

BODY FOUND IN GARDEN

Corps is Supposed to Be That of Missing Ephemeral Boy.

SOUTH DAKOTA MYSTERY PARTLY SOLVED

Remains of Other Brothers Are Now Sought on Grounds of W. H. Ward.

Who Flees When First Suspected of Crime.

DEADWOOD, S. D., Aug. 18.—(Special Telegram.)—The body of a youth, supposed to be one of the Shephard boys, who mysteriously disappeared five weeks ago from their home near Pluma, was found this morning at 9 o'clock in the garden of an old miser named W. H. Ward.

Something over a month ago there were rumors about that Ward had made away with Lee and Kirk Shephard and several searching parties went through the old man's home and premises without finding any trace of the boys.

Ward is believed to have been demented at the time and having taken a dislike to the two brothers, Lee and Kirk, to have made away with them.

The putrid body that was found today is supposed to be that of Kirk. The corpse was found two feet below the surface of the ground, buried in a suit of underclothes.

It was found by men who had been probing the garden for a month with iron bars. The earth covers about an acre of ground and every inch is now being turned over in the expectation of finding the body of the second brother, who has not been seen for a month.

When the first searching party went to Ward's house he asked the men what they wanted. He was told that the two Shephard boys were missing and that there was a suspicion that they were around his cabin.

Ward offered to help the men search and started toward the creek for that purpose. He soon returned to his cabin with the excuse that he must water his ducks.

He is medium in height, with brown moustache and eyes, is dressed in his walk, is about 45 years old, pinched face, and was rapid in his talk.

Ward is well known in the northern hills, but has always been considered queer at times. Ward's brother has been arrested and placed in jail, though he is not believed to have been connected with the crime. The whole country around about is excited over the matter.

BLOW OFF THE SAFE DOOR

Wyoming Burglars Get Five Hundred Good Dollars and Many Worthless Papers.

CASPER, Wyo., Aug. 18.—(Special.)—The Webel Mercantile company's store was entered Friday night and a complete job of safe-blowing was committed. The criminals blew the entire door from the safe.

This part of the work shows them to be experts, but the fact that they loaded themselves with a lot of worthless papers, besides about \$500 in money, would indicate that they were amateurs.

GAFFIN REPLIES TO CRITICS

Denies Charges that His Records as Oil Inspector Are Incomplete.

WAHOTO, Neb., Aug. 18.—(Special.)—Hon. J. N. Gaffin, in reply to the charges made against him by the present incumbents of the oil inspectors' office, makes this statement to the editor of the Herald:

"The charge that the records are not complete is untrue. No predecessor ever kept a more complete record. Every barrel of oil or gas inspected is on a record, showing the date and place, the name of the oil or gas, the test made, for whom by whom inspected and the fee charged for the same. Unless the records have been tampered with since I turned them over to the proper authorities there is not a dime collected in fees for oil or gas by my deputies or myself not reported and accounted for showing from whom it was received.

Monthly reports and itemized expense accounts were filed with the auditor and annual reports were filed with the governor and auditor, as required by law. Copies sent to the bond company which furnished my bond.

The charge that the deputies traveled over the state on passes and charged the state mileage is unqualifiedly false. None of them has or used passes.

The charge that the fees were allowed to accumulate in large amounts before being paid into the state treasury is true. There are months when the shipments of oil into the state are light and not enough fees are collected to pay salaries and expenses of the office until the latter part of the year. The surplus fees, if any, for the preceding year shall be paid into the state treasury. I complied with the law, turning into the state treasury in two years \$1,142 and some cents, being more than twice the amount ever paid into the treasury in the same length of time by any predecessor.

CORN FIELDS GIVE PROMISE

West Half of Gosper County and All of Frontier Will Give Good Yield.

ARAPAHOE, Neb., Aug. 18.—(Special Telegram.)—To ascertain fully the condition of corn up to date, correspondent for the Bee took a trip to Beaver City, sixteen miles south of Arapahoe, and on investigation found many good fields that with reasonable rainfall from now on and an ordinary late frost will yield fifteen to thirty bushels an acre. Northwest of this place the crop has been irreparably injured by the dry weather, but north and northwest, owing to rains that seem to be general over a stretch six miles from the valley, corn is in good shape.

OVER TWO BILLION DOLLARS PAID OUT

Veterans Since 1790 Get that Much from Treasury of the United States—Amounts During Different Administrations.

WASHINGTON, Aug. 18.—Commissioner Evans has prepared a statement showing the operations in principal features of the pension bureau during the last fiscal year, as compared with former years. Most of the data will be embodied in his annual report and the statement is prepared for the use of the national encumbrance of the grand array of the Republic, which will be held before the report is ready.

It shows that the number of pensioners on the rolls June 30 last was 997,735, a net gain of 4,206 over last year. The total net loss to the roll during the year was \$2,886, which includes \$1,153 by death, \$53 by remarriage, 1,582 by failure to claim pensions and 1,460 from other causes. A comparative table shows that the roll for the year just closed is the "high water mark" in the history of the pension bureau; the next highest having been reported in 1858. Of the gains to the rolls during the year, 3,849 were from the war with Spain. The losses include two from the revolution, 255 from the war of 1812, 285 from the war with Mexico and 544 from the Indian war.

MCKINLEY INSPECTS HIS FARM

Makes First Trip in Country in Seven Years as Guest of His Tenant.

CANTON, O., Aug. 18.—It has been Farmer McKinley the last week, when the president paid a visit to his country residence, twenty miles from this city, and was the guest of Tenant Jack Adams. Last March Farmer Adams was the president's guest at the White House during the inaugural season, now it was Farmer Jack who was host.

The president had not eaten a meal at his farm home before in seven years and he says that the dinner furnished him was such that it made him wish for more like it.

"That is excellent country ham," is the way the president sized up the situation as he enjoyed Tenant Jack's hospitality.

Farmer Adams got out his surrey, borrowed another from a neighbor and went to Minerva station to await the coming of the president and party. President McKinley was taken to Minerva, which is nineteen miles from Canton, in the private car of Colonel Myron T. Herrick of Cleveland, a director of the Wheeling & Lake Erie railway.

The car was drawn by a special engine. With the president and Colonel Herrick were Secretary Cortelyou, Mr. Raker and Colonel Herrick's son. The start was made from here at 9:30 and the run was quick.

The drive over the country road was pleasant and short. The president and Jack Adams were in the same surrey. They talked of farm matters, weather and crops.

The party was invited to the house and Farmer Adams pointed out to the president the good points and the needed improvements. The president inspected the barn, sheepshed and other buildings and then asked to see the horses.

The party was invited to the house and Farmer Adams and wife made the visitors sit down to a "good country dinner." The presidential party waived all formalities and "pitched in" to do justice to the occasion. The tableware was not of the White House variety, but the food was abundant and substantial. The president said he enjoyed his meal heartily and thanked Farmer Adams and family for the entertainment.

A short inspection of the house was made by the president and it is a safe guess to make that the president will give Farmer Jack Adams a new dwelling place soon. The present structure is old and out of repair.
