

Coming and Going in Omaha

ITALY WANTS NO INTERVENTION IN TRIPOLI AFFAIR

Interference Before Turkey's Resistance is Crushed Completely Would Be Resented.
WELCOME ACTION IN FUTURE
Any Movement at Present Considered Inopportune by Rome.
POWERS UNDERSTAND THE PLAN
Leading Nations of Europe Fully Advised of Situation.
FREE HAND WILL BE GIVEN
Italian Public Greets King and Queen with Acclaim.
TURKEY NOT PLAYING FAIR

Italians Release All Turkish Steamers Seized in Italian Harbors, but Turks Do Not Take Same Tactics.

ROME (Via Frontier), Oct. 7.—Official circles, while realizing the anxiety of foreign countries to see the Turko-Italian conflict ended and the possibility of complications avoided, wish to warn public opinion abroad that while the Italian fleet has taken possession of Tripoli and Cyrenaica the occupation cannot be considered as an accomplished fact in the sense that it renders possible the intervention by the powers which Italy in due time will welcome, but at the present moment would be inopportune.

Before anything of the kind occurs the Italian troops must land and occupy not only the coast, but also the interior of the province, in order to make sure that any remaining resistance of Turkey shall be overcome.

This treaty has already been agreed on between Italy and the powers and the sentiment set forth in the foregoing statements are not intended for other governments with which Italy is in perfect accord, but simply to quiet public opinion and dampen the ardor of certain sections of the press.

War Popular in Italy.

The feeling of the Italian public generally was illustrated in the triumphant progress of the king and queen and their children from the Raconia castle to the hunting lodge at San Rossore, near Pisa. In the cities and villages through which the royal party passed, crowds gathered at the railway stations. There were cheers for the royal family, but the women exhibited special devotion to her majesty, some of them crying out: "Be a mother to our soldier sons and protect them."

It is charged that Turkey is not obeying the international rules of warfare. Italy has released all the Turkish steamers which were seized in Italian harbors when war was declared or arriving soon afterwards, their commanders not having learned of the beginning of hostilities. Turkey, on the contrary, has hoisted the Ottoman flag over the Italian steamers Ernesto, Harbi and Meloria, which were seized along the coast, and, remaining there with Turkish sailors, using them for its own purposes. It is about to do the same with smaller Italian craft captured in the Aegean sea. Italy will protest on the ground that this action is in violation of the convention signed at the close of the Crimean war, which provided that merchant vessels should be given time after hostilities had begun to reach their territorial waters.

Italians Occupy Deras.
It was learned today that the Italians have occupied Deras, on the coast of Bahah gulf. This is revealed the plan of the Italian campaign in northern Africa. The object was to ensure, above all else, the occupation of Cyrenaica, which is the richest part of the invaded country. Accordingly a great naval display was made before Tripoli to deceive the Turks while Rear Admiral Aubrey, commander-in-chief of the fleet, feigning a pursuit of the Turkish fleet landed a force from the battleship Victoria Emanuele III at Tebruk, occupying Bahah gulf and the town of Deras, 500 miles east of Tripoli.

The Hungarian steamer, Tissa, came into Naples today having on board Arim Bey, the newly appointed Turkish governor of Tripoli, his wife and son, and several officers who had been sent by Turkey to organize the defense of Tripoli. The vessel was stopped at sea by

STEPHENSON HAS BIG STAMP BILL

Wisconsin Senator's Manager Says He Spent Eleven Thousand for Postage.
ADVERTISING AND BUTTONS
Large Sums Paid for Space in Newspapers and Addresses of Farmers—Fifty Dollars for Attending Plenic.

MILWAUKEE, Oct. 7.—United States Senator Isaac Stephenson's bill of \$11,000 for postage used in his campaign for nomination in 1908 today was inquired into by the senatorial committee which is investigating charges of bribery in connection with his election.
Rodney Sackett, one of the Stephenson campaign managers, testified that in one instance the postage bill for seven days amounted to \$2,700 and on one day he spent \$1,000 for 7-cent stamps. The latter item provided for the sending out of 60,000 letters.

