

### Hair Tinting Made Easy

Many thousands of women have put up with streaked and gray hair because they know of no absolutely safe way to overcome this robber of youth and attractiveness.

After all, one of the chief pleasures in life is that of appearing in an attractive manner as possible.

"Brownstone" Hair Stain will help you in just this emergency. With it you can touch up the gray spots instantly—or you can in a few moments' time give to your hair that rich, soft brown, so much to be admired. Or you can make it a frosty black if you prefer. All this without the possibility of detection, failure or harm to either hair or scalp.

No previous experience whatever is necessary when you use "Brownstone." Just brush or comb it into the hair. A sample and a booklet will be sent you upon receipt of 10 cents.

All of the leading drug stores sell "Brownstone" Hair Stain will help you. Two shades—one for golden or medium brown, and the other for dark brown or black. Inset on "Brownstone" at your hair-dresser's.

Prepared by the Kenton Pharmacy Co., 50 E. Pike St., Covington, Ky. Sold and distributed in Omaha by Sherman & McConnell Drug Co. and other leading dealers.—Advertisement.

### H. M. S. QUEEN ELIZABETH IN THE DARDANELLES—

Photograph taken when it was lying outside the entrance to the straits of the Dardanelles. The Queen Elizabeth carries 15-inch guns in its main turrets and through their enormous range has been able to pour an indirect fire on the Turkish batteries, at the same time keeping out of harm's way.

### JAPAN DECIDES TO SEND ULTIMATUM

Minister of Justice Says China Will Be Invited to Reconsider Stand Against Concessions.

#### WILL NOT VIOLATE TREATIES

TOKIO, May 4.—Minister of Justice Ozaki is quoted by the newspapers as having announced that the cabinet had decided to send an ultimatum to China urging it to reconsider the decision to make no further concessions to Japan.

It is expected in official circles that Japan has no desire to resort to force, but that China "must be made to realize this country is determined upon the acceptance of its program for solidifying the peace of the Orient."

The press considers the ultimatum a proper step. The Times believes that if China refuses to yield, Japan should occupy provinces like Shantung "until China comes to its senses."

#### Claims No Violation.

This, the paper says, would not constitute a violation of China's integrity, "since the sole aim would be to ensure the integrity of the country."

The belief is professed in some circles that China may send word at the last minute that additional concessions are possible and in this way avert the ultimatum.

The Kokumin Shimbun today quotes Premier Okuma as expressing his disappointment with the course of the Chinese authorities. In the beginning, it is related, Japan asked China to keep the proceedings secret. In spite of China's promise to this effect, the proceedings were published broadcast.

Continuing, the Kokumin Shimbun says it is in a position to declare with authority that whatever action Japan takes, its course will not disturb the friendly relations with the United States and Great Britain.

In conclusion, this paper says that the appeal of China to America through the missionaries will not move the United States to interfere.

There have appeared statements in the Japanese papers that Dr. Sun Yat Sen, who is now in Japan plotting to overthrow Yuan Shi Kai, president of the Chinese republic, has issued a manifesto making the charge that Yuan Shi Kai in reality was the originator of the Japanese demands, his ulterior motive being to secure the help of Japan to make himself emperor. These allegations, however, are quite without confirmation.

### Federal Employees to Take Four Days Off Without Pay

The entire custodial force of thirty-four men in the Omaha federal building will be furloughed to take eight days' furlough without pay between now and the end of the fiscal year, June 30, in order to keep expenses of operation within the curtailed appropriation made for that purpose by congress. The same or an even longer enforced furlough without pay will be necessary during the twelve months following.

The Omaha payroll is about \$1,800 per month for the thirty-four custodial employees, including chief engineer, assistant and helper, firemen, elevator conductors, watchmen, janitors, laborers and chaw-women. Two-fifths of that sum will be cut off the payroll during May, and the remainder will be used to equalize the deficiency brought about by the desire of congress to cut down government expenses.

Many Disorders Come from the Liver. Constipation, headache, bilious spells indicate a sluggish liver. The tried remedy is Dr. King's New Life Pills. Only \$1.00. All druggists.—Advertisement.

