HOLIDAY OBSERVED IN RUSSIA

Prominent Writer Changes Front in Reference to Policy of the Duma.

ST. PETERSBURG, June 4.—Prince Metchersky, editor of the Grasshopper, who, before the assembling of the Duma, was constantly assailing the autonomy and bureaucracy, has now completely changed front and maintains that the lower house, unless the cooler and more moderate heads prevent the present tendency, is destined to become a purely revolutionary body.

Honor for Illustrious Regiment

MADRID, June 4.—A regiment of honor at the royal review at the annual camp today was occupied by the Madras regiment, to which belonged 10 officers and privates who were killed at the explosion May 30 of the bomb hurled at the queen of Spain.

Morales a Degenerate

MADRID, June 4.—An autopsy in which would be assessed King Alfonso, was a degenerate. He belonged to a sect of anarchists believing in the curtailing of births and marriage to the end that the rich might be deprived of servants.

Two Experts Quoted

This report by Prof. Burrill and Grindley which recites the history of the industry made within ten days, offered by the packers as their commentary on the statistical investigation of the meat industry recently made by the U. S. Department of Agriculture.

Ready for Suggestions

Continuing, the packers say: In the light of what we are doing, we have a right to believe followed by their hasty and empirical judgments that serve only to put weapons in the hands of foreign competitors of the American live stock meat producing industry.

PACKERS DENY ALL CHARGES

Chicago Meat Kings Make Extended Reply to McNeill-Reynolds Report.

THEY SAY THEIR PLANTS ARE CLEAN

Methods Are Sanitary and Their Products Wholesome—Reports of Two Expert Biologists Quoted.

CHICAGO, June 4.—Eight of the big packing establishments in Chicago issued a joint statement tonight replying to the charges made in the Neill-Reynolds report of the investigation of the packing plants and President Roosevelt's message to congress. The packers declared that their plants are clean, their methods of manufacture sanitary, their products wholesome and that for years doctors, chemists, sanitarians and official investigators from practically every civilized nation who have made examinations of the meat packing plants have been satisfied in every instance with the conditions existing in this industry.

Text of the Statement

The question raised as to whether diseased meats are sold by our packing houses is one of which we have heard for many years. The truth must be told if the meat and live stock industry is to have a square deal.

Many Animals Condemed

We have been believers in rigid animal and meat inspection since the industry was first inaugurated. We have shown our belief in it by shouldering for the benefit of the industry a total loss of approximately \$1,000,000—our loss on animals which are bought as healthy and condemned on inspection as diseased and now in spite of persistent misrepresentation, we are heartily in favor of the inspection as more efficient, if that can be done, and of extending operation of the law to cover the sanitary conditions of the packing houses.
