

RUINS GIVE UP MORE DEAD

Number of Lives Lost in Philadelphia Fire Increases to Twenty-One.

TONS OF DEBRIS IMPEDE RELIEF WORK

Department of Public Safety Organizes Force to Search Systematically for Full Details of the Catastrophe.

PHILADELPHIA, Oct. 27.—Early this morning another body was recovered from the ruins of Hunt, Wilkinson & Co.'s building, making the total of known dead twenty-one.

PHILADELPHIA, Oct. 26.—Another body was recovered early today from the ruins of Hunt, Wilkinson & Co.'s building, which was yesterday destroyed by fire, making the number of known dead twenty-two.

PHILADELPHIA, Oct. 26.—The bodies of the victims of the fire which fell into Commerce street, burning many of the unfortunates who had leaped from the windows. A force of men was at work all through the night, but very little impression was made upon the tons of debris and it will be some days before the number of fatalities can be definitely determined.

DETAILS BOTH THE ENGINES

Collision of Two Trains on Wabash Near Lafayette Smashes Them, but Kills No One.

PERU, Ind., Oct. 26.—A westbound passenger train and a fast freight train on the Wabash railway met in a heavy fog today near Lafayette. Both engines were derailed and badly damaged, but the engine crews escaped injury by jumping.

The force of the collision crushed the platforms of the forward passenger coaches, but beyond a severe shaking up no passengers were injured. The freight was trying to reach a switch where the trains had orders to pass.

Up to this time the police and firemen have the names of eighteen people, including a number of women, who are accounted for. In order to correctly determine the number of missing, officials of the department of public safety began a systematic search today of all the hospitals and homes of the employees of the firm. To facilitate the work of registering and identifying them a meeting of the firm and employees was held this morning in a hotel. During the morning the members of the firm of Hunt, Wilkinson & Co. met the fire marshals and building inspectors to discuss the cause of the fire.

Late tonight no additional bodies had been recovered from the ruins. During the day the firemen unearthed several blackened limbs, which are undoubtedly portions of some of the bodies found, as many of these were without heads, arms and legs.

City detectives are investigating the cause of the fire and the corner tonight said he would be able to place the responsibility where it belonged.

A number of employees of Hunt, Wilkinson & Co. reported missing today appeared at the firm's temporary office.

HUNDREDS OF GRANTS ATTEND

Family Union Draws Them from All Quarters—General's Widow Cannot Come.

WINDSOR, Conn., Oct. 26.—Two hundred members of the Grant family are assembled here today to honor the progenitor of the American branch of the American family. Celebration will last three days and the program includes addresses by prominent members of the family from all over the country.

Representatives of executive office showed that 1,562 new members have been enrolled during the year, making a total of 400, of which 2,500 are living. Eugene J. Grant, Brooklyn; Hezekiah K. Grant, Phillipsburg, Pa.; Captain Robert T. Grant, Washington; secretary and treasurer, Frank Grant, Westfield, Mass.; recorder, Rev. Arthur H. Grant, Mont Clair, N. J.

The afternoon program included an address by Congressman Burton, of Cleveland; vice presidents, Ralph M. Grant, West Windsor, Conn.; Eugene J. Grant, Brooklyn; Hezekiah K. Grant, Phillipsburg, Pa.; Captain Robert T. Grant, Washington; secretary and treasurer, Frank Grant, Westfield, Mass.; recorder, Rev. Arthur H. Grant, Mont Clair, N. J.

THINK BOYS WERE MURDERED

Three Bodies Found in a Well and Death Not Due to Asphyxiation.

GRANVILLE, Ill., Oct. 26.—It is now believed that the three sons of Josephus Casper, who were found dead in a well on their father's farm, were murdered. It was supposed they had been suffocated by foul gas. The boys were George, Edward and Clement Casper, aged respectively 23, 11 and 8 years. They were at work on the well two days ago when their parents left home to attend court at Princeton. They had mysteriously disappeared when their parents returned and only a persistent search by neighbors and relatives revealed the bodies lying in a shallow heap at the foot of the well. When the bodies were brought to the light with grappling hooks it was found that the youngest boy's neck was broken and that a ugly gash had been cut in the back of George, the oldest. His death, the physicians say, was not caused by asphyxiation. No reason for murder has been found.

EXONERATE MR. TUNNICLIFF

Eastern Papers Correct Their Error Concerning an Omaha Attorney.

BOSTON, Mass., Oct. 26.—(Special Telegram.)—A story from Augusta, Me., which was given wide circulation in the Boston papers, to the effect that a new swindling game had been discovered by Bank Examiner Timberlake of that city, turns out to be a complete misstatement of facts and the papers publishing the story are retracting it.

