SUNDAY TELLS OF SOME STRAY DOGS IN THE CHURCHES

Worship on the Sabbath, but They Are Ready to Follow Most Any Master that Happens to Come Along.

TOO LAZY TO WORK FOR CHRIST

Idea Preacher Is Going to Pull His Entire Congregation Through to Glory a Wrong One.

MUST WORK TO WIN SOULS

TODAY'S MEETINGS. Noon Meetings—Alfred Bloom company, M. E. Smith & Co., Hydraulic Pressed Brick company. Leaders, C. F. Sobel, Mrs. Asher, Mr. Bodeheaver, Mr. Brewster.

11 a. m. to 2 p. m.—Business women's noon meetings and lunch, 1609-11 Farman street, Miss Miller. 2 p. m.—Sunday at Tabernacle. 3 p. m.—Bible class at Tabernacle, Miss Saxe.

3:15 p. m.—South Side High school girls, First Presbyterian church, South Side, Miss Miller. 3:45 p. m.—Boys' and girls' meeting, Florence Presbyterian church, Miss Gannin.

7:30 p. m.—Sunday at Tabernacle. "Dollar night." First call for "Trail Hitters." 8 p. m.—Bible class, Olivet Baptist church, Miss Saxe.

"Billy" Sunday scolded his hearers yesterday afternoon. He told them they were all sorts of undesirable things and they warned to him as he scolded.

He told them that lots of them are "stray dogs" in religion, ready to follow any master.

"You lazy loots, you never work for Christ," he cried. "The church must be more than a great big, gorgeous religious club. The poorest stick you ever looked at as a soul winner is the young preacher, just out of the seminary. He has been taught to build a sermon, but not to win a soul."

"About the hardest job on God's earth is to be pastor of the average church. You grumble and growl, and you're lazy and stinky, and it's an awful job."

Preacher Can't Do It All.

"The old idea that the preacher is a sort of ecclesiastical locomotive and that his puffing and whistling is going to pull the whole bunch to glory is wrong."

"God says that 'He who winneth souls is wise.' You've got to win souls if you want to do what God wants. The money-makers, the statesmen, the great doctors, the great men in all worldly affairs of twenty years ago are forgotten. But he who winneth souls shall shine like the stars forever and ever."

He suddenly shook his fist at the audience and shouted:

"You old devil, you can't go to church and pray on Sunday and then go out and vote for the whiskey rams on Tuesday. You've got to be careful of your actions, Paul said, 'If meat make my brother to offend I will eat no meat, while the world standeth, and he that eateth the meat he had just bought on the floor of the butcher shop and a yellow dog grabbed it and ducked up an alley with it."

"If there's anything makes me sick, tired and disgusted, it is to see a fool preacher with the society bug in his bonnet and his foot of an empty-headed wife leading the bridge whist crowd and his daughter taking dancing lessons."

Work Will Do It.

"Do you know what work will do? If every Methodist preacher in this country would win just one soul to Christ in a month that church would win 400,000 in one year. If all the preachers of all denominations would win one soul a month we would add 1,400,000 to Christ's army in a single year. Too much church work is like a squirrel in a cage, lots of action, but gets nowhere."

A call by Bodeheaver for the hands of all those in the audience who came from outside Omaha brought an astonishing show of hands, it being estimated that one-third of those present were from out of the city. Presentation of "Ma" to the audience brought great applause.

The Weather

Forecast till 7 p. m. Thursday: For Omaha, Council Bluffs and Vicinity—Unsettled; warmer.

Temperatures at Omaha Yesterday.

Table with 2 columns: Time (5 a. m., 6 a. m., 7 a. m., 8 a. m., 9 a. m., 10 a. m., 11 a. m., 12 m., 1 p. m., 2 p. m., 3 p. m., 4 p. m., 5 p. m., 6 p. m., 7 p. m., 8 p. m., 9 p. m., 10 p. m., 11 p. m.) and Temperature (Deg., 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70).

SUNDAY LECTURES IN JOSLYN HOME

Makes His Omaha Debut as a Drawing Room Lecturer, Speaking on Henry Van Dyke.

WILL TALK THURSDAY MORNING

"Billy" Sunday will make his Omaha debut as a drawing-room lecturer this morning at 10 o'clock at the home of Mrs. George A. Joslyn. One hundred prominent society women have been invited by telephone to hear the evangelist talk on "Henry Van Dyke," his life and teachings, with special reference to "The Lost Word."

