"In East Prussia and in the region of Mlava (Northern Russian Poland) we have defeated attempts by the Germans to deliver a partial offensive.

U. S. Oil Tank Ship Brindilla Arrested For Second Time

HALIFAX, N. S., Jan. 2.—Word was received here today that the American tank steamer Brindilla, whose arrest by a British cruiser and detention at Halifax last October was the cause of diplomatic correspondence between the United States and Great Britain, resulting in the steamer's release, again had been intercepted off the coast of Scotland and taken into Aberdeen.

NEW YORK, Jan. 2.—Confirmation of the Brindilla's seizure was given today at the offices of the Standard Oil Company here, but it was said that the ship had been intercepted by a French warship and taken to Brest, France.

The Brindilla left Alexandria, Egypt, about November 28. It arrived at St. Michaels, Azores, to take on a cargo of oil from a German steamer December 12, and was reported as clearing St. Michaels for Copenhagen December 20.

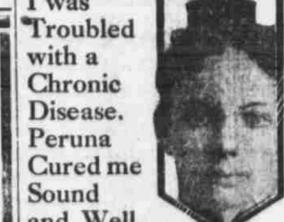

The Brindilla's first seizure off New York last October resulted in a vigorous protest from its owners to the United States government.

The State department at Washington made representations to the British government which resulted in the Brindilla's release after it had been detained at Halifax a week.

IMPLEMENT MEN HERE TOMORROW

clothes. Thus the convention dates are January 3, 4 and 5. The convention sessions will be held on the Auditorium stage back where the noise of the machinery at work will not bother.

Many Visitors Expected. A large delegation of implement men from a number of states is expected. The bureau of publicity has co-operated with the officers of the association in an effort to bring in a large delegation.

The opening session Tuesday morning, January 3, will be given over largely to reports of president, secretary and treasurer, and to the appointment of committees.

Ed Lehmkuhl of Wahoo is serving his second term as president of the association; E. E. Morse, Murin, Ia., is vice president; James Wallace, Council Bluffs, secretary, and C. A. Wagner, Omaha, treasurer.

The board of directors is composed of six implement men from Nebraska and Iowa as follows: Oscar Rystrom, St. Joseph, Neb.; W. H. Waples, Castana, Ia.; A. E. Tunberg, Hooper, Neb.; C. W. Davey, Hamburg, Ia.; Martin Nelson, Hartington, Neb.; J. W. Patterson, Kearney, Neb.

Speakers to Discuss Problems. Speakers from various states will discuss various phases of the implement business, particularly the problems of the retail implement dealer.

Various implement houses of the city have already decorated their places of business with a view to entertaining the delegates when they come. Many orders are being placed at the wholesale houses by the delegates before they leave the city at these meetings.

Much Business Results. Thousands upon thousands of dollars worth of business was done in this way during the several days of the convention last year. Omaha's wholesale implement district is so fortunately located that it takes the minimum amount of walking to cover the district.

The sale room of the International Harvester company at the Harvester building, Eighth and Cassid streets, has been attractively and uniquely decorated for the implement dealers' convention to be held here next week.

BERLIN, Jan. 2.—(By Wireless to London)—French attacks in the vicinity of Niport, Belgium, were repulsed by the Germans yesterday, according to the official statement given out today by the German general headquarters staff.

German successes are claimed in the Argonne forest, in the Bois Brules and to the southwest of Saarburg, while violent attacks directed by the French to the north of the fortresses of Verdun are said to have been repulsed. French reports of progress in the Alsatian village of Steinbach are denied by the Germans.

Part of Human Torso Found Imbedded in Ice at Coney Island

NEW YORK, Jan. 2.—Examination early today of the torso of the human body discovered last night imbedded in the ice in a marsh near Coney Island led the police to believe it was that of a man. The torso was wrapped in two burlap bags and patrolmen and detectives searched all night in the Long Island meadow where the two bundles were found in the hope of locating the missing parts of the body. The police were especially anxious to find the head that the identity of the supposedly murdered man might be established.

The discovery of the dismembered body recalled to the detective bureau the finding of the mutilated body of Anna Amstler, who was murdered by the Rev. Hans Schmidt and the fragments thrown upon the Jersey shore of the Hudson river. The discovery of the bags was made by a boy who was passing near the spot. The boy led a detective to the place, where he found a mutilated body. Lower parts of the torso were in the second bag.