"And do you mean to say that out of all that mail there does not exist today a single trace, that all evidence of that campaign literature has been destroyed?" asked Senator Heyburn.
"I don't know where any of it is now," replied Sackett.
One hundred thousand buttons bearing the name of Senator Stephenson, and detailing the newspaper advertising which cost \$12,450, Sackett testified one newspaper was paid \$1,500 for a list of names of farmers throughout the state. It was the purpose to send literature to the farmers urging them to vote for Senator Stephenson. The names were paid for at the rate of 1 cent each for first and half a cent for each subsequent use of the same name.

One hundred thousand buttons bearing the inscription, "For United States Senator, Isaac Stephenson," cost \$92.
All of these items, Sackett testified, helped to swell Stephenson's total expenses in the campaign to \$107,783.
Senator Heyburn read off the following items as having been expended for Senator Stephenson:

"One man to attend colored picnic, \$50."
"Trip through Ghetto, three m. \$25."
"Touched by two old soldiers, \$2."
Sackett said he had no knowledge of the items.

"As the responsible person in Senator Stephenson's campaign you ought to know. You also ought to know, too, that under the laws of the state these were not legitimate expenses."

Cuban Says Times Building Was Blown Up by Anarchist

HAVANA, Oct. 7.—El Mundo today publishes a sensational statement regarding the dynamiting of the Los Angeles Times building, which was made for the paper by Angel Carballo, a Cuban clarinet-maker, who formerly worked at Tampa, Fla.

According to Carballo, the bomb in Los Angeles was made by an anarchist for the purpose of blowing up the Citizens' committee, during the last clearmakers' strike at Tampa. This plan was abandoned and the anarchist disappeared only to return later to Tampa and inform Carballo that the bomb had been utilized to destroy the Times building.

After communicating this the bomb maker left town, saying he was going to Peru. He is now, Carballo says, employed on the Panama canal.
Carballo sets forth that his object in making the statement is to free innocent men of suspicion.

Supposed Bandit Killed by Posse

BARTLESVILLE, Okl., Oct. 7.—After an hour's running revolver fight, Frank Amos, believed to have been one of the three bandits who held up a Missouri, Kansas & Texas passenger train near here last Thursday, was killed by a sheriff's posse today.

DOUGLAS COUNTY WILL SHOW EASTERN NEBRASKA LAND PRODUCTS TO BE SEEN IN COLISEUM.

COMMISSIONERS ARE HELPING DECORATIONS AND ILLUMINATIONS WILL BE MAGNIFICENT, MAKING OCTOBER SHOW THE GREATEST EVER CONDUCTED.
Realizing the importance of the Omaha Land show, which will be held in the Coliseum October 18 to 28, the Board of County Commissioners has voted to expend \$400 to aid the Douglas County Agricultural society in preparing a high-class Douglas county exhibit. The money will be turned over to the society to use as it sees fit. Even without this aid the society's exhibit would have been an excellent one. With this assistance the exhibitors claim it will be among the best at the show.

It is planned to select the finest specimens displayed by the society at the Ak-Sar-Ben carnival and assemble them into an exhibit that will attract more than ordinary attention. There will be grains, fruits and vegetables, all arranged attractively. While the exhibit will be shown under the auspices of the Douglas County Agricultural society the products will be representative of the entire western portion of Nebraska.
Now that the Ak-Sar-Ben festivities have been concluded the Land show management will turn its attention toward putting the big Coliseum in shape. Monday morning a large force of men will be put to work for that purpose, and electricians, carpenters and decorators will be kept busy night and day until the opening on October 18.

Manuscript Exposition.
The Coliseum was selected for its immense floor space. The outside dimensions are 184x300. The arrangement of the floor space within the building is such that it will be possible for the thousands of visitors to see any exhibit from any point in the building. Running down the center of the Coliseum will be a grand court of honor, either side of which will be lined with pillars surmounted with statues, suggestive of the development of the west.

All around the building there is an elevated promenade which will be used as display space. This when decorated and illuminated will produce an unusually attractive sight. The management will not spare any efforts to make the decorations and illumination of the entire building the most elaborate ever attempted in Omaha.

