This event was won in 6:28 flat. In the running broad jump Chauncey Schlott, the Washington avenue school favorite, won; Ernest Radcliff, Washington avenue, second, and Stanley Hunter, Pierce street, third. Distance, 16 feet and 3 inches. This was the only event in which Pierce street, last year's winners, made a showing. It was a boost for the blue and white, as they gained eight points.

The 100-yard relay was next run by Washington avenue; first, Avenue B, second; Twentieth avenue, third, Time, 0.57.

Close in Mile Run. The mile run was won by Victor Christensen of Washington avenue; Donald Beards, Washington avenue, second, and Arthur Spry, Twentieth avenue, third, Time, 5:54. The pupils of Washington avenue school cheered and waved their colors when their team won the tug of war. The tug was surely Washington avenue school day, as their athletes had it on all the other schools.

Chauncey Schlott, who carried off most of the honors for the blue and white, is a member of the local Young Men's Christian association and is a good all-around athlete. Joyful Anticipation of Motherhood

There is apt to be a latent apprehension of distress to mar the complete joy of expectation. But this is quite overcome by the advice of so many women to use "Mother's Friend." This is an external application designed to soothe the muscles and to thus so relieve the pressure reacting on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains said to cause nausea, morning sickness and many local distresses. This splendid embrocation is known to a multitude of mothers.

Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since our grandmother's earlier years and is known throughout the United States it may be easily inferred that it is something that women talk about and gladly recommend to prospective mothers. "Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special prospectus containing full particulars. Perjury Charge Made Over Saloon Petition

Upon an information alleged to have been filed by A. C. Ingalls, 230 Washington avenue, baggage man at the Northwestern railway station, Marion C. Harford, 307 Avenue D, one of the men engaged in securing names to the saloon consent petition, was arrested yesterday upon a charge of perjury. The name of Ingalls appears on the consent petition and he denies that he placed it there.

Each canvasser was required to make an affidavit that he personally witnessed the signing of each name to the petition. The affidavit does not declare, however, that the signers are personally known to the canvassers. The arrest of Harford created a good deal of indignation yesterday. It was generally denounced as a "frame up," in which both Harford and Ingalls were unconscious victims. Mr. Ingalls is well known to be a temperate man and is known by the name of "licensed liquor traffic." Harford had never seen him, his knowledge and when a man approached Harford and said he wanted to sign the petition he was asked the usual questions, if he had voted at the last election, his name and address. The fact that Ingalls' right name and address were given by the fellow who was impersonating him indicated that it was intended for a practical joke, or a trap deliberately laid.

The warrant for Harford's arrest was issued by Justice Joseph. The bond fixed by the justice was quickly provided. The first event was the 100-yard dash, won by Chauncey Schlott, Washington avenue, Earl Williamson, Avenue B, second; Lee Kimball, Avenue B, third, Time, 6.12. Arthur Chapman of Washington avenue won the high jump; Lee Kimball, Avenue B, second; Eldon Anderson, Washington avenue, third. Height, 4 feet 10 inches. In throwing the base ball Arthur Chapman of Washington avenue was the winner again; Fred Shaw, Twentieth avenue, second; Raymond Clayton, Avenue B, third. Distance, 75 yards, 29 feet and 4 inches. Caught Redhanded and with the Goods

Tim Colgan, Harry, alias "Dutch" Hall and Bill Grady, were in the city jail awaiting hearing on the charge of chicken stealing. They were caught red-handed, it was really the blood on their hands that led to their detection. Just before midnight Thursday they went to the residence of W. C. Burke, 24 Morningdale avenue, and took eighteen of his White Orpington fowls—seven hens and a rooster, the latter valued at \$25. They killed all but the rooster and stuffed the dead birds in one gunny sack and the live ones in another. Coming down to breakfast the man made the mistake of taking a "Pierce" street car, that would compel them to change at Pearl and Broadway to get an Omaha car. They got off at Benson street to await for an Omaha car. The conductor noting the blood on their hands and the feathers and blood on the gunnybags made a surmise when they left the car at Benson street. He notified the police station and Captain Shaffer and Officer Bascom met the first Omaha car at the Ogden house. Both boys denied ownership of the fowls, although the conductor said they had brought them aboard. Hall is a paroled Iowa prison man and Grady has just completed a year in the penitentiary under a federal court sentence for bootlegging.

