

And His Stomach Is All Right

Thousands With Poor Teeth Have Good Digestion by Using Stuart's Dyspepsia Tablets After Meals.

Whether or not we eat too much, is a matter for individual judgment. Benjamin Franklin tried the experiment of living on a handful of raisins. But he discovered that the question wasn't what he ate nor the quantity thereof, but one of digestion and assimilation.

TIMELY REAL ESTATE GOSSIP

Realty Dealers Are Still Figuring on Co-operative Plan.

ITS WORKINGS IN CHICAGO

By Request of Many Interested in Plan, a Report of a Successful Syndicate is Here Published.

Omaha investigators of the co-operative plan of real estate investment have found encouragement along the new line through what is being done with it in Chicago. The Bee has been requested to publish in this column for the benefit of those who are interested in the plan, a report of its workings in Chicago.

The Chicago plan and what it is doing is described in the following from the Economist of that city: The organization and operation of syndicates in real estate, notably business property in the district lying east of Center avenue and north of Twenty-second street, is now attracting because of the facility with which they are handled and the profits which have been realized in some instances.

The first syndicates in Chicago were organized by Aldis & Co., and include what are known as the City Real Estate trustees, the Boston ground rent trustees, the trustees under the Harrison trustees and others. The success with which these were handled appealed to others and among the first to adopt it on an extensive scale were White & Tabor, who, in 1911, began to handle Chicago business property in this way.

There was some kicking on October weather, but according to the summary compiled by Local Forecaster Welch, it was about as fine as any October weather since the establishment of the weather bureau in Omaha in 1871.

Weather in October is Finest on Record

During October there were twenty clear days. The highest temperature was 57 and the lowest 29 degrees above zero. The mean temperature for the month was 55 degrees. During the period covered by the weather bureau the hottest October day was in 1893, when the temperature got up to 92 degrees, and the coldest was in 1878, when it was down to 15 degrees above.

Federal Prisoners Go to Grand Island

Captain Haze, deputy to United States Marshal Warner, yesterday took Otto Von Gimminsen and L. W. Baugh to Grand Island, where they will begin the serving of two months and sixty-day terms respectively, in the county jail, to which they were sentenced yesterday by Judge T. C. Munger.

Cornish Sees Taft Sentiment Growing

Back from the east to cast his vote in the presidential election, E. J. Cornish says the sentiment of voters in the eastern states has been flowing gradually for weeks to the support of President Taft. He says the number of bull moose has been diminished materially by educational campaigns waged by regular republican organizations in nearly every city and county.

Dope Fiend Writes Sob Poem Just as He is Sentenced

Just before he was sentenced to thirty days in the county jail for stealing a suit of underwear, Frank Clark, a drug fiend, presented to Judge Abraham L. Sutton, the original court a poem entitled "The Dope Fiend Story." Clark is an artist. The poem was written on a sheet of note paper, folded once so as to make four pages. The poem is embellished with beautifully drawn borders and head and tail pieces such as are found in rare old hand-illuminated and decorated books.

Homeless and friendless,
Ragged and penniless,
Nothing but hardships I know,
Life's troubles are many;
Pleasures not any,
Nothing but troubles wherever I go.

With life I am disgusted,
By all I am distressed,
Living a life of shame,
Passed by unworthy,
Filthy and dirty,
Living in misery, suffering and pain.

Cause of my shame?
'Twas caused by cocaine,
A habit which holds me fast;
Took from me respect,
Left me a wreck,
Over my life a dark shadow cast.

Made me a thief,
Paid me with grief,
Behind the prison wall,
Robbed me of brain,
Made me do the same,
Fell from respect disgraced by the fall.

Cocaine, my only ambition;
Without life a jolly intermission,
With only a maniacal crave,
A sensation divine,
Fills life with sunshine,
Sunshine that leads to the grave.

Clark saw a suit of underwear in a party on window. He raised the sash and stole the suit. Technically he was guilty of breaking and entering and could have been sent to the penitentiary for an indeterminate term of years.

Cornish says the sentiment of voters in the eastern states has been flowing gradually for weeks to the support of President Taft. He says the number of bull moose has been diminished materially by educational campaigns waged by regular republican organizations in nearly every city and county.

