 { JOS. PLATTNER.

CITY...

Bakery and Restaurant.

Star Hotel,

Comfortable Rooms,
Meals at all hours.

ALOIS TRUTNOVSKY,
PROPRIETOR.
Half Block from depot, Scotland.

Four men charged with burglary are now in jail at Olivet, and will be tried at the term of court which opens October 27th.

The wet weather of the past few weeks is not placing the corn in very good condition for cribbing. Much of it is on the ground, and if the wet weather continues will be greatly damaged.

Dr. Parks, of Atlanta, Ga., thinks that the way to solve the negro question is to place the negro on the same plane with the Indian. Is this because Indians are all on the Northern plains?

T. M. Hitt of Tyndall has sold his trotting stallion, Sir Henry, to M. H. Christianson, of Plainview, Neb. Sir Henry stands 16 hands high, weighs 1400 pounds, and was probably the fastest trotter of his size in the state.

The desipota factory at Aberdeen was destroyed by fire Monday. The factory cost \$20,000 and was uninsured, but the actual loss amounts to is hard to say, as it had been idle for three years and was dead property.

South Dakota is receiving some valuable advertising through the efforts of the C. M. & St. P. railroad company, which will probably result in a big immigration next season. Recently H. F. Hunter took a company of newspaper men, several of them from Chicago, through the state in his private car, and the accounts of what they saw are certainly very complimentary to the state. For six consecutive years South Dakota has produced the greatest per capita wealth of any state in the union, and the prospects are bright for retaining that prestige for many years to come. Some of the estimates made by this company of newspaper men, as they appeared in the Chicago Inter Ocean, together with facts submitted, are interesting. The damage done to the corn crop by the frosts in September is estimated at three per cent. The corn crop this year is placed at 13,500,000 bushels over that of last year. The total increase of new wealth produced in the state over that of last year is nearly \$27,000,000. The bank deposits, which are an index to the prosperity of the state, are as follows:

Year	Value
July 1901	\$14,000,000
1902	30,000,000
1903	32,000,000

For two years past not a dollar of eastern capital has been required to move the large crops, showing that the state is entirely self supporting. The following table is presented by the pencil pushers as a conservative estimate of the wealth produced in 1903:

Product	Bushels	Value
Wheat	50,000,000	\$35,000,000
Corn	60,000,000	21,000,000
Oats	30,000,000	11,000,000
Barley	11,000,000	4,000,000
Flax	2,000,000	2,000,000
Rye	1,500,000	650,000
Live stock		32,000,000
Dairy and creamery		7,000,000
Eggs and poultry		5,000,000
Hay		12,000,000
Wool and hides		1,800,000
Garden products and fruit		4,000,000
Minerals, stone and cement		12,000,000
Total		\$146,450,000

He Learned a Great Truth.

It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" "John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by V. B. Diehl.

While opening a box, J. C. Mount, of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he says, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by V. B. Diehl.

For genuine subterfuge and evasion we yield the palm to Bro. Killion of the Lesterville Ledger. In reply to his charge three weeks ago that Lesterville grain dealers pay from four to five cents per bushel above those of Scotland we published the price list from his own paper, showing that on that week our dealers paid 1 cent per bushel for No. 3 wheat more than the Lesterville dealers. The following week he failed to correct his market report, although the Chicago markets showed a falling off of about five cents per bushel. Then last week he attempted to justify his statement by a comparison of his price list then a week old, and ours corrected up to date. Just to show that the Ledger's market reports are not to be relied upon we quote from actual purchases made on October 1st, the date of our price list which he quotes. While our dealers were paying 61 cents for No. 2 wheat, the records of J. H. Dickson, who runs a house in Lesterville as well as at this price, show that his house in Lesterville paid only 60 cents for that grade, or one cent below Scotland prices, while the Ledger was quoting 67 cents. The Ledger of the 9th shows that the Lesterville dealers and the Scotland dealers were paying identically the same price for No. 3 wheat and for corn. We quoted the Scotland market on hard coal at \$10 per ton. He replies by saying that Lesterville dealers sold coal for \$10 a ton last summer. A column and a half of space is devoted to just such subterfuge. In fact Bro. Killion reminds us of Mark Twain's mule—he is an "amoosin cuss."

It is coming to be expected that a real change in the climate has taken place since settlement, and more particularly during the past five years. The rainfall is not materially increased nor is the mean temperature different. These matters are things of long record and can be determined with exactness. The change appears to be in an absence of the high winds of former years and particularly of the hot summer winds, which in periods of drouth used to wither vegetation. The protracted drouth of June last was accompanied by cold weather which, alone, saved the crops from great damage. Throughout the whole period there was a degree of humidity in the air in marked contrast to the crackling dry weather of the old days. It is popularly believed that the changed condition is due to the vast quantities of water brought to the surface by the artesian wells, assisted, no doubt, by the amount of storm water retained in the plowed fields, which formerly ran away in the streams.—South Dakotan.

John Alexander Dowie, "Elijah II," started from his Zion near Chicago yesterday with nine train loads of his followers to make a crusade in New York City. One of the rules of the expedition is that none of his company shall make goo goo eyes while on the trip. Any one caught in this offense is to be sent back to Zion under guard. Whether there are enough of the faithful to supply the demand for such guards is yet to be determined.

1880
THE OLD RELIABLE.
1903

Every Department Is Full to Overflowing With Good Things Awaiting Your Choosing.

Men's and Boy's Suits, Overcoats, Ulsters, Top Coats, Shoes, Hats, Caps, and Furnishings.

DON'T BE FOOLED!

The market is being flooded with worthless imitations of **ROCKY MOUNTAIN TEA**...

To protect the public we call special attention to our trade mark, printed on every package. Demand the genuine. For Sale by all Druggists.

Broke Into His House:
S. LeQuinn of Cavendish, Vt., was robbed of his customary health by invasion of chronic constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure. 25c at V. B. Diehl's corner drug store.

On Saturday last Sheriff Mutschelknaus and J. A. Kleinsasser, town marshal of Freeman, arrived in town with three young men from that place, viz: Dick Painter, Jake Smith and J. J. Wollman, held to answer to the charge of burglary at the October term of court. They are now occupants of the county jail.—Olivet Leader.

John Parmenter sends the following amusing account of the attempted robbery at Olivet last week which he clipped from a daily paper published in Spokane, Wash.: "Three burglars blew up the safe in the county treasury at noon today and then fled. A posse was quickly organized and hot pursuit was given. One of the trio was killed and another was captured. Neither the dead bandit nor the captured one has as yet been identified. The third has not been taken. The crime of the three men was bold and desperate. At the noon hour, during a lull in business, they entered the office, covered the men therein with revolvers, and demanded the money in the safe. Being refused, they applied dynamite. A crowd was immediately attracted and then the flight and fight began."

There is one truth in the above article,—three men attempted to rob the treasurer's office at Olivet.

Saves Two From Death.
"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for coughs and colds. 50c and \$1.00 bottles guaranteed by V. B. Diehl. Trial bottles free.

Best Quality of

FRESH MEATS
