An auto coming from Menno last evening bringing four traveling men to Scotland to catch the night train, was ditched on a grade near the John Deutscher farm east of town. It appears they met another auto coming at a high rate of speed, and in attempting to get out of the way the driver got too close to the bank. The auto tipped over, spilling the occupants into the pond. None of them got hurt, but the merchants of Scotland did a rushing business selling dry clothing when they got to town.
