La Grecque Tailored Underwear La Grecque Night Gown

This is truly a handsome garment. Unlike other gowns, it is made in graduated bust and neck sizes, which give an exact fit and over come the general annoyance of being too tight or too loose. Made comfortably full, yet shapely. Every seam turned flat and double stitched. The trimmings are of finest laces, embroideries and medallions of same. Edgings, insertions, motifs and medallions in varied and newest designs. The sleeves are made in three styles—named, open, elbow and long, \$6.00 to \$11.00 each.

La Grecque Drawer

A garment of unusual merit. So simple yet perfect in cut that it will fit the stoutest figure without superfluous fullness at hips and waist, and will remain closed at the neck, whether sitting or standing. A fitted yoke allows the garment to hang with a clean, smooth line below the waist line, eliminating the disagreeable bunching, following and distorting of the waist, and greatly reducing the waist measurement. This one feature alone makes it far superior to the ordinary drawer.

JAP ISSUE PARTLY ADJUSTED

Conference at the White House Reached Basis for an Agreement.

DETAILS ARE YET TO BE WORKED OUT

Understanding that a Settlement Can Be Reached that Will Avoid Friction with the Japanese.

WASHINGTON, Feb. 9.—President Roosevelt and the Japanese delegation today reached the mutual understanding that the California-Japanese school question can be adjusted without danger of any serious difficulty with Japan.

The details of the adjustment are not agreed on. To arrange them other conferences are to be held. The next to take place Monday. It was authoritatively stated that the one accomplishment of today's conference was a mutual understanding that a settlement could be reached which would be satisfactory and which would leave no ground for trouble-making complaint by Japan.

The California delegation came to Washington, it is stated, with nothing in the nature of an ultimatum, but rather open to the consideration of any basis of settlement which the administration might approve.

The conference took place at the White House this afternoon. It was attended by President Roosevelt and Secretary Root, representing the administration, and by Mayor E. B. Schmitz, the members of the Board of Education, the superintendent of schools and the assistant attorney of San Francisco, representing the educational interests of that city. The conference, in accordance with an understanding reached earlier in the day, when Mayor Schmitz saw the president with representatives Kahn and Hays, began shortly after 3 o'clock.

The Californians reached the executive offices shortly before the hour and halted for a few moments on the steps, where they were photographed in a group. Preceding their call the president had been closeted with Secretary Root, presumably to talk over the situation. This over, the president cordially greeted the Californians, who had been shown into his office, after brief formalities the conference was begun.

Secretary Root remained at the president's request because of the fact that whatever diplomatic negotiations may arise as a result of the decision finally arrived at will have to be conducted by the State Department. The San Francisco delegation, in addition to Mayor Schmitz, included Lawrence F. Walsh, president of the Board of Education; A. Altman, Thomas F. Boyle, David Oliver, Jr., members of the board; Alfred Bonciveri, the superintendent of schools; L. F. Leffingwell, secretary to the board; and T. J. Williams, assistant city attorney.

Schmitz Talks of Conference

Mayor Schmitz after the meeting, said: "Nothing has been decided on, and no proposition is pending. Nothing will be settled, if it is settled at all, until Monday or Tuesday, when another conference will be held, by which time I think a decision will be reached. The delegation and the president are in a friendly mood. The case, the meeting was entirely friendly, but I am not prepared to say whether the result is satisfactory, nor am I prepared to say it was unsatisfactory. Between now and the time of the next conference, which I think will be Monday, my delegation will prepare an outline of the case. We are prepared to receive and consider proposals from the president, and the secretary of state or to make proposals. We have agreed that nothing regarding the details of the meeting are to be discussed with the newspapers, and will have no further statement to make."

Both Sides of Case Stated

The meeting of the president and Secretary Root with the Californians afforded an opportunity for a full and free discussion of the issues. It was the first chance the Californians had to present at first hand to the president their exact position on the controversial school case. The reasons which actuated the San Francisco authorities in dealing as they have with the Japanese children who wanted to enter the schools with white children and of the state of feeling in San Francisco and other parts of California.

Japanese Refused to Talk

TOKYO, Feb. 9.—Afternoon.—In discussing the anti-Japanese feeling expressed by a portion of the American people, the Japanese opinion is worthy of consideration and is significantly reserved. The two prevailing sentiments noticeable are a strong disdain and contempt for the papers in America which entertain the idea of a war between Japan and the United States and a feeling of indignation in President Roosevelt, whose opinion is worthy of consideration and is significantly reserved. Hannibal Hamlin's Career

Hannibal Hamlin's career was even more extraordinary. He was long in the Maine legislature and his speaker three times; defeated for congress in 1832, he was afterward elected twice. He was elected to the senate in 1838 and re-elected, but subsequently resigned to accept the governorship. Again elected senator, he resigned in 1851 to assume the vice presidency, to which he had been elected on the ticket with Lincoln. Then he was collector of the port of Boston, but resigned. Again elected senator, he served from 1861 to 1861, when he declined a re-election and was succeeded by Eugene Hale.