"I am merely throwing open my house for this lecture. I particularly want it known that it is not at my invitation that Mr. Sunday is to speak here," said Mrs. Joslyn. Mrs. Joslyn is a member of the Unitarian church, which has not joined in the Sunday campaign.

The chairman of the Young Women's Christian association board, who has the meeting in hand, says that plans are being made for five more lectures to be given in Omaha homes. It is said Mr. Sunday has spoken in private homes in almost every city where revival meetings have been held. In Philadelphia, drawing room lectures were held in the Drexel home.

Invents Airship that is Controlled from the Ground

PARIS, Sept. 15.—An Italian engineer, Louis Rota, has solved the problem of holding an object motionless in space, according to the Marseille correspondent of the Petit Parisien. Rota is credited with having constructed an apparatus which, by the action of electric currents, can be elevated to a height of from 2,000 to 3,000 feet and kept motionless, or propelled in any direction at a speed of more than 100 miles an hour.

Rota's apparatus is a spindle-shaped, twelve feet long and two feet in diameter and can carry a weight of ninety pounds. It is said to remain motionless in a wind of considerable velocity, but if the wind becomes very strong, it rises automatically until it reaches a calmer region of the air.

The invention is based upon reaction obtained from the electro-magnetic forces of the atmosphere.

Hot Weather Will Continue in East

WASHINGTON, Sept. 15.—Hot weather will continue in the east and south for at least thirty-six hours, the weather bureau announced today. Cooler weather has overspread the upper lake region and the upper Mississippi valley, but no early promise is held out for lower temperatures eastward.

TEN PRISONERS SAW WAY OUT OF ABERDEEN JAIL

ABERDEEN, S. D., Sept. 15.—(Special Telegram.)—Ten prisoners in the county jail, some of them serving sentences of one year, escaped last night by sawing through some steel bars. The sheriff and his deputies have as yet secured no trace of the fugitives. James Schmidt, held for the murder of Ross Farrar, a railway brakeman, failed to get away.

Tell-Tale Wake Works Havoc With German Submarine Craft

LONDON, Sept. 15.—The tell-tale wake they left behind is responsible for the losses of the German submarines, according to the Daily Mail, which adds: "The losses have been more than formidable, they are irrefragable." The submarine makes a peculiar trail on the surface marked by air bubbles. Auxiliary boats follow this curious wave, which seamen soon learn to recognize, although it is not easy to distinguish in rough weather. Twenty-three hundred trawlers now are engaged in the submarine hunt, con-

Trail Hitters At Tabernacle Start on Path

Evangelist Sunday tonight opened the trail to all seekers after light along its path and several hundred persons took advantage of the opening of the trail was attended with scenes of great religious fervor.

The premier also announced that nearly 3,000,000 men had enlisted. He made this statement in reviewing the financial and military situations, so far as military exigencies permitted; but this requirement necessitated in many instances only vague references to the trend of events.

MAY COMPROMISE ON LIQUOR QUESTION

Kellogg Offers Resolution State Federation Be Neutral on the Wet or Dry Proposition.

UP FOR DISPOSITION, TODAY

The contest in the convention of the State Federation of Labor concerning its attitude on the liquor question, scheduled for this morning at 10 o'clock at the court house, will be compromised, if a resolution offered yesterday afternoon by W. H. Kellogg of Omaha is adopted. It proposes the convention shall remain neutral in the wet and dry fight.

Delegates who favor the anti-prohibition resolution reported from committee, however, declared the neutrality resolution would in effect be a victory for the dries and it was said that a contest on the floor was inevitable.

Mr. Kellogg's resolution states that "diversity of opinion on the liquor question makes a definite stand by the convention inadvisable."

Last year the federation, by resolution, favored just regulation of the liquor traffic.

At the morning session the motion to postpone was carried by a vote of 29 to 18, about twenty-five delegates not being recorded. R. B. Donohoe of the local iron workers moved the adoption of the resolution as reported by the committee. George L. Burr of Lincoln, a printer, moved postponement of the discussion.

Those who spoke for an immediate hearing expressed surprise that an attempt should be made to agitate the issue and declared the brewery workers as members of the federation wanted only the same consideration as would be given to the other trades.

