Symbols of Success

A vacant chair and a portrait on the wall—strange symbols of success! Yet, in many a home these are the symbols of the success of the man who did not find time to care for his health, or neglected the increasing warnings of disease until it was too late.

When the stomach is "weak" and food is imperfectly digested and assimilated, it is only a question of time until the break-down comes. The stomach is the very center and vital power and must be kept in health if sickness is to be avoided.

Doctor Pierce's Pleasant Pellets cure diseases of the stomach and other organs of digestion and nutrition. They increase the supply of pure, rich blood, and give the body strength to withstand the strain put upon it by the struggle for success.

I was a sufferer from indigestion, but after the doctors and physicians failed to get a cure, writes Mr. H. "I tried more than a dozen different medicines, but none of them did me any good. I was told to take Dr. Pierce's Pleasant Pellets, which I did, and after taking only a few bottles of 'Discovery' and your 'Pleasant Pellets' I was cured. I was able to eat and sleep again, and I feel like a new man. I can say that I was cured by your 'Pleasant Pellets' and I will give you a testimonial to its worth and will continue to do so."

The sluggish liver made active by Dr. Pierce's Pleasant Pellets.

CONGER'S RECORD IN CHINA

DES MOINES REVIEW OF THE OUTBREAK

Iowa Delegation Champions His Cause in Congress—Drift of the Movement to Make Him Governor.

DES MOINES, May 1.—(Special.)—The people of Iowa never before prepared such a hearty welcome as that for the returning United States minister to China, Mr. Conger, who will be welcomed as a hero and a martyr.

Edwin H. Conger has been minister to China for a little more than three years. He was transferred from Brazil and reluctantly went to the more responsible, and as it has proved, a dangerous post at Peking.

Ministers Prompt to Act.

The ministers of the foreign powers in Peking promptly expressed their indignation at the riotous and desecrated legation.

His Personal Career.

Edwin H. Conger is 58 years old, a native of Illinois, educated at Lombard university, entered the army when 19 and soon became a captain in Company I, One Hundred and Second Illinois Infantry.

First News from Conger.

The facts concerning this siege are as yet fresh in the public mind. The first authentic news from inside the legation came direct from Minister Conger, through the efforts of Li Hung Chang, on July 20.

Establishing Peace Terms.

In the days which followed, in which the allied troops were engaged in restoring order and establishing a basis for peace negotiations, Minister Conger ably represented the United States government.

Blames Chinese Government.

In one of his first cables to Washington, in response to an official inquiry, Minister Conger stated his belief that the Chinese government was such as was responsible for the rioting.

VIEWS OF MILITARY ON EVACUATION

Twelve Thousand Five Hundred Men Considered Enough to Keep in China Pending a Final Settlement.

PEKIN, April 30.—Field Marshal von Waldersee, in the letter which he sent to the ministers today, as the reply of the general to the views of the ministers regarding the military questions discussed yesterday by the general in conference, says a garrison of 6,000 men should be left at Tien Tsin and the adjoining district.

The 6,000 men in the Tien Tsin district, in addition to war ships, which must be maintained, must preserve communication with the foreign legations at Tien Tsin and the adjoining district.

Chief Command Desirable.

The creation of a chief command is desirable for purely military reasons, as in cases of disorder or trouble of any kind military measures will be required.