The story said that N. H. Tunnicliff, an Omaha lawyer, had attempted to get possession of the bank belonging to Mrs. Lydia Blake of Moomouth, Me., that had not been written up for several years. The Boston papers admit that Mr. Tunnicliff is a lawyer of high standing and that his part in the case was entirely above board. He makes a specialty of seeking lost heirs and in a general letter to Mr. Blake informed him of an unclaimed bank deposit of \$500, naming his terms. She looked up the matter and found it was her old account, not written up to date. The account had been wrongfully reported by the bank and Mr. Tunnicliff immediately returned the power of attorney and other papers.

PHILADELPHIA, Oct. 27.—Early this morning another body was recovered from the ruins of Hunt, Wilkinson & Co.'s building, making the total of known dead twenty-one.

PHILADELPHIA, Oct. 26.—Another body was recovered early today from the ruins of Hunt, Wilkinson & Co.'s building, which was yesterday destroyed by fire, making the number of known dead twenty-two.

PHILADELPHIA, Oct. 26.—The bodies of the victims of the fire which fell into Commerce street, burning many of the unfortunates who had leaped from the windows. A force of men was at work all through the night, but very little impression was made upon the tons of debris and it will be some days before the number of fatalities can be definitely determined.

DEATH RECORD.

John McKay, Oarsman.

HALIFAX, N. S., Oct. 26.—A telegram from St. Louis has announced to relatives here the death at Fern Ridge, Mo., yesterday of John McKay, the oarsman who for three years, with Jake Gaudaur, was double scull champion of the world. McKay was born in Dartmouth, N. S., but resided in Boston, and was a member of many rowing clubs and was an instructor in rowing. He was about 40 years old.

Prof. Fenelon Rice, Oberlin.

YANKTON, S. D., Oct. 26.—(Special Telegram.)—The house occupied by Weather Observer Orris W. Roberts here was burned this morning. Mr. Roberts and family barely succeeded in escaping in their night clothes. The fire started in an upstairs closet. The house belonged to H. B. Swin-Moe and was insured. Mr. Roberts' loss included clothing and furniture, valued at \$1,500 insurance, which is insufficient to cover his loss.

ST. PAUL, Oct. 26.—A dispatch from Omaha to the London Times and the New York Times says the water of the Volga is falling at an alarming rate and that there is no hope of getting the accumulated traffic through before the river is icebound. Several hundred steamers and barges are aground. Grave charges of mismanagement and corrupt practices have been made against the contractors and officials connected with the administration of the Volga waterway. It is declared that the water would have to rise two feet before the freezing, which is unlikely, in order to liberate the caravans of oil and general merchandise, the non-delivery of which will cause disaster along Russia's great waterway.

Boys Hunting Holdings.

SAN FRANCISCO, Oct. 26.—According to the Call, telegrams from New York represent that General Hubbard yesterday bought all the Huntington holdings in the Pacific Improvement company. The sum paid for the shares of the Huntington stock of the corporation was \$2,500,000, or \$200 per share. It is not known whether General Hubbard purchased the stock on his own account or for others. There are reports to the effect that Mrs. Stanford's 12,500 shares of the Huntington stock were sold to the American Ice company and Charles W. Morse, its president, for writs of absolute prohibition to restrain the attorney general from continuing the proceedings against the American Ice company to ascertain if it has violated the state anti-trust law. The decision of Justice Herick will be appealed to the appellate division and to the court of appeals.

FOOT BRUISED BY CAR WHEEL

John Burke of 1251 South Thirteenth street had his left foot severely bruised and corrupt practices have been made against the contractors and officials connected with the administration of the Volga waterway. It is declared that the water would have to rise two feet before the freezing, which is unlikely, in order to liberate the caravans of oil and general merchandise, the non-delivery of which will cause disaster along Russia's great waterway.

Give Schwab a Loving Cup.

PITTSBURGH, Oct. 26.—At a dinner given today by the operators of the Carnegie steel plant, Charles M. Schwab, president of the United States Steel corporation and former president of the Carnegie company, was presented with a handsome loving cup. President Schwab's address is 1100 Broadway, New York. He is the only member of the Carnegie family who is still living.

Denies Injunction to MacDowell.

ST. PAUL, Oct. 26.—Judge Wood of the district court has filed an order denying the petition of W. Melbourne MacDowell and others for a temporary writ of injunction against Clarence Brine and L. N. Scott enjoining them from using Brine's plays, on which Panny Davenport-MacDowell held a ninety-nine-year license.

Old Washrags Are Fired.