Plan to Lift the Tabernacle Debt Sunday Morning

Pledges are to be taken next Sunday morning to try to clean up the current expenses of the Sunday campaign. People will be asked to subscribe anything from a dollar up, payable as soon as possible, so that the \$27,000 budget may be met and collections in the tabernacle discontinued until the last Sunday of the campaign, which is the only day on which Mr. Sunday gets money for himself.

ASKS FOR QUARTER BILLION POUNDS

British Premier Moves Vote of Additional Credit for War in the House of Commons.

DAILY EXPENSE IS \$17,500,000

LONDON, Sept. 15.—The seventh vote of credit since the outbreak of the war, bringing up the total to £1,262,000,000 (\$6,310,000,000) was moved in the House of Commons this afternoon by Premier Asquith. The amount asked for today was £250,000,000 (\$1,250,000,000).

The premier also announced that nearly 3,000,000 men had enlisted. He made this statement in reviewing the financial and military situations, so far as military exigencies permitted; but this requirement necessitated in many instances only vague references to the trend of events.

The growing expenditures for the war were emphasized by the premier. He said the average daily cost from April 1 to the end of June was £2,700,000 (\$13,500,000); from July 1 to July 17, £3,000,000; from July 18 to September 11, £3,500,000. Thus the total for this period in round figures is £200,000,000. There has been repaid £20,000,000 to the Bank of England, £33,000,000 has been lent foreign governments and £28,000,000 loaned to the dominions.

Comparing actual expenditures since the last vote of credit with estimates, Mr. Asquith said there had been some abnormal items to disclose, which would not be in the public interest, but the house might take it that these were expenditures incurred for the purpose of financing necessary operations. Part of this amount was to be repaid in a few months and the remainder represented advances for future expenditures.

Liners Pretorian and Kansas Collide in Fog Near Quebec

QUEBEC, Sept. 15.—The Allan liner Pretorian, with 108 passengers and a heavy consignment of mails from Glasgow, collided with the steamer Kansas in the St. Lawrence during a heavy fog early today.

The collision occurred off the mouth of the Saguenay river and the Pretorian is now lying anchored near there, according to a statement given out by the line. Neither the Pretorian nor the Kansas was greatly damaged, according to the government signal service and both will be able to proceed as soon as the fog has lifted.

Admission is Free To the Tabernacle

Someone seems to have started a troublesome rumor that admission to the tabernacle is charged and a large number of letters and telephone messages have been received from various towns requesting information, protesting against the supposed admission and seeking compensation. Some folks from Giltner, Neb., wrote an act forth their case. "We have to pay car fare and would like to be admitted to the tabernacle free," they said. They were informed that everything is free and that collections are taken as in any other church.

The Day's War News

PREMIER ASQUITH will ask the House of Commons to vote a credit of \$1,250,000,000. COPENHAGEN REPORTS the blowing up by a German submarine of the motor schooner Norie, owned in Christiania, Norway. The crew was saved. COUNT VON REVENTLOW, the German naval writer, declares in the Berlin Tages Zeitung that the Zeppelin attacks on London are legal and of a military character, as London is a fortress. DEVELOPMENTS in vicinity of Vilna lead foreign military observers to expect a decisive battle there soon to determine whether the strategic railway lines of the region shall be controlled by the Germans or the Russians.

KITCHENER SEES TEUTON CHASE IN RUSSIA SLOW UP

German Pursuit of Slavs Proceeding at Rate of One Mile Instead of Five, as Earlier in War.

HE HINTS AT DRAFTING MEN

Asserts Enemy Have Shot Their Bolt and that Allies in West Ready for Anything.

COUNTRY'S RESPONSE SPLENDID

LONDON, Sept. 15.—"The Germans appear almost to have shot their bolt," said Earl Kitchener, secretary of war, today. "Their advance in Russia, which at one time averaged five miles a day, has now diminished to less than one mile a day."

Earl Kitchener's statement was made in a review of the war in the House of Lords.

"The response of the country's calls for recruits has been little short of marvelous," he said, "but the problem how to insure the field force being kept at full strength is engaging our close attention, and will, I hope, soon receive a practical solution. I do not for one instant doubt that whatever sacrifice may prove necessary will be undertaken cheerfully by our people."

This was the only portion of Earl Kitchener's speech which might be regarded as a reference to the possibility of conscription.

Three Million Men Enlist.

Mr. Asquith, in his speech in the House of Commons, estimated that the weekly gross expenditure henceforth would not exceed £30,000,000. It was his opinion that the new vote would carry the country through to the third week of November.

