

Nebraska FAIRFIELD GUARD TROUBLE

Judge Advocate Has Question of Authority to Settle.

Nebraska LINCOLN'S MAPS PROVE COSTLY

Engineering Firm Charges Thousands Dollars to Commercial Club for Showing Made to Currency Commission.

(From a Staff Correspondent.) LINCOLN, March 5.—(Special.)—Judge Advocate H. F. Allen of the National Guard called at the office of the adjutant general today to discuss the trouble at Fairfield, where a member of the company at that place got into a fight with a citizen who persisted in "running the guard."

It appears that some private of the company had fractured the rules of company discipline and a court of discipline was being held by the company to look into the matter, and a guard was stationed at the armory door to keep outsiders from coming in. A citizen happened along and some boys began throwing snowballs at him, and to escape them he tried to get by the guard into the room where the court was being held. The guard attempted to keep him back, when a fight ensued. After the guard appeared in citizens' clothes he was arrested and fined \$10 and costs by a justice of the peace.

The proposition which will have to be settled by the judge advocates covers the right of a civil officer to arrest a member of the guard who is carrying out his duty as a soldier. The law specifically sets out that a civil officer cannot arrest a soldier who is obeying military orders. G. W. Noble of 3505 Hawthorne avenue, Omaha, has filed with the secretary of state for the democratic nomination for regent of the University of Nebraska.

(From a Staff Correspondent.) LINCOLN, March 5.—(Special.)—W. E. Andrews, auditor of the United States treasury, was at the state house today calling on the different departments. Mr. Andrews has been connected with the auditor's department in Washington since June, 1897. Since his connection with the department there has been many changes, but he still retains his position as first assistant, of whom there are six assistants. Four of these have been succeeded by democrats since the Wilson administration took charge of affairs, but Mr. Andrews and the sixth assistant have continued to hold over.

Nebraska Notes from Beatrice and Gage County

BEATRICE, Neb., March 5.—(Special.)—A movement has been started in Beatrice to organize a country club. It is proposed to buy a suitable site along the Blue river northwest of the city, erect a club house, lay out golf links, tennis courts, etc. A tentative plan has been drawn up by H. T. Weston of this city, and if it goes through the club will be incorporated for \$10,000.

M. Morgan, proprietor of the 10-cent store at 408 Court street died Wednesday morning at a local hospital after an illness of two weeks. He was born at Drakeville, Ia., and before locating in Beatrice five years ago was engaged in business at Shenandoah, Ia. He is survived by no family except his widow. The \$10,000 damage suit against the Beatrice Electric company, brought by Archibald Schultze of this city, is being heard in the district court. In March, 1913, Grant, the son of Mr. and Mrs. Archibald Schultze, was electrocuted at Elkwood and Lincoln streets, and action for damages was brought, alleging that if the company had taken proper precautions the accident would not have happened. It was shown that a wire had in some manner crossed the electric company's wires, carrying a voltage of 2,500, and hung down near the sidewalk. It is alleged that the company knew of this dangerous wire early in the evening, but that it was not removed until the lad met his death.

Haebler, has held the office since the organization of the company twenty-eight years ago and refused to allow his name to stand for re-election. By his retirement the company loses one of the most efficient officers it ever had. President L. E. Cole, the present executive, has been a member twenty-two years, while Chief Bruce joined the organization eighteen years ago.

Nebraska MORAL QUESTION NOT ONE FOR REMOVALISTS

(From a Staff Correspondent.) LINCOLN, March 5.—(Special.)—In the opinion of Will Owen Jones, president of the University of Nebraska Alumni association, the moral question should not enter into the proposition of university removal. This with other opinions was expressed by Mr. Jones at the meeting of the anti-removalists held at the Lindell hotel Tuesday to organize a campaign against university removal. In explanation of this Mr. Jones said that in five years the state of Nebraska would be a dry state, and, therefore, the question of saloons near the university would have died a natural death. He believed that the fight should be made on what was the best thing for the students, whether their interests would be best subserved by close association with the business interests of the city or at the farm.

Nebraska If Kidneys Act Bad Take Salts

Says Backache is sign you have been eating too much meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water seals and you are obliged to seek relief two or three times during the night.

Nebraska UTAH SHIPPERS PROTEST AGAINST RAISE IN RATES

SALT LAKE CITY, Utah, March 5.—Representing that the proposed increased freight rates by railroads west of the Missouri river would seriously injure local business, the Commercial club traffic bureau telegraphed today to Chairman E. E. Clark, of the Interstate Commerce commission, a request to suspend the application of the rates. The bureau represents that the proposed new tariff increases the rates on practically all the commodities used, and that application of the proposed tariff would practically put out of business several important Utah manufacturing concerns now competing successfully with eastern manufacturers. The local traffic bureau made a successful campaign for lower freight rates here about two years ago.

SCALY PIMPLES ON HANDS AND ARMS

Little White Bumps Come in Clusters. Would Swell Up, Burn, Itch and Ache, Couldn't Sleep For Torture. Cuticura Soap and Cuticura Ointment Cured.

6 East Sixth St., Coffeyville, Kan.—"About two years ago my pet kitten caught some kind of disease. I tried to doctor the little thing and I caught the disease on my hands and arms. It first broke out in little watery pimples and when they dried out they all ran together and got scaly. There were lots of little white bumps about as big as the end of a pin and they would come in clusters. When I would scratch them yellow water would appear. Then my hands and arms would swell up and burn and itch and ache till it seemed like I would go crazy. Heat would make it worse. When the weather was hot I couldn't sleep nights for the torture. I felt so ashamed of my hands they looked so terribly. I couldn't bear any clothing to touch my arms at all. "I used every ointment and lotion I could hear of for relief but nothing seemed beneficial. So after over a year of suffering and torture I heard of Cuticura Soap and Ointment and I got some. I used three cakes of Cuticura Soap and three boxes of Cuticura Ointment and they cured my arms and hands." (Signed) Miss Laura Medberry, June 5, 1913.