Aside from the main exposition building in which the land products will be displayed will be Machinery hall. This will feature a new feature designed to exploit every farm device needed in tilling the soil. There will be farm machinery of every sort, as well as all devices manufactured for use in fruit growing. There will be virgin soil of the western prairies. It is specified in all the contracts with the exhibitors that every machine or device displayed shall be used in making practical demonstrations for the benefit of the visitors. In order that the big tractors may be seen in actual operation a large tract of ground nearby has been secured by the Land show management and practical demonstrations will be made daily. Machinery hall, like the main exposition interior, will be elaborately decorated with banners and a myriad of electric lights.

Lawyers for Hard Coal Trust Charge Falsification

WASHINGTON, Oct. 7.—Accusations that counsel for the government have made a studied, deliberate and inexcusable misrepresentation of important portions of the record in the so-called "hard coal case" were made in a brief filed today in the supreme court of the United States by Robert DeForest and Jackson E. Reynolds, counsel for the Central Railroad company of New Jersey and the Lehigh & Wilkesbarre Coal company.
This is the case in which the government claims that railroads and coal companies in the anthracite-region of Pennsylvania have been violating the Sherman anti-trust law.

KIDNAPER OF INCUBATOR BABY DENIED NEW TRIAL

TOPEKA, Kan., Oct. 7.—The supreme court today denied the application of P. T. Tilton for a new trial and judgment of life imprisonment for a man charged with the kidnaping of a Kansas child. Tilton was convicted of the kidnaping of the child of a woman, the incubator baby.

TAFT FINISHES HALF HIS TOUR

Executive Reaches Washington, First State Bordering Upon the Pacific Coast.
WILL REACH TACOMA SUNDAY
He Will Go Up Mount Ranier in an Automobile—Monday He Will Be Guest of Former Secretary Ballinger.

WALLA WALLA, Wash., Oct. 7.—Coming into Washington today, President Taft finished the first half of his tour and touched the first state bordering on the Pacific coast. Since he left Beverly September 15, the president has traveled 8,636 miles and has traveled fifteen states. He has made more than a hundred speeches on various subjects and more than 200 railroad men, according to officials, have been concerned in hauling his train.

So far the president has stood the trip remarkably well. Even the altitude of Colorado, Wyoming and Utah has failed to dampen his ardor and in fact he seems to have withstood the rigor of three weeks in sleeping cars better than younger men in his party.

The program for the president here includes the usual inspection of the town by automobile and an address. From Walla Walla, Mr. Taft will go to Lewiston and Moscow, Idaho, and Spokane, Wash. He will leave Spokane tonight for Tacoma and Seattle. From Tacoma tomorrow the president will go by automobile up Mount Ranier. In Seattle, on Monday, he will be the guest of former Secretary of the Interior Ballinger and will sail across Puget Sound to the Bremerton Navy yards.

Champ Clark Fears for Taft.
LOUISVILLE, Ky., Oct. 7.—"If he is not careful, President Taft will kill himself by the speech he is making in the west," declared Speaker Champ Clark of the house of representatives, who was in Louisville today.

Questioned as to whether he thought the president had said anything on his tour that might work seriously against him in the coming presidential campaign, Mr. Clark replied, "I have not heard of his saying anything that will do him any good."

Two Men Are Killed by Crossed Wires

CLEVELAND, O., Oct. 7.—Joseph Shipka, 38, and Joseph Slovacek, 39, were electrocuted in a saloon here tonight because of a live electric light wire crossing a telephone wire a half block away.
As Shipka picked up a desk telephone he was knocked down and was unable to drop the instrument. Slovacek, with a broom handle, succeeded in pulling the telephone away, but in so doing let the wire strike his hand and received a shock. He accidentally seized the wire in his excitement. He, too, was unable to let go.

It was not until the wire was cut several minutes later that he was released. Both men were hurried to a nearby hospital, where efforts to restore life were of no avail.

Strike on Georgia Central Settled

ATLANTA, Ga., Oct. 7.—A message received here today from Chairman Teal of the board of directors of the Brotherhood of Locomotive Firemen and Engineers, says the strike of the firemen on the Georgia & Florida railroad has been settled. The men will get fifty per cent of engineers pay. All men have returned to work as the contracts required.

