

AFFAIRS AT SOUTH OMAHA

Magic City Railroad Yards Are in a State of Congestion.

MERCHANTS CANNOT GET TO THEIR CARS

Immense Increase in Freight Traffic to the City is Given as Cause of the Congestion and Delay.

The railroad yards in and about South Omaha are congested with freight cars. Local merchants are having a hard time getting cars set on sidetracks. All kinds of material is being delayed on account of the inability of the railroads to handle cars of freight.

Officials of the railroads here say that everything possible is being done to get the loaded cars switched and unloaded, and they promise that the blockade in the yards will not last a great while longer.

Every contractor doing business in the city is complaining about his inability to get material. Material to be used in some of the buildings now being erected here has been invoiced for some time, but the cars cannot be located.

Completing Election Arrangements.

The voting machine custodians will finish up their instructions to judges and clerks today and final instructions will be given. All officers of election boards must be at their respective precincts at 7:15 on Tuesday morning.

The republican and democratic county central committees have secured copies of the last ten days' registration from the registrars in each precinct, and the city clerk will not be compelled to hurry the work of making copies of the registration books today.

Many Washouts Reported.

Police officers and others have reported a large number of washouts on the streets where the road machine has not been worked this fall. Missouri avenue is in an almost impassable condition and it will very likely be several days before the work of curbing this thoroughfare can be resumed.

More Delay at Freight Depot.

Saturday a water main at the site of the proposed Union Pacific freight depot burst and flooded the excavation. The water was shut off by the Omaha Water company and repairs will be made as speedily as possible.

Council Meeting Tonight.

This evening the city council is to meet in regular monthly session. There is a large amount of routine business to be transacted. Bills for October are to be allowed in the general fire and street repair funds.

Board of Education Meeting.

This evening is the date of the regular monthly meeting of the Board of Education. Aside from the routine business it is expected that the question of constructing a ward school building in the vicinity of Twenty-third and G streets will be brought up.

Passes the Century Mark.

ST. JOSEPH, Mo., Nov. 5.—Mrs. Sarah A. Shook, aged 100 years, died at Winthrop yesterday. She was born in 1798. She was married twice, first when 14 years old, and was the mother of seven children.

Put your Want Ads in The Bee.

LOCAL BREVITIES

It has been reported to the police that an unclaimed lawn swing has been lying in the yard of the Home of the Good Shepherd, Fortieth and Jackson streets, since Halloween night. The police have received no report of such a loss.

OMAHA MEN AND THEIR HOBBIES

PAUL GOETCHMANN—Standing Up to the Case.

building could most likely be erected next year in time for the opening of the schools in September next.

Neher Admits Guilt. H. F. Neher was brought to South Omaha yesterday from Beatrice by Detective Eisfelder. He is wanted for passing worthless checks and drafts. About ten days ago Neher passed a draft for \$12.50 on the proprietor of one of the hotels here and left the city.

Magic City Gossip. George W. Mosher, who has been seriously ill, is much better. Residents in the vicinity of Thirtieth and Madison streets are petitioning for an electric street light.

This evening the Lotus club will give the second of a series of select dancing parties at Workman's temple. On account of the light registration it is expected that at least 200 votes will be sworn in on election day.

Rev. Andrew Renwick preached at the United Presbyterian church last evening on the topic, "The Master in Overalls." The ladies of the United Presbyterian church are preparing for their annual church picnic to be held at the church on the evenings of November 15 and 16. A fine program is being prepared.

GOES IOWA MAN ONE BETTER

Holt County Man Takes Only Two Baths in Fifty-Five Years.

One or two baths, the two a little uncertain, in fifty-five years is a more astonishing record than that of the Iowa man whose wife got a divorce from him because he had not taken one in twenty years. Yet this is the deliberate assertion of John E. Anderson, Dorsey, Holt county, Nebraska. He has been hanging around the city jail for three days past, trying to get a trace of \$30 he lost at the hands of some colored denizen of the lower wards last week.

"Are you sure about that?" asked the captain. "Well, I'm not sure about the two; but I guess I'm sure about one, anyway. I'm getting forgetful some way. I never was sick a day in my life. I used to drive the stage out of Dorsey for years. Everybody knows me up there."

The old fellow stroked his whiskers proudly, whiskers that had grown until only the whitening winds of Holt county were responsible for their not reaching his knees.

He took the sly thrusts of the whole office force with perfect good nature. It appeared to him that the man who bathed was the man out of the ordinary. "What's the use," that bath I look never did me any good. If it did I've forgotten it."