### British Coal Ship is Sunk by Torpedo Off Scilly Islands

LONDON, May 4.—The British steamer Minterne from Cardiff for the River Plate, with 8,000 tons of coal, was torpedoed off the Scilly islands Monday. Two firemen were killed and the second engineer was injured. The wounded man and the remainder of the crew have been landed at Penzance.

The striking of the torpedo was the first intimation that a submarine was in the neighborhood. The force of the explosion hurled the engineer through the aperture made in the ship's deck and saved his life. The crew took to their boats and finally were rescued by fishing vessels.

The Minterne was of 1,900 tons net and was 330 feet long. It was built in 1901 and owned in London.

Restored to Good Health. "I was sick for four years with stomach trouble," writes Mrs. Otto Gans, Zanesville, O. "I lost weight and felt so weak that I almost gave up hope of being cured. A friend told me about Chamberlain's Tablets, and since using two bottles of them I have been a well woman." Obtainable everywhere.—Advertisement.

### Poor Time for Europe to Lecture Asia on Political Morality

LONDON, May 4.—"Unfortunately we only have the summary of China's reply to Japan," says the Daily News in an editorial today, "so that it is not quite clear what concessions it is making to Japan. It seems to be far from unreasonable in meeting the demands, reasonable in themselves, but it rejects demands incompatible with its own sovereignty, or with that equality of opportunity which it is bound by a long succession of treaties with numerous powers to maintain."

The situation is very critical and must be met with prudence and moderation. The temptation which faces the Japanese government is a powerful one and the moment is not well chosen for Europe to lecture Asia on political morality. Yet the Japanese government would be wise to weigh very carefully any action it might contemplate and to remember that prudence and moderation are very often the bases of statesmanship.

"Japan's military resources are great, but all China has been aroused by its demands to intense bitterness and the process of enforcing them may prove extremely costly."

The question as to how Japan can reconcile some of its demands on China with its professed intention of upholding the independence of that country is raised by the Manchester Guardian in reviewing editorially the Chino-Japanese negotiations.

"China does agree," says the Guardian, "to the request that it shall not cede to a third power any harbors, bays or islands along its coast—an undertaking against which nothing can be said except that it apparently leaves Japan free to demand from China just what China is forbidden to grant to a third party."

"If Japan would enter into a self-denying ordinance, then, indeed, China and those who wish it well would have solid ground for satisfaction. But at present we remain puzzled to know how Japan can reconcile some of its demands, those, for instance, which China has rejected with its professed intention of upholding the independence of China."

### Fairbury Will Stay Dry for Whole Month

FAIRBURY, Neb., May 4.—(Special.)—Fairbury is now a "dry" town and likely to remain so until at least June 5. The Fairbury saloons—seven of them—closed last Friday night at 8 o'clock, when their licenses expired and the council refused to grant new ones, although Fairbury went "wet" by 17 votes April 6.

It was all due to a lengthy remonstrance filed by John C. McLucas, an objector, and a bitter foe of the saloons, charging them with unlawfully selling and giving away liquor to habitual drunkards, minors, as well as violating the 8 o'clock closing law, Sunday and election laws. The city council will have a hearing of the cases Wednesday, but it is said the saloon keepers will not carry the case into court at all, but the council will be confronted with a new list of applicants for licenses to run saloons—the former proprietors having sold their saloons to the new men.

It will take thirty days to publish the applicants for licenses in the local papers and secure the licenses. This is the first time Fairbury has been dry since 1910 and it is the outcome of the bitter fight engendered at the municipal election.

### Music Director at Doane

CRETE, Neb., May 4.—(Special.)—George H. Aller of University Place was elected director of the Conservatory of Music of Doane college last night. Mr. Aller was graduated from the Doane conservatory in 1893 and later studied in Los Angeles, Chicago, Berlin and

### "Tiz"—A Joy to Sore, Tired Feet

"TIZ" for aching, burning, puffed-up feet and corns or callouses

"How 'TIZ' does help sore feet."

