D., March 1.—(Special.)—Two new fire insurance companies have been organized at Chamberlain, known as the Guaranty Fire and the Security Fire. They are both mutual companies and the organization is pushed at the present time to get in ahead of the provisions of any of the new laws which may be enacted by the present legislative session.

SENATE BILL TO AID FARMER'S INSTITUTE. Senate bills acted on were: The Sweet Linnor live stock bill; the bill making county commissioners elected by whole county, both of which passed, the latter wiping out all off-year elections. Senate bill to grant aid to farmers' institutes was killed by votes of farmers. This called out a general discussion, which was championed by Lawson, Redding and Heath of Bon Homme, Dorrland and Orland. The speaker appointed Kelly, Locke and Boylan house conferees on the oil inspection bill. Reports of the appropriation committee on special appropriations for the institutions were adopted and on motion of McDougall they were made a special order for tomorrow afternoon. The house appropriation committee reported favorably on the bill for state deficiency levy. Another morning session will be held tomorrow.

The senate held a short session, killing the bill to appropriate \$5,000 to Fred Evans for work on Soldiers' Home, but notice of reconsideration was given. A senate bill was passed donating certain property to Dell Rapids for a school
