

SOCIETY TALKS OF WEDDINGS

Brides of Week and Affairs of the Bridal Furnish Goods.

COMING WEEK WILL BE A BUSY ONE

Calendar Presents a Pleasing Array of Events Which Will Occupy the Smart Folks During the Week.

The Eternal Mascalline. At seventeen we meet some girl. We worship fond and deep. And beg from her a tiny curl.

At twenty-seven, less enthused With aburnt tinted curls. We find her grow much confused To recollect which girl's Fair head it once belonged.

At thirty-seven, then, one day While rummaging we stare In absent way at it and say "The devil! Those red hairs! Is this? It never belonged to me! The bricky stuff!" At Fate! We toss it forth and see it crinkle in the grate.

The Social Calendar. MONDAY—Dinner and dance by the ushers of the Preston-Burns bridal party at the Country club.

Not since the girls "came out" last fall has society had such a busy time as the past seven days have been.

There are to be two dancing parties this week, one of which will be complimentary to a visiting girl, Miss McCormick of Salt Lake City.

Two more of the whist clubs that have had over many a quiet week have made their final scores and put up their cards for the summer.

A party of young women who went to the train last Monday to see some friends off, involuntarily took a little excursion themselves.

Weddings and Engagements. The wedding of Miss Jessie Johnson, daughter of Mr. R. J. Johnson, and Mr. Frederick Barnum will be solemnized at high noon Wednesday at the home of the bride's father on Decatur street.

Mr. and Mrs. L. Rosenfeld of Council Bluffs will receive Monday evening, June 12, at their home, 222 South Seventh street, in honor of their daughter, Miss Ella Rosenfeld, whose engagement to Mr. Harry L. Cohn of Omaha was announced last week.

THE FIRST LESSON. That the young girl has of womanhood is not seldom a painful one. She learns to know what headache means, and backsache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time, may in almost every instance be entirely prevented or relieved by the use of Dr. Pierce's Favorite Prescription.

"Favorite Prescription" makes weak women strong, sick women well, accept no substitute for the medicine which works wonders for weak women. Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and is held as strictly confidential.

WOMAN IN CLUB AND CHARITY

Thirty-nine of the forty-three clubs in the South Dakota federation were represented at the annual convention of the federation held Wednesday and Thursday of last week at Huron. The session was opened with an organ voluntary by Alfred Smith, followed with invocation by Rev. J. P. Anderson of the Presbyterian church.

The address of welcome on behalf of the city was given by Mayor J. A. Cleaver, and on behalf of the club women of Huron Mrs. E. E. Vance, president of the Nineteenth Century club, gave a greeting, to which response was made by Mrs. E. G. Coleman, president of the Athena club of Plandreau.

All of these addresses were hearty and specially appropriate to the occasion. The regular order of business included reports from the department committees in charge of club work and were full and interesting. A pleasing and also a profitable feature of the session was the annual address of Mrs. Anne A. Lumley of Pierre, president of the State federation, who emphasized the fact that the women have a great influence by being in the club life and can do much for the advancement of the world.

In club work all must work together, and in this there must be enthusiasm, earnestness of purpose and sympathy. She said a woman ought not to consider that mere housekeeping was not home-making; but must broaden out—a higher education is needed by the women of the world. Women have a great work to do, and great things can be accomplished by them, and yet they need to lose their dignity. Mrs. Mitchell discussed civic improvements in a very able paper, followed by much comment and offering of suggestions.

Dr. Chalmers, president of Brookings Agricultural college, being a visitor, gave some thought along the same lines, and urged the consideration in Mrs. Branson's paper. Mrs. Fred J. Baker spoke of "Characteristics of American Life," and a comparison of northern and southern colonies was made by Mrs. Riggs of Pierre, followed with a parliamentary drill by Mrs. W. A. Lyon of Sioux Falls. A reading by Miss Adams and a vocal solo by Miss Booth were features of the session.

The following resolutions were adopted at a recent meeting of the Dundee Woman's club: Whereas, the good name of the family of one of our members, Mrs. Elmer E. Red Oak, Ia., was assailed in open court by the Dundee Woman's club desire to give publicity to the same, and to the satisfaction and high esteem in which Mr. and Mrs. Thomas are held by us.

Resolved, that we publicly and emphatically assert our confidence in Mr. Thomas, who, as an earnest, efficient citizen, has done much for his country and his fellow men, and we have only words of praise and commendation for his mother, neighbor, club member, she is one whom we delight to honor.

The following partial report of the civil service reform committee of the Massachusetts federation not only affords interesting information, but many suggestions that may be profitably adopted by other federations:

Our January meetings, which were many and in all parts of the state, were well attended. We have done everything that can be done by the club itself. We are asked, in common with the other federations, to re-organize before the next year's meeting, when possible, the month of January.

We suggest that where clubs have not already club lists, they should be made, and subject be treated as a whole, and an attempt made to understand its bearings upon the conditions of our public life, and its relations to the great questions to which the General Federation and state federations are increasingly devoting attention.