A Reliable Remedy for Croup.

With the dry, cold weather of the early winter months, parents of croupy children should be on their guard for ominous symptoms. There is no cause for anxiety when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as the child becomes hoarse or even after the croupy cough has appeared, the attack may be ward off. Mrs. B. Rosenthal of Turner, Mich., says: "We have used Chamberlain's Cough Remedy for ourselves and children for several years and like it very much. I think it is the only remedy for croup and can highly recommend it."

Odd Fellows Celebrate Anniversary.

HURON, S. D., Nov. 5.—(Special.)—James River lodge No. 2, Independent Order of Odd Fellows, celebrated the twenty-fourth anniversary of its organization last evening. The occasion was a happy one and the historical sketch of the lodge as given by Hon. H. J. Rice was interesting. There were but four of the charter members present. H. J. Rice, W. A. Ritschlag, Jud Smith and Harry Rowe. At the conclusion of the program dancing was indulged in, refreshments served and several hours spent in merrymaking.

Passes the Century Mark.

ST. JOSEPH, Mo., Nov. 5.—Mrs. Sarah A. Shook, aged 100 years, died at Winthrop yesterday. She was born in 1798. She was married twice, first when 14 years old, and was the mother of seven children.

AT THE PLAY HOUSES

"The Pit" at the Board.

Wilton Lackaye and company in "The Pit," a play in four acts and six scenes, based on the novel of the same name by Frank Norris; under the direction of Channing Pollock; under the direction of William Bradford Huie.

Curtis Jadin, Wilton Lackaye, Sheldon Cortwell, Walter Pennington, Sammie Brown, George O. Morris, Charles Cressler, George O. Morris, Landry Court, Frank Dekum, John G. Jones, Quincy C. Bass, Calvin Hardy Crookes, Hale Hamilton, Hargus, a delirious, K. H. Reardon, "The Pit" at the Board.

It is almost unapproachable, as a work of literature, to have a place, just as all sorts of unpleasant things are placed in the economy of nature, if we but study hard enough and dig deep enough to find them; as a psychological study, it is crude.

It offers the contrast of a neurotic woman and a phlegmatic man, with a number of others who are thrown into the picture. To offset the many attributes of the hero, we are given two men, one his business and the other his social antithesis.

The uncertainties and whimsical moods of the heroine are offset by the straightforwardness of her sister. The story is of the town of the title, begun in a pleasant, and runs a more or less direct course through a continuing atmosphere of unpleasant things, till it reaches a conventional ending in the anti-climax. Whatever of vitality it possesses it derives from the vivid characterization given by Mr. Lackaye to the role of Curtis Jadin.

Lackaye has almost achieved the impossible by visualizing the character of Curtis Jadin, and making him a man of flesh and blood almost as the author had described him.

Jadin is hardly a type, but is used excellently well to illustrate the very strong point of Mr. Norris had in mind when he wrote the second of his trilogy. It is an exposition of the futility of man pitting himself against his fellowmen and nature in the effort to control and fix the price of the things of the world, or any part of it.

The suicide of Cressler, the downfall of Jadin, all the other incidents connected with the affair are but signposts along the road that point to the fate of everybody who has tried that game. More than a dozen years have gone by since Benjamen's first production, and the wheat to \$2.00 on the Chicago Board of Trade, and there are men well up in the business today who never heard of "Old Hutch," while others can easily recall the fact that the old man later presided over the board of the same institution.

Dr. Hedin also proposes to explore the coasts of eastern Persia and will, through King Oscar, request the shah to provide him with an escort. His main object is to discover the sources of the rivers Indus and Brahmaputra, and to survey the great Tibetan lakes. This is the intrepid traveler's fifth voyage of exploration in the unknown parts of Asia.

Announcements of the Theaters.

At the Boyd theater this afternoon, at 3 o'clock, Mr. Richard, Ontario, originator of "Buster Brown" and a lot of other good stuff in the newspapers, will deliver a lecture, or rather an illustrated talk, on his experiences and travels. Mr. Outcault is a humorist as well as a cartoonist, and his tour through the country so far has been most in the nature of an ovation.

On Tuesday afternoon Mr. Wilton Lackaye will appear at a special matinee in his famous role of Svengali in "Tribby." His engagement in "The Pit" lasts till Tuesday night.

On Friday evening Richard Mansfield comes to the Boyd for his annual engagement, presenting for the first time here "Don Carlos," his own translation and arrangement of Schiller's masterpiece. On Saturday afternoon Mr. Mansfield will be seen as Shylock in "The Merchant of Venice" and on Saturday evening he will play his famous dual role in "Dr. Jekyll and Mr. Hyde."

