

### CAPTAIN VON PAPEN MUST LEAVE, TOO

United States Will Ask Recall of German Attache if He is Not Withdrawn Voluntarily.

#### HIS LETTERS IN WASHINGTON

WASHINGTON, Oct. 1.—Unless Captain Von Papen, the German military attache, is voluntarily withdrawn by his government, indications today were that within a short time the United States would request his recall. All the papers carried by James F. J. Archibald, the American correspondent involved in the case of Dr. Dumba, have been placed before State department officials and while final decision will be made by Secretary Lansing, it is believed that the State department will disclose a transgression of diplomatic proprieties on Von Papen's part which has caused the recall of the Austrian ambassador. In the list of documents now in possession of the State department are four letters from Dr. Dumba, some from Captain Von Papen, and one, it is believed, from Count Von Bernstorff, although the latter point official confirmation was lacking. There is nothing, so far as officials would disclose, which indicated that the German ambassador had violated diplomatic proprieties. DENVER, Colo., Oct. 1.—Captain Von Papen, the German military attache, is speeding to St. Louis today on a Burlington train, according to the announcement of the German consulate. Von Papen left last night.

### SUNDAY PREACHES ON SECOND COMING OF JESUS CHRIST

(Continued from Page One.) times, while he mentions baptism only thirteen times. "Rody" got the audience quite excited at the beginning by a harrowing tale he told about a woman who lost the check for her baby that she left at the nursery. "And when she came to the nursery after the meeting they wouldn't give her her baby without the check," said "Rody." "So she had to wait till all the other babies had been called for and the only baby that was left was a colored baby. She took that baby and went home happy because she was a colored woman and that was her baby."

### FARMERS FAVOR WOMAN SUFFRAGE

(Continued from Page One.) W. L. Ames, Oregon, Wis., member executive committee, and John H. Kimble, Port Deposit, Md., legislative agent. Indianapolis, Atlanta, New York, Chicago, Niagara Falls, Phoenix, Columbia and Baltimore were by the race for the next convention. Omaha has a standing invitation with the congress. Congressman Charles H. Sloan of Nebraska spoke to the farmers on "Congressional Discrimination Against the Farmers." He insisted that the farmers have not been given a fair deal in tariff legislation in that they have to sell to a large extent on the open or free trade market and buy in a protected market. He pointed out that in 1912 Schedule G, which is the schedule on agricultural products, produced 11 per cent of the revenue, and was therefore one of the lowest. If, of all tariffs, should have been left at one, or if modified should have been changed less than any other. Calls for Reciprocity. "If the record of fifteen years clearly indicated that Schedule 'G' should not have been materially changed, he said, or at least not discriminated against, the record of work done of that ruthlessly butchered schedule in the Underwood law emphasizes that fact. "I shall use the fiscal year of 1914 to illustrate the workings of the new law as compared with 1913 for the old. I shall, however, use other illustrative periods for comparison, so that results will be more comprehensively shown. The fiscal year of 1914 contains three months of the old law and nine of the new. Farm Products Free. There was an increase of free imports in 1914 over 1913 of \$24,000,000. Of these \$24,000,000 were farm products. All others \$10,000,000. Stated in percentages farm products 58 per cent, all others 42 per cent. There was an increase in all exports in 1914 over 1913 of \$10,000,000. Of this \$10,000,000 only \$1,000,000 were farm products, and 99,000,000 all others. Stated in percentages farm products 40 per cent, all others 60 per cent. In other words, the farmers were forced to meet \$10,000,000 increased import competition in exchange for the advantage of \$24,000,000 increased export. Or stated in percentages, the farmer was forced to accept a 10 per cent increase of import competition for a 40 per cent increase in exports of his products, while all others were given the benefit of a 58,000,000 export increase for a 100,000,000 import increase. In the matter of increase caused by the new law the farmer found the balance of trade increase against him of \$9,000,000, while all others had a balance of trade increase against them of only \$1,000,000. (Mighty nearly the old record rate of 14 to 1.) "It will readily appear that if 1914, which included three months under the old law, were reduced to a new law basis, the foregoing figures would be increased and obvious conclusions emphasized. "That these conditions are not peculiar to the two years 1913 and 1914, can be shown from almost any periods considered or angles used. And this is true, notwithstanding the barrier interposed by the European war against many imports and the special demands for our own goods by countries abroad. "If agriculture generally felt in the Underwood law the stingiest lash of discrimination, the northwest felt the scorpion bite of rank injustice."

