JOS. PLATTNER.

Bakery and restaurant.

Hotel,

Comfortable Rooms,
Meals at all hours.

ALOIS TRUTNOVSKY,

PROPRIETOR.

Scotland.

Gen. Miles says he wants to wear out rather than to rust out, so he has been making investments in the lubricating oil fields of Texas.

There was a sudden rise in spirits at Peoria, Ill., last Saturday. A large still in that city suddenly got noisy. It blew up, killing seven men and seriously injuring three others.

The Nebraska university beat us on football this year, but our crops up this way have been so good of late and life has been so rosy that our youngsters have forgotten how to kick.—Argus-Leader.

Hon. Bartlett Tripp of Yankton has been appointed as one of the committee to arrange for the convention of the Universal Congress of Lawyers and Jurists to be held in St. Louis next September.

The report that there is a backward movement in the price of eastern Iowa land occasions no surprise in this section. With South Dakota land, equally as good, and selling at one-fourth the price, there is bound to be an equilibrium established.

John F. McClain departed for Annapolis Tuesday. John has received the appointment as cadet in the U. S. naval academy and goes to enter a preparatory school in order to be ready for the spring examinations which will make him an officer in Uncle Sam's navy if he succeeds in passing.—Tripp Ledger.

Pres. Roosevelt is still determined to call an extra session of congress, to meet November 9th for the purpose of considering the reciprocity treaty with Cuba. It may prove to be another case of leading the horse to water without power to make him drink. Reciprocity is all right, but why limit it to Cuba?

The city council of Sioux Falls has passed a milk ordinance, and will hereafter have all milk inspected before it is sold. The microbes finally got so large that they reached the proportions of angleworms, and the council concluded that if the dealers couldn't even strain the water it was time to have an inspector.

The editors of the Sioux Falls Argus-Leader have decided to celebrate the 14th anniversary of the Daily and Semi-Weekly Argus-Leader under the present management, by holding a bargain sale day. This anniversary occurs on October 10th, and all new subscribers, or all old ones who pay up all arrears, can secure the daily for three dollars, or the semi-weekly for seventy-five cents, from Oct. 10, 1903, to Oct. 10, 1904. To secure this reduction the subscription must be paid at the local office or deposited in the postoffice on that date.

He Learned a Great Truth.
It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by V. B. Diehl.

While opening a box, J. C. Mount, of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he says, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by V. B. Diehl.

Dr. Stonebraker, coroner of this county, and Deputy Sheriff Davis were called to Parkston last Thursday evening to hold an inquest over the body of Mrs. Peter Faust, who is reported to have died from the effects of a surgical operation.—Olivet Leader.

The coroner's jury, we are informed, completely exonerated Drs. Moore and Persons who performed the operation, but censured the local physician, Dr. Galteh, who has had charge of the case.

The Flickertail Flicker published at Goodrich, N. D., says that there have been forty-seven homestead proofs in that vicinity protested within the past month. Many of the claims protested are held by persons living in other states who have attempted to hold the land by making visits to it about once in six months and never establishing actual residence upon it. There have been so many kicks made on this practice that the government has taken action, and in the opinion of the Flicker most of the proofs will be thrown out and possibly the filings canceled.

The commissioners appointed to superintend the arrangements for the state exhibit at St. Louis next year have appointed H. A. Warner of Woonsocket to collect agricultural exhibits for that purpose. Mr. Warner has made selections from exhibits shown at the fairs in Huron and Yankton, and at the corn palace at Mitchell. This produce will be carefully stored in the corn palace building at Mitchell until spring, when it will be shipped to St. Louis. Corn of various colors for decorating the building is also being purchased. The architectural design of the palace at St. Louis will be similar to that of the Mitchell palace, though somewhat smaller.

The result of the strife made by the book binders' union in Washington for the removal of Assistant Superintendent Miller of the government printing office is likely to have an opposite effect from that expected. It has drawn the attention of the public to the manner of conducting that department and has revealed a condition not particularly creditable. It shows that the prices for binding have been practically the same as they were forty years ago, notwithstanding the fact that new methods and new machinery employed in other establishments have greatly reduced the cost of such work. As an illustration, one order, which under the terms of the appropriation had to be done at the government printing office, cost \$90,000, while a private printing company offered to do the same work for \$55,000. A position in the public printing office seems to have been a private snap, and the efforts of Miller to reduce the expense and compel the employes to earn their salaries, seems to have been the cause of the opposition to him by the union.

FOR CATARRH of the nose, throat, stomach, bowels and most delicate organs, take Hood's Sarsaparilla—it is **A RADICAL CURE.**

DON'T BE FOOLED!

The market is being flooded with worthless imitations of **ROCKY MOUNTAIN TEA**. To protect the public we call special attention to our trade mark, printed on every package. Demand the genuine. For Sale by all Druggists.

Broke Into His House.
S. LeQuinn of Cavendish, Vt., was robbed of his customary health by invasion of chronic constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure. 25c at V. B. Diehl's corner drug store.

Last week Messrs. Deering and Grosz who were running a threshing machine near Parkston had their machine, which was a new Gaar-Scott outfit, destroyed by fire.

A special from Yankton says that hundreds of hogs have died within the past two months in Yankton county, and Cedar county, Neb., from an unnameable disease. A peculiarity of the disease is the suddenness of the attack and death of its victim, sometimes the animal dying within an hour after the first symptoms appear.

A wind storm that almost reached the proportions of a tornado struck the town of Inwood, Ia., about nine miles east of Canton, last Saturday morning. A considerable damage was done to property, and one or two persons were injured by flying missiles. Another storm of even more severity struck St. Charles, Minn., where great damage was done to property, estimated at \$300,000, seven persons killed and many injured. This storm extended for some distance, passing through Bethany, Alturia and Oak Ridge, carrying destruction along its entire path.

Saves Two From Death.
"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infalible for coughs and colds. 50c and \$1.00 bottles guaranteed by V. B. Diehl. Trial bottles free.

Be it Quality of