STEADY HAND

A Surgeon's Hand Should be the Firmest of All. The fitness years I have suffered from indigestion, indigestion and nervousness as a result of coffee drinking," said a surgeon the other day. "The dyspepsia became so bad that I had to limit myself to one cup at breakfast. Even this caused me to lose my food soon after I ate it. "All the attendant symptoms of indigestion, such as heartburn, palpitation, water brash, wakefulness or disturbed sleep, bad taste in the mouth, nervousness, etc., were present to such a degree as to incapacitate me for my profession as a surgeon. "The result of leaving off coffee and drinking Postum was simply marvelous. The change was wrought forthwith, my hand steadied and my normal condition of health was restored." Name given by Postum Co., Battle Creek, Mich. "There's a reason." Read the famous little book "The Road to Wellville," in page.

The president lend his influence in having the matter acted upon. The interview was not confined, however, to the question of suffrage. It covered a broad range of subjects in which the president is interested, such as marriage and divorce, the partition of the race and kindred questions.

"The president told me he had the greatest admiration for women," said Lady Cooke, "and declared 'they are the power behind the throne.'"

Lady Cooke pointed out to the president the inasmuch as an alien and the negro race have been given the right to franchise she could not see why women should not be accorded the same privilege. She declared that it was a "stigma" for women not to have this right.

"President Roosevelt led me to believe that if after a careful study of the bill and the question of suffrage for women he thought it would advance the cause he would lend his influence in behalf of the measure," she said.

"The president told me that he did not see that much good had come as a result of giving women the voting privilege where they have been put on his feet. He could not see that the mere fact that they have this right is doing to be their redemption."

EGYPT IS AWAKENED

(Continued from First Page.)

here the pagan tribes in southern Nigeria are about to be introduced to the most recent development of modern civilization. The first motor car to be used in the province is now on its way to a smart touring vehicle, built to the order of the high commissioner, Sir Walter Egerton, for his own private use.

Hitherto road surfaces in Nigeria have been so bad generally speaking as to render vehicular traffic of the motor type impracticable, but new roads are being made and railways are springing up in all directions. With facilities for petrol and "spare" there is little doubt but that the motor car will meet even in Nigeria at least a measure of the success which has followed its introduction into other comparatively unknown countries.

DEATH RECORD

James G. Bowen.

Blair, Neb., Feb. 9.—(Special.)—James Bowen, aged 64 years, was found dead in his room yesterday morning. He had died between 10 o'clock and morning, as his room mate had heard him moving about at that time. He was a son of the late General John S. Bowen, who came with his family to this county from Pennsylvania in 1856. There survive him three brothers and two sisters, Mrs. Annie M. Sully of Omaha, Miss Lucy Bowen of Colorado Springs, Colo., and Harry of Chicago, Horace of Reno, Nev., and Arthur of Denver, Colo. The funeral services will be held this afternoon and the body will be interred in the Blair cemetery.

Charles McCourt

York, Neb., Feb. 9.—(Special.)—The funeral of the late Charles McCourt, one of the founders of York, was received today. Mr. McCourt was one of the very active business men who helped to promote and make York. He was one of the anti-saloon men who in an early day made the great fight against saloons and was his work and that of one or two others, York never had a saloon. He was a charter member of the York Masonic lodge. He had a host of friends here and only recently visited friends and relatives in York, apparently at that time, in the best of health.

Mrs. Mary L. Ross

Mrs. Mary L. Ross, aged 50, widow of the late Harmon Ross, died about 9 a. m. Saturday at her home at 214 North Twenty-fourth street, from ailments incident to old age. She is survived by a son, Lefevre N. Ross, who is employed at the Interstate Rubber company, 1109 Harney street. The family formerly resided at 307 South Thirtieth street. Funeral services will be held at 2 p. m. Sunday from the undertaking parlors of James A. Taggart, 225 Cuming street, and interment will be at Forest Lawn cemetery.

Fred W. Robinson

Fred W. Robinson, aged 46, died Friday night at 65 North Seventeenth street, after an extended illness from nephritis. He is survived by a widow, who resides with her parents at Council Bluffs. Robinson was a solicitor and agent and a member of Pioneer lodge No. 30, Ancient Free and Accepted Masons of New York City. The funeral will be held at 2 p. m. Sunday from the Masonic temple, and interment will be at Forest Lawn cemetery.

Congressman Rixey

WASHINGTON, Feb. 9.—Congressman Rixey of Virginia died this morning. He is a brother of Surgeon General Rixey of the navy.