Saloon in Superior. SUPERIOR, Neb., Oct. 1.—(Special Telegram.)—Licenses were granted to E. A. Davis and John Frey today to run saloons in Superior. They are now open for business after a drought lasting since the first of February. No objections were made to the granting of licenses this time. Beauty More Than Skin Deep. A beautiful woman always has good digestion. If your digestion is faulty, Chamberlain's Tablets will do you good. Obtainable everywhere. All druggists—Advertisement.

### FRENCH BEARING BRUNT OF FIGHT

Franks Continue Hammering at the Second Line of German Defenses in Champagne.

#### ATTACK GRAND PRE RAILROAD

LONDON, Oct. 1.—The French are bearing the brunt of the fighting now in progress on the western front. They are hammering at the second German line in Champagne, in the direction of Grand Pre railway, and at the same time dropping bombs on the line and stations to prevent the Germans from bringing up reinforcements. Absence of news from the British front apparently indicates that these forces are occupied with consolidating their positions in the strip of territory recently won. The British forces now in France are estimated at a round million men, which will be increased by 500,000. Daily lengthening of the obituary column of the London newspapers is beginning to measure the price paid by the British for their recent offensive. There is no notable change on the battle front of the east. Bulgaria has not replied to the suggestion of Greece that it demobilize. Say Thrust Has Failed. AMSTERDAM, Sept. 30.—(Via London, Oct. 2.)—The correspondent of the Cologne Gazette in Champagne sends the following to his newspaper: "It is continually becoming clearer that the enemy's surprise thrust, carried out by a tremendous array of forces, which had been in preparation for several months, will not succeed. The attack now has been brought to a standstill all along the line and the prospects of a further setback are being awaited with equanimity. The spirits of the men are excellent and their movements are being executed calmly and confidently."

French Official Report. PARIS, Oct. 1.—In the great battle in the Artois district the French have made further progress, by means of attacks with hand grenades on German trenches. Announcement to this effect was made today by the war office. In the Champagne a German counter attack near Mazon de Champagne was checked. The Germans violently bombarded the French trenches near Soupir, north of the Aisne, but made no infantry attack. The text of the communication follows: "In the Artois district we have made progress by the use of hand grenades in the trenches and underground passages to the east and to the southeast of Neuville. "Two German counter attacks have been delivered, one against a fort which we conquered yesterday in the forest of Givency, the other against the trenches to the south of Hill No. 113, where French troops had installed themselves. Each one of these attacks was conclusively repulsed. "To the north of the Aisne, near Soupir, the enemy conducted a violent demonstration against our trenches. "In the Champagne district our fire put a definite check to a German counter attack in the vicinity of Mazon de Champagne. "The number of prisoners made yesterday evening during our advance to the north of Massignes is 200, including six officers."

French Official Report. PARIS, Oct. 1.—In the great battle in the Artois district the French have made further progress, by means of attacks with hand grenades on German trenches. Announcement to this effect was made today by the war office. In the Champagne a German counter attack near Mazon de Champagne was checked. ### GARRANZA TAKES MEXICO CITY PLANT

(Continued from Page One.) of Sonora, and General Urvalejo had been announced as acting governor and commander-in-chief of Villa forces in Sonora, respectively. Lopeza Texas Rebels. EL PASO, Tex., Oct. 1.—General Nafarrete, commanding Carranza troops at Matamoros, wired the Carranza consulate here today that he had located a band of Texas rebels at Rancho Las Flores, Mexico, and was awaiting instructions to attack. Commenting on the sworn statement of Guadalupe Cuellar before Captain Frank McCoy on the killing of Private Richard J. Johnson of the United States army in the Brownsville district, the Nafarrete message said: "It is absolutely false that any constituted chief of my brigade led a group of Texas rebels." Despite the possibility of the recognition of General Carranza by the Pan-American conference, General Villa continues to add foreigners desiring to leave Mexico to reach the border, say refugees arriving here. They report that Villa ordered several troop trains sidetracked to permit the special train carrying foreigners from Parral and Jiminez to pass. See Want Ads Produce Results.

