

BANK DEPOSITS GREATER

Comptroller's Call Reveals Local Deposits Increase Over \$5,000,000.

LOANS GAIN OVER A MILLION

While Loans Do Not Keep Step with Incoming Funds, Their Totals Make a Remarkable Advance.

The call of the national comptroller for statements from all national banks for March 4, 1914, reveals the fact that the total of deposits on that date was greater than one year ago. The loans and the deposits on that date were also greater than the deposits at the time of the last call, January 13, 1914.

Incinerator Plants Are Made and Sold in Many Standard Sizes

Incinerator plants are of standard makes and if the \$100,000 bonds are voted to build two of these plants, according to City Commissioner J. J. Ryder, there would be no difficulty in selecting one of twenty or thirty unit-make garbage incinerator plants.

The incinerator plants were recommended by Commissioner Ryder, after he had investigated the garbage disposal question in several cities. These plants are self-sustaining in other cities, the by-products being sold.

R. Beecher Howell of the water board is making speeches against the incinerator bonds, saying the city engineering department has proposed no plans for the building of these plants. To this argument Commissioner Ryder said: "It would not be more difficult to select a standard incinerator plant than it would be to buy a standard boiler, and the plants so purchased could be kept in use as the demands of the city required, for they are built on a unit plan."

KELLY'S ARMY LIKELY TO BE JUST A BUBBLE

(Continued from Page One.)

moment that cannot get help to do the work on the farms and ranches. Thus why should there be any excuse for the parading of such an army of unemployed? Only yesterday a large ranch owner of the western part of the state was in my office and said he was going out of the business because he could not get the help when he wanted it. The cry from the farmers and ranchers of the state is general all the time, and even through the winter they have not been able to get the men to do the little winter work they have. Of course, on the west coast the condition is a little different, but there would be nothing to it if the army ever got as far as Nebraska.

The report was that the army would divide in Colorado and that half of it would pass through Omaha while the other half would go by way of Kansas City to Washington.

Deserves Consideration. C. E. Yost, president of the Nebraska Telephone company and president of the Omaha club, said: "It is a matter that deserves serious consideration. We remember Cox's army, and I have don't change much, if the farmers continue to feed them as they have done, they may keep on the march. If they stop feeding they may help themselves, and what are you going to do about it?"

Will Teach Tango Steps to Omaha Folks

The tango tea has arrived in Omaha and the fad will be opened to the public six afternoons each week, at the Pompeian room at the Brandeis stores beginning Monday. Through the innovation offered by the Brandeis stores all Omaha may have the tango free.

The floor space which has been provided for fifteen couples in the Pompeian room will be thronged with dancers and those who wish to learn the dances. On Tuesday and Thursday afternoon the people of Omaha may learn the tango free of charge.

Mr. and Mrs. Norton, professional dancers, have been engaged to take charge of the programs for the tango teas at the Brandeis stores, and many dancing novices are promised with the tango tea here. Assisting them are the Misses Hazel and Gladys Fowler, also expert in the newer dances, and most especially the tango. On two afternoons each week those who desire instruction in the tango may secure the lessons free by stepping to the center of the floor, where they will

that wouldn't hesitate to offer proper protection to the state.

Would Hit Harvest Right. United States Commissioner Herbert Daniel believes that if the army ever should get as far as the agricultural section it will be just at the time when the farm work is opening and that there will be plenty of jobs offered them as they go along. "If they don't take a job when it is offered to them," says Daniel, "do you suppose those farmers will continue to feed them? Not on your life. And there are plenty of farmers through here that need workmen badly."

KEARNEY AFTER GUN RANGE

Tract of Ground Near Old Fort Kearney Offered the State.

MAY BE HAD FOR SMALL COST

Adjutant General Much Impressed with Order and Will Investigate Propositions Made Thoroughly.

(From a Staff Correspondent.) LINCOLN, March 7.—(Special.)—Kearney wants the location of the new rifle range to be bought by the National Guard, and today W. O. Duncan of that city called on the adjutant general and made the offer of the range near old Fort Kearney. The range embraces 69 acres lying along the Platte river and can be secured for \$20 an acre and possibly less.

Adjutant General Hall was much impressed with the offer and will go to Kearney to look the situation over. The range was used a few years ago as a state range in connection with the encampment of the guard which was held that year at Kearney.

Fixing Up Offices.

A telephone switchboard is being installed today in the office of the State Railway commission to meet the demands of the different working departments. Rooms are being fixed up in the basement of the state house immediately adjoining the basement rooms under the main offices, to which the physical valuation department will be moved and a room for hearings arranged. The present arrangement will make it possible for one of the stenographers to fill the place of help girl much easier than it has been under the old system.

OXFORD ELECTS NEW SCHOOL SUPERINTENDENT

OXFORD, Neb., March 7.—(Special.)—At a meeting of the school board Thursday night, L. E. Chatterton of Lexington, was chosen to succeed C. L. Anderson as superintendent of the Oxford public schools for the year 1914-15. Superintendent Anderson, who is now filling his office, consecutive year in this position, was not a candidate for re-election, having given his resignation several weeks ago, to take effect at the end of the present school year. Miss Minnie Hall of Trenton, was elected to teach in the high school, and all of the grade teachers were re-elected. This leaves two high school positions yet to be filled.

The Burlington hotel is now preparing to connect with the municipal electric light system, and when this addition to the service is made, the plant will have reached its limit of supply. It has proven a great success, even beyond the hopes of the projectors of the plan, and, no doubt, an enlargement of the plant will be required in the near future.

SAUNDERS COUNTY NEEDS NEW JAIL, SAYS JURY

WAIHOO, Neb., March 7.—(Special.)—The grand jury that was sworn in last Monday, and which has been grinding away all week, returned into court today and was discharged by the court. They recommended that the county commissioners take such legal action as will bring the building of a new modern jail before the voters of Saunders county at the next general election not to exceed \$20,000, condemning the old building as a menace to life of prisoners confined in the jail in case of fire, or a severe wind storm. It is understood several indictments were brought in, but none have been made public.

CAMBRIDGE MAN DIES SUDDENLY IN BEATRICE

BEATRICE, Neb., March 7.—(Special.)—Jasper M. Denny of Cambridge, Neb., died suddenly this morning at the Davis house here of heart trouble, aged 69 years. He and his son came to Beatrice yesterday to look for a location. The body will be taken to Cambridge for interment.