### Nurse Registration Board is Appointed

(From a Staff Correspondent.) LINCOLN, May 4.—(Special.)—The Board of registration for nurses, under a law passed by the last legislature, which consists of Governor Morehead, State Superintendent Thomas and Attorney General Reed, has recommended for appointment the following nurses for the registration board:

For the three-year term: Gertrude R. Smith, Omaha; Mary Swan, state hospital, Lincoln.

For two years: Grace Bradley, Lister hospital, Omaha; Lillian Sturt, Wise Memorial, Omaha.

For one year: Elsie Sandman, Harbino.

### Laborer Struck by Locomotive May Die

When Engineer Carl Merchum of a light passenger locomotive blew his whistle at Thirteenth and Ohio streets Tuesday afternoon to warn Charles O. Anderson, a railroad laborer, who was walking along the tracks in the same direction, the latter is said to have stepped directly in front of the engine, instead of to one side. He was struck and suffered a fracture of the skull as a result, and is now reported to be dying at St. Joseph's hospital, whence he was taken in the police ambulance. Anderson is 64 years of age, lives at 207 North Twentieth street and has a wife and several grown children.

## These are the reasons why it is needless to pay more than \$985

And you'll see more—many more—when you come to look at the car itself. But these are enough to give you some idea of what you'll find. And when you find other cars that cost from \$90 to \$225 more than this Studebaker, omitting or deliberately trying to make advertising capital of designs that are admittedly not as good—you can draw your own conclusions as to whether it is wise to pay more than \$985 for another car.

And you don't want to judge this FOUR on price either. Not for a minute. You find QUALITY in every detail of it. You find the most approved design. You find accuracy of manufacturing that strikes the average man as miraculous. But you expect to get that from a plant that is recognized as one of the largest in the business. And Studebaker is. And just so, you expect a relatively low price from such a manufacturing organization. For the simple reason that you know large scale manufacturing results in economies, low costs that other plants can never begin to touch.

And so it isn't price—but QUALITY that we want you to look for. And we are entirely willing—even eager to have your choice rest on just that matter of QUALITY. For we know that when you set this Studebaker beside other cars, you'll decide in your mind, as many thousands of careful men have already done—that it is needless to pay more than \$985 for a FOUR—and unwise to pay less. The car is at your convenience at any time—and for any tests, hills, roads, anything—

## because it's a Studebaker Four \$985

**Rear Axle**  
Others are using what they briefly describe as "floating" types of axle. Which means that they are the earlier types of axle which were developed in the evolution of the FULL-FLYING axle. This Rear Axle that Studebaker uses is much more costly to manufacture. But SAFER. For it carries the weight of the car on the axle housing. It has TWO Timken Bearings in each hub to take up the side thrusts. And the shaft itself does ONE thing only—turns the wheels.

**Radius Rods**  
You will not find radius rods on many cars except those of high price—or if you do find them, you will note they are insignificant in size. Some cars drive thru the springs just because it happens to cost more to use radius rods and a torque arm as Studebaker does. But it also happens that radius rods take the driving thrust that the springs have to take in other cars. And so make the car EASIER-riding.

**Springs**  
Driving thru' springs means that the springs have to be stiffer than usual, because the master leaf—that one thin band of steel that runs from tip to tip of the springs—must transmit all the "push" of the wheels. And one of the springs must be firmly attached to the frame. Studebaker, in addition to having developer springs, steels and design that make them wonderful in strength and life, is able, because it uses radius rods, to make the springs "springier" so they are able to take up the side thrusts at BOTH ends, thus increasing the smooth-riding qualities of the car.

**Ample Brakes**  
Minor in importance, you might say. But take the brakes just as a sample. SAFETY is a big consideration in any car. No brakes are vital sometimes when you have to stop quickly. Studebaker not only uses a big equalizer such as you find on one of the very highest priced cars—but uses brake drums that are much larger than most cars weighing half a ton more are using. Costs more—but it's Studebaker's way of making sure.