These figures throw some light, in money terms, on the contribution we are making to the war," he continued. "I do not wish to say even that we are doing all we can, all we ought, but as attempts are constantly being made—with whatever intention, but with the most mischievous effect—to belittle and discourage our efforts, I give some comparisons between peace and war figures. "Since the outbreak of the war, it will be found that an aggregate of not far short of 3,000,000 has enlisted in the army and navy. Recruiting on the whole has kept up well, but I regret to say, in the last few weeks has been falling off."

Nearly Million Making Shells. Regarding the work of the munitions department, the premier said all that was now necessary to complete this great and necessary task was an adequate supply of labor, unskilled as much as skilled. There was no field wherein women could do more useful work. The munitions had established 1,000 shell factories and eighteen more were in course of construction. In all 115 controlled establishments were under the department. In these factories, he said, 800,000 workmen were now employed, and the country had vastly exceeded any standard dreamed of before the war.

Reviewing the military situation, Mr. Asquith stated that in France and Flanders the position of the British troops had been strengthened everywhere by large reinforcements of men and munitions, and that there had been a considerable extension of lines taken over from the French.

Gains in Dardanelles. In the Dardanelles, he continued, the British had made substantial gains, though they had not succeeded in dislodging the Turks from the crest of the hills. The British now hold a front of more than twelve miles.

In the east Mr. Asquith said the Russian army establishments is unbroken. He asserted that the superiority of the Germans was only in artillery and that their objective was still far out of reach.

"They succeeded in forcing back the line of our gallant allies with artillery and have taken several fortresses," he continued, "but all accounts show that the Russian retreat is being conducted in a masterly fashion and that the Russian army is still unbroken. The assumption of supreme command by the czar is the most significant proof that could be given of the unalterable determination, from highest to lowest, of the Russian people."

No Change in West. Regarding military operations the war secretary said:

"For the last few months the front held by the allies in the west has been practically unchanged. This does not mean that there has been relaxation of active work on the part of the forces in the field, for the continuous local fighting which has taken place all along the line has called for the display of incessant vigilance. "Meanwhile our positions have been much strengthened, not only by careful elaboration of the system of trench fortifications that already existed, but by a (Continued on Page Two, Column Two.)

THREATS AGAINST AGENTS OF ALLIES

Financiers Who Are in New York to Negotiate Loans Are Closely Guarded by Detectives.

RUNS ON BANKS THREATENED

NEW YORK, Sept. 15.—The campaign against the proposed flotation of a billion-dollar credit loan in the United States to Great Britain and France appeared today to assume the proportions of a country-wide plot, threatening even the personal safety of the six members of the Anglo-French financial commission. Members of this commission, of which Lord Reading, lord chief justice of England, is chairman, have doubled their bodyguards, it became known today. They have been requested by the police of New York not to announce their plans for any day, and in no instance appear on the streets without detectives guarding them.

More than fifty threatening letters have been received by the commission. Their contents run the scale from abuse to threats against the lives of the commission. Some of the most threatening of these letters have been turned over to the police for investigation, it is said, and New York City detectives are now reported to be engaged in seeking the writers.

Largely upon the advice of the police the commission do not visit the financial section in a body, or even in couples. Each commissioner travels through the streets of New York unaccompanied by any other commissioner. At least one detective is at the heels of each commissioner in his trips about the city, and in some cases it is said there are several. "Whether this active opposition is sporadic in its nature or is organized is not (Continued on Page Two, Column One.)

Boy Testifies to Hearing Porter in Threat on Connell

LAS CRUCES, N. M., Sept. 15.—(Special Telegram.)—Two children furnished the dramatic personnel for the Connell murder trial today, when Nelson Roberts, aged 12, and Florence Connell, aged 11, testified for the state in the trial of James L. Porter.

The Roberts boy declared that he had driven to the railroad station with James L. Porter about a year before the accident occurred. He said: "When Porter reached the station and saw the Connell buggy blither there he said he was going to kill Connell if he could find him." Before the boy was sworn under oath, he was asked by the court if he understood the value of an oath. He declared that he did and he would be placed in jail if he did not tell the truth. He was asked if he knew he would be punished and he answered, "Yes, Jesus will punish me if I don't tell the truth."

He said Porter referred to Connell as "Dog-Face" and called him an evil name at one time. He said that when he went to the Porter home before the shooting, Mrs. Porter asked if his step-father would be with the herd of cattle and he answered that he would be along in the morning.