Where clubs have already done this preliminary work, it is suggested that definite questions of the application of the law, dealing with the public service, and of which the club should be taken up and thoroughly discussed.

Such as: What offices in your town are under civil service? How are they run? Why are not more offices brought under this law? What have the last ten years done for the public service in the United States? Civil service as a means of better government. How can children be taught to believe in the "spoils system" is civil service literature used in your schools? If not, how can you do to introduce it? And questions of like character.

Where clubs have already done this preliminary work, it is suggested that definite questions of the application of the law, dealing with the public service, and of which the club should be taken up and thoroughly discussed.

The statistics given by the woman's auxiliary to the Massachusetts Civil Service Reform association are more impressive and we cannot be too proud of its work, both in this state and throughout the United States. The first year of its work, about 50,000 pamphlets have gone to grammar schools and high schools, and more than 100,000 pamphlets have been distributed and there is a record of over 1,300 letters and collectives which have been sent.

The chairman of the General Federation committee gives these statistics: Sixteen state federations, and thirteen federations have sent wise and indefatigable work from Miss Bacon. In the work in this federation we have given up most active work of our presidents and executive officers. We cannot be grateful enough for words and letters, which have kept this subject of the merit system before the men and women of our whole country.

The death of Madam Laheur, which occurred last Wednesday at the Old People's Home, closes the career of one of the most interesting of the many talented women who have had a part in the educational life of Omaha. Born and raised in Paris she knew that city from an intimate association with many of the people who were most prominent there a generation or so ago.

The wife of a Paris journalist of distinction, her home was the rendezvous of the literary and artistic world of Paris, when reduced in circumstances, she came to America, locating in Omaha a number of years ago. As a teacher of French she was widely known and when two years ago her feeble health made it necessary for her to give up active work, she entered the Old People's Home, where for some time she continued her French instruction to a few.

The number of added attractions at Krug park for the coming week will furnish entertainment of a high class for the thousands. As a special feature Manager Cole has engaged the famous Italian circus, This is their first American engagement, and as they are presenting their serpentine mazes on Sunday last, and were both surprised and pleased at the wonderful display presented in the underground ride of a mile. The Royal Canadian band received an addition of three soloists and is now, under the leadership of J. M. Finn, a perfect instrument of harmony.

Mr. Finn has negotiations under way to secure the services of one of the most famous cornet soloists in the country.

The Temple of Palmistry has been repaired and decorated anew and received its fair share of the park business. Mme. Francisco has certainly proved a drawing card and attraction to her numerous patrons. The moving pictures have again demonstrated their popularity, the benches being crowded nightly. This evening a complete pictorial representation of "The Life of Christ" will be presented and alternate days of the coming week "Paradise." The prismatic fountain has proved a huge success. The beautiful display of colors on its falling waters is a perpetual source of delight to thousands.

The park cafe with its efficient service and elaborate menu, under the skilled direction of the well known hotel manager, Mr. Kay, is catering to a largely increased business, in fact, it is quite the thing now to have dinner with Mr. Kay. Further surprises are promised by Manager Cole for the coming weeks.

LINDWOOD PARK LOTS SOLD. Attorneys Cooley and Wakeley Score Legal Victory for Creditors of Old Globe Savings Bank.

The first real fruits of the numerous suits brought by Attorneys Julius S. Cooley and Arthur C. Wakeley against Cadet Taylor and his associates in the defunct Globe Savings bank, on behalf of depositors in the institution, were placed Saturday, when the sale of about 100 lots of the Lindwood Park Land company to satisfy in part the claims of James M. Weckerly was confirmed by Judge A. L. Sutton.

Weckerly was one of the depositors in the old Globe bank and the Lindwood Land company was a creation of Taylor and others interested in the bank. The fight to get back something for depositors was started about ten years ago, or shortly after the failure, by Judge Cooley, who discovered that considerable property owned by stockholders of the institution was vested in "trustroom" land companies and thereby not on record in the stockholders' names. A prisoner whom Judge Cooley defended for some trivial offense in police court happened to remark that two day laborers, friends of his, were president and secretary-treasurer of a land company which Cadet Taylor had incorporated in Illinois. Cooley has never since stopped trying to get at the concealed assets of Taylor and the others who owned the bank. Apparently he and Attorney Wakeley have been successful in all of the many cases they have undertaken, but this is the first one where the property has actually been bid in for his client.

It will be remembered that Julius S. Cooley and Arthur C. Wakeley brought and won one of the most unique cases ever heard in the courts of Nebraska or the United States against Cadet Taylor, who was insured in an accident insurance company of London, England, and was seriously injured and had assigned his interests in the policy to his wife. The lawyers sued the London Accident Insurance company, Cadet Taylor and his wife and not service on the company through its agents here. Judgment was secured and an order made that the company pay the money over to satisfy the numerous judgment creditors against Taylor and his associates. The judgment, interest and costs now amount to about \$2,000, with the money tied up by reason of an appeal to the supreme court not yet acted upon.

Judging by the amount of plate and window glass arising at the warehouse of the Kennard Glass and Paint Company, they must be anticipating the big building boom or extensive ballrooms.