NONUNION MACHINIST IS BEATEN UP IN CHICAGO

CHICAGO, Oct. 7.—Edward Bloom, 46 years old, a nonunion machinist employed in the Illinois Central shops at Burnside was beaten into insensibility by two unidentified assailants shortly after he left his home today. The police believe that the assault is a result of the strike as Bloom's assailants made no attempt to rob him.
Fifty hollermakers and their helpers, who went on a strike a week ago, returned to work at the Burnside shops of the Illinois-Central railroad today. The railroad officials declare that more than 300 of the striking shopmen have returned to their places since the walk-out began.

DES MOINES STRIKE AVERTED

Judge W. H. McHenry Chosen Third Arbitrator in Controversy.
ON DISTRICT BENCH FOR YEARS
Name Suggested by Union Street Car Men and Finally Accepted by the City Railway Company.

DES MOINES, Oct. 7.—Judge McHenry tonight refused to serve as arbitrator. Union leaders said they believed the company acted in good faith in choosing the jurist, even though he declined the position and would defer the walkout until other candidates could be presented.

(From a Staff Correspondent.)
DES MOINES, Oct. 7.—Special Telegram.—The strike situation collapsed late today when an arbitrator was agreed upon in the person of Judge William H. McHenry of the district court. It is recognized that he will be in fact almost the sole arbitrator, because each of the others is committed to the side selecting him. Judge McHenry has been on the district bench ten years and is a popular man in every way, having no strong leanings in any direction. His father was a district judge for many years and always fair. His name was suggested by the union street car men and finally accepted by the company.

The others on the board are Mr. Guernsey, the attorney for the company, and President Vribeck of the state federation. The final selection of a third member of the board put an immediate end to the plans for a strike tomorrow morning, as the men will now await the report of the board. Until the selection of Judge McHenry the hour of 5 o'clock this afternoon had been set for the reinstatement of three recently discharged men or a strike.

Mack Says Clark is Logical Candidate of Democratic Party

BUFFALO, N. Y., Oct. 7.—Chairman Norman E. Mack of the democratic national committee in the October number of the National Monthly presents Speaker Champ Clark of the house of representatives as a possible candidate for the democratic presidential nomination.

Chairman Mack's list of possibilities now includes Governor Woodrow Wilson of New Jersey, Governor Harmon of Ohio, Governor Thomas R. Marshall of Indiana, Governor Eugene N. Fox of Massachusetts, Governor John A. Dix of New York and Speaker Champ Clark.
Chairman Mack says:

"The battle next year for which everybody is now actively preparing must be fought largely on the magnificent record of the present democratic house, in which Champ Clark is speaker, and in the shaping of whose policies he has been the predominant influence.
"Small wonder, therefore, that his name stands high in the list of democratic possibilities. The logic of events has placed him there, for since he has made and is making the record on which we must appeal to the country, it is but logical that he should loom largely on the horizon as a strong presidential possibility."

Judge Latshaw and Hyde's Lawyer Have Some Heated Words

KANSAS CITY, Oct. 7.—Heated words were exchanged by Judge Ralph S. Latshaw and Attorney Frank F. Walsh, representing Dr. B. Clarke Hyde during a court session today when the judge granted a change of venue for the physician's second trial on a charge of murdering Colonel Thomas H. Swope.
"Trouble arose when Judge Latshaw asked Walsh if he had not said last summer that it was not the intention of the defense to seek a change of venue. Walsh denied he had said this.
"I say you did, so it is your word against mine," responded the court, warmly.

In granting the change of venue the court also added an order that the trial be held in the criminal court room, the scene of the first trial. This brought a vigorous protest from Attorney Walsh, who shall not only apply to have that order vacated, but shall also ask that either be appointed to act in this trial," said Walsh.
"The defendant was not treated fairly during the last trial. Some of the deputy marshals attempted to extort money from him. Also did they make frequent trips between the jury room and the private office of the court."
Change of venue was taken to Judge E. E. Porterfield's court. The trial is set for October 16.

German-Americans Threaten President

WASHINGTON, Oct. 7.—That the German-American voters of the United States will be turned against President Taft unless he makes changes at the port of New York and removes Immigration Commissioner Williams, was the declaration made before the National German-American Alliance today by Henry Walsman, president of the German-American society of Brooklyn.