### LOOKING FOR TROUBLE AND HUNTING FOR BARGAINS ARE ONE AND THE SAME THING!

Don't search for clothing bargains. The usual clothing bargain shrieks aloud and tells the passerby what it is and where it came from. Come to the shop that has respect for your appearance. Our Window Display will help you to realize what our Greatest Sale of Dress Goods means. \$1 and \$1.50 Pair

### HURRICANE TOLL MAY BE SEVENTY

Fifty-Seven Bodies Recovered at New Orleans, Frenier, La., and Along Mississippi.

#### PROPERTY LOSS IN MILLIONS

BATON ROUGE, La., Oct. 1.—The death list resulting from the hurricane which swept New Orleans, its vicinity and the Mississippi gulf coast Wednesday now is expected to reach sixty-five or seventy. Property damage, according to latest estimates, will amount into the millions. The losses so far as now known are distributed as follows: New Orleans—Nineteen dead, 20 injured; property loss more than \$2,000,000. Mississippi Coast—Thirteen dead, scores injured or missing; property loss estimated at \$2,900,000. Frenier, La.—Twenty-five dead, about twenty injured; heavy damage to railroads. Automobiles arriving here from New Orleans early today reported that the work of restoring order in the city was progressing rapidly. Streets are being cleaned of debris. Buildings left in a dangerous condition are being torn down. Railroad traffic from the west into the city has been partially resumed, and telegraph and telephone companies are working day and night to restore wire communication to the outside world. It was stated that no outside aid would be asked for New Orleans. Reports from the Louisiana coast south of New Orleans today are meager, but indications are that the loss of life is not heavy, owing to the ample warnings of the approach of the storm sent out by federal and state authorities. Nineteen Dead at New Orleans. NEW ORLEANS, Sept. 30.—By Courier to Baton Rouge, Oct. 1.—Nineteen known dead, probably 200 injured and lamags to buildings, wire circuits, railroads, shipping and other property in New Orleans and vicinity estimated at several million dollars was the toll taken by the hurricane which swept the city Wednesday and was conceded to have been the worst ever experienced in this section. These figures were compiled here late today. Of the known dead ten were white and nine were negroes. Three negroes lost their lives in Algiers, across the river from here, and six in New Orleans and suburbs. That the storm caused heavy property loss and possibly many casualties in Southern Louisiana as far west as Morgan City and especially near Houma, is feared. Railroad men arriving from Morgan City reported no loss of life at that place. Houma in Center of Storm. From indications the full force of the storm swept over the neighborhood of Houma, a city of 5,000 population. The last report received from Houma at about 9 a. m. Wednesday stated that many refugees were arriving there from Gulf coast points. Corps throughout the district visited by the hurricane were almost totally destroyed. Pears are felt for the safety of residents along both banks of the Mississippi south of here. The last word from the

section around the mouth of the river came today in a wireless message from the steamer Crode, anchored off Port St. Phillip. Captain Jacobs reported that the water was flowing over the levees and that many houses along the banks had been swept away. Captain Meness and three members of the crew of the tug Corsair were drowned in the Mississippi off Nine Mile Point when the Corsair and three fleets of barges sank while the storm was at its height last night. These fleets included more than 50 barges loaded with coal valued at \$1,500,000. The clearing of debris from the streets was begun and street car service was partially resumed this afternoon. A section in the western part of the city, about thirty blocks long and fifteen wide, was flooded today from one to four feet deep. Mayor Behrman today issued a statement declaring the city had no need of outside assistance. He believed the property loss in the city and environs would reach several million dollars. Eleven small craft sank in the harbor here during the storm and six steamships were damaged. The bark Helena sank and two members of the crew were drowned. The United States converted

yacht Stranger, assigned to the Louisiana Naval militia, was rammed by the huge dry dock at the naval station and went to the bottom. The gunboat Petrel was in the dry dock at the time. The Monitor Amphitrite was driven aground. There was no wire communication with the outside world throughout the day, and it is believed direct communication will be impossible for several days. The cotton and all other exchanges remained closed today. Two Towns Wiped Out. NASHVILLE, Tenn., Oct. 1.—According to railroad officials here, persons who visited Rigolets and Dunbar, La., a few miles from Mobile in a boat yesterday, reported that both towns had practically been wiped off the map by the gulf storm. Bank Clearings Show Big Gains The bank clearings for Omaha were over \$7,000,000 greater in September than they were September a year ago. Following are the figures: September, 1915 ..... \$4,201,011.79 September, 1914 ..... 7,253,994.97