Florence Connell was the other child witness. She was riding with her father, she said, and she told of the shooting, which, she declared, came from the yard of the Porter home, she thought. She did not see anyone fire and did not know who fired the shot. Tom Duffy, an Indian; Orrin Key, step-father of the Roberts boy, and A. Mirabal, deputy sheriff of Otero county, were the other witnesses.

Papers Taken from Archibald Will Be Published by Britain

LONDON, Sept. 15.—Documents from the German and Austrian Hungarian embassies in Washington, taken from James P. J. Archibald, the American war correspondent, on his arrival in England recently, will be made public here, Lord Robert Cecil, parliamentary under secretary for foreign affairs informed the House of Commons this afternoon. He said that one of the most important of these papers already had been made public and that there was no reason why all should not be published.

Body of Van Horne Buried at Joliet

JOLIET, Ill., Sept. 15.—The body of Sir William Van Horne, Canadian railway magnate, arrived here today on a special funeral train from Montreal. Burial ceremonies here were simple, the principal funeral services having been held in the Canadian metropolis. Sir William's body was placed beside those of his father and mother in a local cemetery.

VON HINDENBURG CUTS RAIL LINE TO RUSS CAPITAL

German Cavalry Captures Svienskiy, on the Main Road Four Hundred Miles from Petrograd.

BIG BATTLE IS NOW PENDING

Russian Minister Predicts Important Engagement Near Vilna Within Few Days.

RUSSIANS GAIN IN GALICIA

LONDON, Sept. 15.—While Field Marshal Von Hindenburg's cavalry is astride the Petrograd railroad and the Germans have made large captures of prisoners and guns in Courland, the Russians again are countering these efforts, not only by checking the attempt of the Austrians to resume the offensive in Galicia, but by inflicting another reverse on the Austro-German forces in the same vicinity.

Svienskiy, where the German cavalry cut the railroad, is half way between Vilna and Dvinsk, and about 400 miles from Petrograd. The Russians assert this raid by the Germans has formed a dangerous salient in their line, of which their opponents are likely to take advantage. It is clear whatever strategic move may be involved in this advance, that recent events indicates the near approach of the important engagement in the Vilna region which was predicted a fortnight ago by General Polivanoff, the minister of war.

Further along the line the German armies, operating on both banks of the Niemen, have not yet formed a junction and Russian rear guards are still withdrawing eastward.

Russian military writers are warning the people not to expect too great developments from the Austrian offensive move.

Discussion in the House of Commons today is to be turned from the absorbing topic of conscription to the voting of another huge war credit.

French Official Report.

PARIS, Sept. 15.—The French war office this afternoon gave out a statement on the progress of hostilities, which reads:

"In the Artois district, in the sectors of Neuville and Bretoncourt, there has been fighting with hand grenades, accompanied by some artillery exchange. Yesterday saw engagements with bombs in the vicinity of Liénon, to the west of Ghébut, and in the forest of St. Mard, to the east of Tracy-Le-Val.

"There has been fairly spirited cannonading to the north of Camp De Chalons, and fighting with mines is taking place in the western part of the Argonne.

"The night passed without incident on the remainder of the front."

Cavalry and Infantry Forces Are Rushed to San Benito, Tex.

SAN BENITO, Tex., Sept. 15.—Heavy cavalry and infantry patrols which were rushed to this city during last night kept off a threatened attack by Mexican bandits. Evidence of a plot to terrorize the city were strengthened by reports to army patrols during the night of activities of Mexicans outside of town.

Just before dawn, the time which the commanding officers here suspected was chosen for the attack, infantry details were sent out along the roads for some distance from town. No belligerent Mexicans appeared. Soon after sunrise San Benito resumed its normal aspect and ranch owners who had come into town for the night started back to the country to resume work.

THE WANT-AD-WAY

Don't forget to use the Want Ads. Because if you've used them before, you know that they bring results. So don't forget, or you'll be sore. If you've never used the Want Ads, to bring customers to your store, just try one for a little while. And you'll see them a great deal more. Don't forget the little Want Ads. You'll very soon get the habit of doing things the Want Ad way. BEE WANT ADS will sell any kind of merchandise or service. If you want more business use a Bee Want Ad. If you wish to buy read Bee Want Ads. They always carry the best propositions of the day. Telephone Trier 1800 now and PUT IT IN THE OMAHA BEE.
