

CORN AND PRODUCE MARKET

Firmer Tone in Wheat in Spite of Weak Cables.

MARKET A BIT TOP-HEAVY

Corn Holds Up Strongly on Good Demand and Dealers Are Not Letting Go of Holdings Very Readily.

There was an Omaha, Nov. 10. 1909. There was a firm tone in the wheat market yesterday, although cables were not as firm as was expected after the domestic market was quiet.

Corn holds firm in spite of the bearish government report. There is a strong demand for cash wheat on the part of country dealers there to sell below present levels.

The corn market proved rather dull on light trading and very small receipts. Prices held steady and unchanged both in the option and cash markets.

Primary wheat receipts were 1,122,000 bushels and shipments were 1,222,000 bushels, against receipts last year of 948,000 bushels and shipments of 1,127,000 bushels.

Primary corn receipts were 415,000 bushels and shipments were 222,000 bushels, against receipts last year of 415,000 bushels and shipments of 222,000 bushels.

Clearances were 59,000 bushels of corn, of oats and wheat and flour equal to 1,500 bushels.

Livestock closed 1/4 to 1/2 higher on wheat and 1/4 lower on corn.

NEW YORK STOCKS AND BONDS

Market Remains Under Restraint of International Money Situation.

PRICE MOVEMENT IS SLUGGISH

Buying Is Freer in the Last Half Hour and Close Is Firm—Bond Market Is Irregular.

NEW YORK, Nov. 10.—The securities market remained under the restraint of the international money situation, as was shown by the apathy of the market.

The sluggishness of the price movement, the check which was administered to the early declining tendency of the market.

London recovery was due to a hope that the Bank of England authorities would leave the present discount rate unchanged at 5 per cent.

Paris transmitted a small amount of gold to London yesterday, but the result was a reaction in the sterling exchange rate.

The call loan rate in New York rose at an early hour to yesterday's 1/2 per cent maximum.

Government payments on Panama canal account relieved the subtreasury drain on the New York money market.

Small amount of cash for the New York banks, so the absorption on that account for the banking week has reached 31,800,000, compared with 28,000,000 for the corresponding period last week.

Shipments to Brazil, which reached about \$1,000,000, tend to be absorbed through account in computing the cash outgo.

Figures kept attention fixed on the fact that surplus of the treasury for the year is under \$5,000,000.

The call loan rate of the maximum of yesterday's day exceeded the maximum of yesterday's day.

The effects of the reassembling of Congress and the discussion of legislation on corporation affairs loom larger in the stock market view.

The demand for some east-coast railroad employment for advanced wages did not escape attention.

Professors for widespread export of corn and wheat, and the effect of the development.

The revelation of the extent of the loss incurred by the Cleveland, Cincinnati and Toledo Railway.

The defalcation of a minor official of the company made an exceedingly bad impression on the market.

Shares to some extent. The resistance shown by the market to the rise in the money rate prompted buying in the stock market.

Bonds were irregular. Total sales, par value, \$4,000,000. Bonds were unchanged on call.

Range and range of prices on the Stock Exchange today were as follows:

Aluminum 100 1/2, 101 1/2, 100 1/2, 100 1/2, 100 1/2

Amalgamated 100 1/2, 101 1/2, 100 1/2, 100 1/2, 100 1/2