Spanish War Vets to Meet in the Bluffs

The state reunion of the Spanish War Veterans' association is to be held in Council Bluffs this year, probably June 11. It was originally scheduled to be held at St. Louis. An immediate affirmative answer was returned, and Major Emory will be here Sunday to discuss the arrangements. SENATE BECOMES AMBITIOUS

Advances Its Meeting Hour from Noon to Eleven O'clock.

HOUSE CAUCUS CALL IS ISSUED

Resolution Limiting Party Program of Legislation Will Be Considered Next Tuesday Night.

WASHINGTON, May 9.—Plans for an early adjournment of congress took more definite shape today when the senate advanced its meeting hour from noon to 11 o'clock and house leaders issued the formal call for a democratic caucus next Tuesday night, when a "legislative program" will be laid out, which will include adjournment as a leading feature. If the senate holds to the 11 o'clock meeting hour and insists upon a few night sessions, leaders believe that the hope of adjournment July 15 may be realized. Majority Leader Underwood has no doubt that the house can finish its business before that date.

The house caucus Tuesday will consider a resolution announcing it to be the sense of the party that anti-trust, interstate trade committee and railway capitalization bills, the rural credit measures and the appropriation bills should be passed and the house then adjourn. It is not expected there will be any opposition to its adoption.

Wherefore of Change. The senate changed its meeting hour today to hasten passage of the agricultural appropriation bill. This bill has dragged along for more than a week with little progress and several senators are anxious that it be disposed of before other appropriation bills are reported.

There was one cloud on the adjournment horizon when talk was renewed of an attempt to reach a vote at the present session of the proposed constitutional amendment for nation-wide prohibition. The resolution proposing the amendment was taken up in the house under a special rule to be brought up within a week so that action may be taken promptly. There is little likelihood that the amendment will be taken up in the Tuesday caucus, but there is an intention on the part of the house leaders to stifle it. Its passage requires a two-thirds vote and leaders expect the fight to be close.

View of Senators. There is a growing disposition on the part of senators to take the attitude that if the house passes the anti-trust legislation and the senate becomes so tangled up with it that there is little prospect of an agreement for months, adjournment should be taken without anti-trust action by the senate. These senators feel that passage by the house would be assurance to the country that the party is carrying out its platform pledges and predict that next winter there would be ample opportunity to complete the work on trusts.

When asked concerning the situation in Mexico Cardinal Farley expressed a hope that the mediation program undertaken by the South American powers would prove effective, bringing about a settlement of the controversy between Mexico and the United States. He said he was convinced that President Wilson was a sincere advocate of peace and did not desire to add to the territory of the United States by conquest.

Rock Island Needs Fortune

Sixty-Five Millions Necessary to Put Road on Proper Basis.

Rail Expert Gives His View

F. W. McKenna, Hired by Committee of Bondholders, Makes Report as to Conditions and Requirements.

NEW YORK, May 9.—Approximately \$50,000,000 will be required to effect such economic and general improvements as are necessary to place the Chicago, Rock Island & Pacific railroad system on a proper physical and financial basis, according to F. W. McKenna, a railroad expert, engaged by the bondholders' protective committee of the railroad company, whose report was made today. Mr. McKenna's report, which has been awaited with much interest by holders of Rock Island securities, is more exhaustive than that made some weeks ago by T. M. Schumacher, the chairman of the Rock Island company, who estimated the system's needs at \$40,000,000.

Regarding the road's physical condition, the McKenna report says about 20,000 cars ought to be retired. He recommends an investment of about \$15,000,000 in new cars, which would increase efficiency by at least 50 per cent, he estimates. Capital requirements, as contemplated by Mr. McKenna, call for about \$40,000,000, the expenditure of which, he says, would result in increased revenues over existing conditions of at least \$5,000,000.

Construction of a short line from Chicago to Kansas City by way of Peoria, Ill., and Keokuk, Ia., would also have a potent effect, says Mr. McKenna, in reducing transportation expenses. These and other improvements, he believes, would go far towards restoring the stock of the railway company to at least its par value.