HYMENEAL

Wedding of Miss Elizabeth Stewart of Council Bluffs and Captain Leonard D. Wildman of the signal corps, Fort Omaha, at St. Paul's Episcopal church in Council Bluffs last evening was the leading society event of the season. The church, decorated in its decorative green, palms, ferns and amylax being used in profusion, was filled with the society people of that city and Omaha. The presence of the groom and his brother officers in dress uniform gave the wedding a military effect, and the many handsomely gowned women made the scene a strikingly beautiful one. The ceremony was performed by Rev. Honor Worthing Starr, rector of the church, of which the bride is a member. Miss Stewart was handsomely gowned in white satin, trimmed with lace, and wore a long lace veil. She was attended by Miss Curtis of Omaha as maid of honor, who, with little Miss Marie Stewart as flower girl, were driven in pale green satin. Miss Stewart was given away by her brother, Mr. Charles Test Stewart, while Captain Wildman was attended by Captain Gray William Dodge, as best man. The ushers, in full military dress uniform, were Captains Cursey, Lieutenant Butler and Lieutenant Grimm of Fort Omaha, Lieutenant Castle of Fort Crook, Major Lee, Major Squire and Lieutenant Jensen.

After the ceremony at the church a reception was held at "The Gables," the home of the bride, after which Captain and Mrs. Wildman left for a wedding trip in the east.

RAILROADS ARE BUSY (Continued from First Page.) The guests of the club will be the supreme judges. Governor Sheldon, Lieutenant Governor Hopewell and Speaker Nettleton, while the state officers will attend. This will be the eighteenth banquet given by this club, which takes part in politics only after nominations are made, even if it is a fact that a United States senator and most of the county and city officers belong to the club. Governor Sheldon has been commended highly by several members of the legislature for instituting suit to test his right to live in the executive mansion without paying rent. It is understood that Governor Sheldon will get Senator Root of Class county to look after his part of the governor. I remember that for two years the Class county attorney. It is understood the defense will be that the house furnished the chief executive is not a perquisite, but, like the statutes which are furnished the officers, or the officers furnished them, it was furnished an "equipment" to complete the office. Herdman Has Had Enough. "I don't see why any man should want to be a member of the Board of Fire and Police Commissioners of Omaha," said Lee Herdman, talking from experience at the state house this morning, when asked if there was any possibility of Dr. Miller's being put on his feet. It is merely called on Governor Sheldon," continued Mr. Herdman, "to pay my respects to him. I do not care who is appointed to membership on the police board and I did not come here to discuss that matter with the governor. I remember that for two years I was a member of that board, and I never got home to dinner in the evening without someone serving an injunction on me or a mandamus, before I got to the front gate. It was a constant nightmare. Injunction papers haunted me in my sleep. In fact, I was holding a bear by the tail for two years. I think we should elect our police commissioners. It would relieve the governor of a most disagreeable duty, as well as save about half of his time, and, incidentally, it would be to the best interests of Omaha, because we could keep our lights at Lincoln and not have to settle them down at Lincoln."

NO WHITWASH ON GOVERNORS Investigating Committee Find Herriot and Elrod Drew Money in Violation of Constitution. PIERRE, S. D., Feb. 9.—(Special Telegram.)—In the house and senate today the investigating committee submitted reports on their findings in their investigation charges against ex-Governor Herriot and Elrod, and incidentally the railway commission, in regard to two employees of that organization. Their report, which Chairman Glass in the house explained through the contingent fund, drew from the senate fund \$25,741, and Governor Elrod from the senate fund drew \$3,000, all being in violation of the provisions of the constitution; that P. J. Rogge was employed as the attorney for the railway commission, with the record, he having been a member of the legislative session which appropriated money for that purpose, and was paid \$2,000, and that D. C. Ricker was employed by the railroad commission to fill the position of weight and scale inspector, an office not authorized by law, and paid \$3,000. The committee reports that Congressman Martin expressed a desire to appear before it to explain certain charges against him. Mr. Martin could not come at the present time, but desired to appear later. The senate received the report without comment, but as soon as it was completed in the house Parmlley desired to know if the report contained anything further and was informed not. He moved that the complete findings of the investigation of the violation of the constitution be filed with the record, he filed with that of today. Chairman Glass said that could not be done today for the reason that the record was not read, but it would be filed later. Parmlley arranged the commission for attempting to cast a smother on Governors Herriot and Elrod and leave anything which might offend Gamble out of the record. He said the committee would go out of existence under the law tomorrow and anything which it filed after that day would not or could not go into the record. The January findings, he said, they had adhered to the wording of the resolution to report facts only and not conclusions, but in the present report they had dealt in conclusions alone. Glass explained reasons why the report was not ready, but his action was declared by Parmlley to be a deliberate attempt to withhold the report from the house. A roll call on Parmlley's motion defeated it by 44 to 22. The insurgents generally voting against the motion and the stay-aiters for it. Later Glass asked that the record of today be withheld from publication in the record until Monday, when he agreed to
