PATRIOTIC ORDER PROSPERS

State Meeting of Daughters of American Revolution Held in Des Moines.

IOWA REDMEN SELECT THEIR OFFICERS

Supreme Court Upholds Validity of Verbal Contract to Transfer Land Involving in Selecting Seed Corn.

(From a Staff Correspondent.) DES MOINES, Oct. 15.—(Special.)—The state meeting of the Daughters of the American Revolution was held here today. The state regent, Mrs. Julian Richards of Waterloo, presented her annual report, in which she called attention to the fact that there has been substantial growth in membership and several new chapters were added during the year.

The address by the state regent was very interesting. After a fitting introduction Mrs. Richards mentioned the new chapter which has been organized in the past year, the chapter at Fort Madison. Other chapters about ready to organize are at Marshalltown, Fairfield, Okaloosa and Independence. Mrs. Richards referred to the Charles Shepherd monument which is to be erected by the Daughters of the American Revolution. The legislature appropriated \$500 toward the grave of Charles Shepherd, a martyr of the revolutionary war, who was buried in 1848 near Mills-paugh Mills, Henry county. The conference took up the subject and was to pass some resolutions. The matter, however, was referred to the various chapters throughout the state.

Meeting of the Redmen.

The sixteenth annual convention of the Improved Order of Red Men was concluded here today with the following officers: Grand Sachem, W. F. Menton, Boone; great senior saganore, William Allen, Pella; great junior saganore, George Richards, Colfax; great keeper of records, Frank Day, Des Moines; great keeper of wampum, Fred Lumpkin, Fort Dodge. The election signifies virtually a reorganization.

Queer Land Deal Approved.

The supreme court of Iowa today affirmed a case from Marion county involving possession of land on an oral agreement to deliver the same under peculiar circumstances. One John Cochran had promised James Daley that if the latter would name his son, after Cochran, he would give the boy forty acres of land. The boy was so named, and years afterward Cochran bought a tract of land to give to the son. He did not execute the deed before he died and suit was brought to secure possession. It was plainly shown that Cochran intended this certain tract of land to be given to the boy, and the court today accepted such an oral agreement as binding against the estate. Judge Desmer wrote the opinion and Judge McClain wrote a dissent, taking the ground that a contract to convey land in this manner was not valid.

OTTUMWA, Ia., Oct. 15.—(Special.)—The sheriff's jury has awarded the property holders \$40,000 for their land condemned for the construction of a fish-way through the Bonaparte dam. The decision is believed to be far in excess of the actual worth of the property.

PRESIDENT FOR UNION LABOR

Secretary Moody Says Roosevelt Stands for Organization by Workmen.

KANSAS CITY, Mo., Oct. 15.—Secretary of the Navy Moody addressed a big republican meeting in Kansas City, Kan., tonight.

He gave a history of the coal strike and said: "The strike feeling increased in bitterness and we the best grew apprehensive of the prospects for winter. Appeals were made to the president, and after much deliberation and after consulting with his advisers the president decided to make an effort to compromise the difficulty."

The coal operators have apparently renounced the interference of the president in the coal strike, but I say it is too late to complain of the organization of labor. Organized labor, like organized capital, is here to stay, and the administration of President Roosevelt stands for organized labor. We believe that the voices of both organization must be listened to, both must work for public welfare and they must yield obedience to the laws of the land."

Mr. Moody declared the constitution did not contemplate that the army could be used as a police force by the president, in referring to the demand of the operators that United States troops be called in to protect property. "and," he said, "if the president had granted this demand he would have been subject to impeachment."

The school will continue two weeks and men from all over Iowa who choose to attend may learn all about the qualities of good seed corn. It is the intention of those who will conduct the school to make a systematic effort to judge the farmers of Iowa to improve the quality of their corn by selection of good seed. Prof. Holden is regarded as an expert in this line. He claims that by the selection of seed corn and improvement of the variety of corn used in Iowa from 5 to 10 bushels an acre can be added to the crop of Iowa. The seed corn school at Ames is a new and unique thing.

TRAINMEN ARE TO BLAME

Finding of Coroner's Jury in the Case of Craig, Bodyguard of President.

PITTSFIELD, Mass., Oct. 15.—The finding in the inquest following the accident in which President Roosevelt's bodyguard, William Craig, was killed here last September, filed today, says that the "unlawful acts of James T. Kelly, conductor, and Euclid Madden, motorman," of the electric car which ran into the president's carriage, "contributed" to the death of Mr. Craig. The finding was by Special Justice Charles L. Hibbard.

Justice Hibbard finds that the horses attached to the president's carriage were going at the rate of six miles an hour and the car from fifteen to twenty-five miles an hour. He also finds that there was a misunderstanding with the street car company as to what thoroughfares were to be closed to traffic during the president's visit. No evidence, the report says, was found to show that the car was not running at regular schedule or that the officials of the road had given any orders for it to be run otherwise than under normal conditions.

449 Cleveland Ave., Chicago, Ill., April 9, 1902.

Five years ago when my first child was born it nearly cost me my life. I had four doctors and they used their best skill to save me. To be sure I did not die but my life was worth little for my health was broken. Inflammation and ulceration rapped my strength and robbed me of life's happiness. I was in despair when fortunately one of your Birthday Almanacs fell into my hands. It gave me new hope for I thought: "Why cannot Wine of Cardui do for me what it has done for others?" I began taking it at once and speedily improved. Within two months I was like a new being. My troubles had disappeared. I felt no pains any longer where before every bone had ached and every spot felt sore. Last year I was blessed with a little daughter. I look upon Wine of Cardui nearly four months before she came and felt well repaid. My parturition was easy and almost painless. I am the happy mother of two children, enjoy perfect health and give the credit to your great medicine.