TOWN OF BLACK RIVER FALLS NO LONGER ON MAP

Wisconsin Village of Two Thousand Persons Cannot Be Rebuilt Upon Its Former Site.
RIVER CUTS NEW CHANNEL
Deep Current is Flowing Through Heart of the Town.
WALL OF WATER TEN FEET HIGH
Stores, Offices, Warehouses and Residences Swept Away.
LOSS ESTIMATED AT MILLION
Rumor that Three Persons Are Drowned is Not Confirmed.
PEOPLE ARE WITHOUT FOOD
Residents Who Are Driven from Homes Spend Nights on the Hills—Embarkment at Wausau Breaks.

LA CROSSE, Wis., Oct. 7.—The waters at Black River Falls began receding at 2 o'clock this afternoon and the worst is pronounced over.

LA CROSSE, Wis., Oct. 7.—Black River Falls, destroyed last night in the flood following the washing around of the Hatfield dam on the Black river, ten miles above the city, can never be rebuilt on its old site. The new channel, occupied by the river today goes through the middle of the town.
The wall of water that swept the city was ten feet in height when it reached the town, and continued to gather force. Black river makes a turn at the falls in the city and the channel narrows with high, steep banks. Into this narrow space the twenty-five miles of water sixty feet deep in the Hatfield storage reservoir poured and gathered impetus from this condition, leaped with irresistible force on the town.

Offices, stores, warehouses and residences went down before it like a house of cards. With the big buildings went also great chunks of earth. A hill of considerable size 100 feet from the river, was leveled even with the surrounding land.
Mayor McGilivray today estimated the loss at not less than \$1,000,000 at Black River Falls, whose homes were wiped out yesterday and last night by the rise in the Black river, today faced the problem of subsistence. Almost every scrap of food, except that in houses out of the reach of the floods was destroyed. Every grocery store and meat market and other food depot in the city is gone.

An attempt was made early today to organize the work of relief. Mayor J. J. McGilivray sent messages to La Crosse and other cities appealing for food and shelter. In La Crosse a committee was set to work at once and at noon quantities of food and tents were sent.
Everything on the four business streets comprising the heart of the town has been swept away. The Northwestern railroad bridge over the Black river at that point is still standing, but is swaying as though the heavy spans were supported only by cables. Train service is cut off at Black River Falls and no physicians even are allowed to cross afoot. At Hatfield, ten miles above Black River Falls, the river had today cut a new channel and appeared where it was never known to run before. The main channel has moved more than 300 feet onto what has until now been dry land. At the dam the pressure has ceased and the waters have fallen far below the crest. The main part of the big structure is still standing. The powerhouse, two miles down from Hatfield, was flooded.

President Ferris of the waterpower company today estimated the damage to his company's property at \$50,000. The plant may be out of business for months, because of the moving debris.
When the residents of Melrose, eighteen miles north of here on the Black river,

Boxes of O'Brien's Candy

Dalzell's Ice Cream Bricks
Base Ball Tickets.
All are given away free to those who find their names in the want ads.
Read the want ads every day, your name will appear sometime, maybe more than once.
No puzzles to solve nor subscriptions to get—Just read the want ads.
Turn to the want ad pages—there you will find nearly every business house in the city requested.

Signal Corps Sends Balloon Into Clouds

Captain Chandler of the signal corps made his first ascension on the present visit at Fort Omaha Saturday afternoon, when he went soaring away to the south-west in the signal corps balloon, No. 12, which was accompanied in his flight by Major Russell and Major Reber of the signal corps.
At a late hour last evening the balloon had not been heard from.
Many residents of Omaha saw the balloon in its flight and thought at once that it was one of the big balloons released from Kansas City, one of which is still missing.

GENERAL REYES WELCOMED TO TEXAS BY MEXICANS

SAN ANTONIO, Tex., Oct. 7.—General Bernardo Reyes, for many years prominent in the political life of Mexico, upon his arrival here today from New Orleans was greeted by a delegation of about 200 Mexicans. In a chorus of "vivas" for Reyes there was one "viva Madero." General Reyes was escorted to the residence of Miguel Quiroga, where he will make his home until other plans can be made.