HAPPINESS DEPARTS WHEN THEY ARE LEGALLY WEDDED

Thomas R. Dougherty and Alice M. Dougherty, contracted a common law marriage and lived happily for five years. Then they were married civilly, in 1908. Shortly thereafter happiness deserted them, according to a petition for divorce filed in district court by Mrs. Dougherty. She alleges Dougherty has abused her in numerous ways. She charges he has beaten her and has come home drunk and called her names.

Imperial

"Imperial" 1913—the Logical Car to Buy

Because Imperial Cars present logical "quality" reasons, convincing "price" reasons, and reasons based on past and present performance to appeal to your judgment of what constitutes not only a good automobile but a superlatively good automobile.

A Little History At the Imperial factory (one of the largest individual automobile factories in the world) there is a standard of construction and a standard of moderate price to the buyer that has made Imperial Cars a combination of value unequalled in these United States. The consequence of this policy has been a doubling and a trebling of the output until, where once Imperial cars were sold by the hundreds, 1913 will see 6000 pass into the hands of buyers.

Competition has to be met. There are two methods of manufacturing and selling automobiles—
—to build as good or better a car than competitors and sell it at the lowest possible price consistent with an equitable and sane business policy—the other method is to build cars as cheaply as possible and sell them for as much money as you can get for them.

The Imperial Policy has built the Imperial reputation upon the enduring rock of "the utmost quality for the most consistent, moderate price." It has given Imperial Cars a prestige that is fast becoming national. It has placed in the hands of every owner a car of which he can be justly proud—a car that will not only compare, but in some points of design and material excels cars many hundreds of dollars more in price.

Models 44 and 34 are Equipped with North East Electric Starting and Lighting System
(Completely automatic—positive and unflinching in action)

"Logical" Cars The car itself shall prove it. "Imperial" Cars are "convincing" cars. They embody in their workmanship, in the quality of their equipment, in their perfect design, more unanswerable argument than pen or tongue can relate. They give more for less money than any car we know of and it is first our business to know, then to tell you. Convince yourself by seeing—trying an Imperial at our dealers or write us at the factory.

United Spanish War Veterans.
General Henry W. Lawton auxiliary to the United Spanish War veterans, will hold their next meeting Thursday, November 7, at the home of Mrs. H. D. Cornsue, 4715 North Forty-second street.

POSTOFFICE RECEIPTS GROW

Increase for Month of October Over Last Year Amounts to \$102,315.

LARGEST OCTOBER IN HISTORY

Postmaster Wharton Says the Presidential Campaign Has Made Practically No Difference in Postal Receipts.

The gross receipts of the Omaha postoffice for October show an increase over the receipts last year of \$11,531.74. The receipts for October, 1912, were \$102,315.44, while the receipts for October, 1911, were \$90,783.70. "This is simply due to the increased business activities," said Postmaster Wharton. "There is practically no other way to account for it. This is far the greatest amount of postoffice receipts ever taken in during October at this office."

NELSON REMEMBERED BY OLD UNION PACIFIC FRIENDS

Twenty-nine years with the Union Pacific and twenty years of that time foreman of the store department, Otto Nelson has been promoted to the position of store keeper of the Nebraska division of the road, succeeding W. A. Conking, who goes into the engineering department at North Platte.

MILTON ROGERS & SONS CO.

Hardware Specials Monday

- FEATHER DUSTERS
Monday we will put on a big lot of shop worn dusters, many sizes and grades, worth from 75c to \$1.65, your choice... 39c
- DUSTLESS HOOPS
Best quality. Just in, with long wood handle attached, regular 75c. Monday... 49c
- OIL HEATERS
Splendid room heaters, smokeless, odorless, with gallon tank. Monday... \$3.25 day... SIFTER
Dustless, revolving sifter, to fit on any ash can, made of heavy galvanized iron, \$4.50 special.
- SAVORY ROASTERS — Oval steel body, no corners or seams, self basting and browning. Worth \$1.25, special... 98c

Fire Place Fixtures, Andirons, Grates, Etc.