Desmond Short on Cash. J. H. Desmond, giving his name as the Elmsater hotel, complained at the police station that he had lost two \$10 gold pieces during the course of the afternoon. He claims that he visited the resort of Mattie Barnett, a colored woman of the underworld, and she returned him. The money was placed under arrest, but it develops that Desmond visited a number of other places and finally returned to the hotel where he went to sleep and did not know his loss until he awoke this morning.

When he found his money gone he suspected the colored woman. It was not probable that she would make a case, and it is very certain that he will not get his money back. The woman gave her address as 1212 North 10th street. The charge of being a suspicious character was placed against her at the jail.

PERSONAL PARAGRAPHS

B. B. Root of Lincoln is at the Paxton. F. W. Porter of MacKay is at the Arcade. C. C. Hall of St. Louis is at the Arcade. W. J. Higgins of Schuyler is at the Merchants.

Dr. F. Simon and wife of Oakland are at the Hilliard. H. C. Harrington and wife of Denver are at the Paxton. Mrs. Alvin Bennett of Buffalo, Wyo., is registered at the Paxton.

M. E. Carl of West Point and Harry Burge of Fairbury are at the Merchants. G. J. Ralsback, a prominent Nebraska grain man, was a guest Sunday at the Paxton.

J. J. Cox and E. Bignell, Burlington railroad officials, were registered yesterday at the Paxton. At the Murray? M. J. Dendenger, Norfolk; F. H. Arta, Petersburg, and William Belcher, York.

F. M. Penney of Wood River and E. A. Penney of Fullerton are to be found at the Her Grand. At the Hilliard: George W. Little, Lyons; J. T. Clayworth, Fairbanks; Ed. A. Baught, Oakland.

Agnes Pierce of Fairbanks is spending Sunday at the Arcade hotel as the guest of Mrs. J. A. Hope. M. E. Herbert of Gordon, Frank Saunders of Paxton and Silvio Birch of Oakland are Nebraska people at the Paxton.

Among the Sunday arrivals at the Hilliard were nobles H. J. McVicker, North Bend; J. H. Seidle, Lincoln and Charles Atkinson, Creighton. At the Merchants: E. M. Searle, Ogallala; P. R. Hassig, Lincoln; Carl Held, Sutton; J. Cowles, Libbie, Scott, Spencer, J. L. Voss and C. H. Koral, Lincoln, are at the Her Grand.

The state arrivals yesterday at the Murray hotel were: E. H. Slater, Columbus, and W. W. Newcomer of St. Paul, I. S. Dods and J. H. Turner of Columbus and E. P. Hill of Sioux Falls.

J. A. Hope, who has been in the city for a month suffering from a serious ailment, is at the Hilliard. It is reported that he has been able to resume his work on the road. He left Saturday for Sioux City.

Mike Shoney of Clark, Neb., is at the Murray. He is in the city with his wife, who is in the city with her mother, who she has undergone an operation. Shoney is foreman of one of T. B. Horst's cattle ranches at that place.

S. H. Bellwood, a prominent sheep man of Ogden, Utah, is a guest at the Arcade. Mr. Bellwood has been on the way to the South Omaha market. Accompanying Mr. Bellwood is W. Berkman, a business man of Ogden.

Nebraska guests at the Merchants yesterday were: Josiah Coombs and Miss Sylvia Kossel of Spencer; E. M. Beardsley, Ogalala; T. J. Malone of Lincoln, C. A. Gibson of St. Edwards, Guy V. Doran of Sidney and James Bellwood and wife of Alliance.

NO MAN STRONGER THAN HIS STOMACH.

The celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body."

He continues, "so we may be said to live by (and he might well have said through) the stomach." He goes on to show that the stomach is the vital center of the body. He says "the function of digestion in its several stages is to prepare the food in forms which are suitable to be added to the structure," meaning the structure of our bodies.

He continues, "every physical action from simple breathing, thinking and circulating of the blood to the most active bodily exertion wears out portions of the structure (of our bodies) and they become dead and so require to be taken away speedily. Much of the effect that the nervous system has upon the food in forms which are suitable to be added to the structure, is to prepare the food in forms which are suitable to be added to the structure, meaning the structure of our bodies."

He continues, "every physical action from simple breathing, thinking and circulating of the blood to the most active bodily exertion wears out portions of the structure (of our bodies) and they become dead and so require to be taken away speedily.