EASTPORT, Me., Oct. 26.—The torch has been applied to the washrags in a lumber yard here a few months ago, and broken up for the metal in his mill, and the death of the physician was not caused by asphyxiation. No reason for murder has been found.

UNCLE SAM LOOKS INTO IT

Chilean Steamers' Charge of War Supplies Arrests Suspicion.

FARTHER SOUTH THERE IS HARD FIGHTING

Word Received at Port of Spain that Colombian Revolutionists Have Received Some Severe Disencouragements.

SAN FRANCISCO, Oct. 26.—Suspicious circumstances surrounding a big shipment of arms and ammunition on the Chilean steamer Low Cowig in this port has led to action by the United States officials to prevent any possibility of the warlike goods reaching the hands of the central American insurgents. The cases contain 4,500 rifles and bayonets and 2,500,000 ball cartridges. The bills of lading show that the guns and ammunition came to this city from El Paso, where they are supposed to have been shipped from some point in Mexico. The ship's manifest stated that the munitions of war were for the insurgents of Salvador and that they are to be landed at Aguadilla. The consul general of Salvador here disclaims knowledge of the shipment, though Schwartz Bros., the estimable shippers, claim to be acting for Bloom Bros. of New York, who are agents for the government of Salvador. The matter will be held pending an investigation by the United States authorities.

SAN FRANCISCO, Oct. 26.—The rumors regarding the arms and ammunition aboard the Chilean steamer Low Cowig set at rest today, when the action of Collector Stratton in allowing the steamer to leave the port was announced. A part of the cargo consists of 450 boxes of rifles and 422 boxes of cartridges, shown to be for the Salvadorean government. They were purchased from the Mexican government.

INDICTED BY THE GRAND JURY

Monona County Gets Some Surprises and More Are Promised When Arrests Are Made.

ONAWA, Ia., Oct. 26.—(Special.)—The grand jury of Monona county has been in session this week and a number of indictments have been returned. Some of them will occasion considerable surprise when known. Part of them are omitted, as the parties are not under arrest. The following are made public:

In the matter of Arthur English, assault with intent to injure, no bill was found and defendant was discharged.

James Williams was indicted for larceny. George Hansen was indicted for assault with intent to commit murder.

L. Ropes was indicted for assault with intent to commit murder.

The grand jury indicted the poor farm near Castens yesterday and adjourned for the term this morning. In the district court today the case of Christian Jensen against W. T. Pink is on trial.

ABANDON SEINING SCHEME

Protective Association Will Take No More Fish from Cut Off Lake.

Two hundred pounds of carp and buffalo fish, 175 car and a 500-foot seine cut into a thousand pieces were the results of the recent seining of Cut Off lake by representatives of the Douglas County Fish Protective association. The members of the association who were instrumental in bringing the seining done say that they will never again consent to have fish taken from the waters of Cut Off lake by seines and that the next effort of putting fish into the lake.

One of the representatives of the association will call upon Senator Millard to secure, if possible, from the United States government batteries several cans of black bass, calice bass, cropp and other game fish for the waters of the lake. In the spring permission will be asked from the proper authorities to let the Missouri river to capture game fish for the lake. At that time the promoters of the plan will request the privilege of selling sufficient fish, other than game fish, captured from the river for the purpose of paying the expenses of the work.

The plan for seining the lake met with considerable opposition, which culminated in the destruction of the seine used in the ground. Grave charges of mismanagement and corrupt practices have been made against the contractors and officials connected with the administration of the Volga waterway. It is declared that the water would have to rise two feet before the freezing, which is unlikely, in order to liberate the caravans of oil and general merchandise, the non-delivery of which will cause disaster along Russia's great waterway.

FOR BILLIARD CHAMPIONSHIP

Tournament at Madison Square Garden in December is to Decide Who's It.

NEW YORK, Oct. 26.—It is announced tonight that a billiard tournament has been arranged to be played during the week of December 2 for a purse of \$2,000 at the Madison Square Garden concert hall. The object of the tournament is to settle the dispute as to who is champion, that title practically having been won by the late George Slosson in 1897 and although he afterward, in 1900, was defeated by the late Harry Davis in 1900, he refused to agree to the conditions, the public still looked upon him as the champion.

ST. PAUL, Oct. 26.—Experiments are to be made without delay by the Great Northern in the Cascade tunnel to determine the merits of different methods of tunneling. The tunnel is to be dug up, and the clear, although the most improved system is to be used.

WONDERFUL CURES BY SWAMP-ROOT

To Prove what the World-Famous Discovery, Swamp Root, will do for YOU, all Our Readers may have a Sample Bottle Free by Mail.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, and if permitted to continue fatal results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and need attention first.

So when your kidneys are weak or out of order you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are sick, or feel badly, begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.
