David Bardell and family started last Wednesday for an auto trip to Illinois to visit for a few weeks at Mr. Bardell's old home. MICHELIN

MICHELIN Red Inner Tubes

have a world-wide reputation for durability for the following reasons:

- 1st: Michelin Red-Rubber Tubes are compounded of certain quality-giving ingredients which prevent them from becoming brittle or porous and which preserve their velvety softness indefinitely.
- 2nd: Michelin Tubes are not simply pieces of straight tubing with their ends cemented, but are formed on a ring mandrel to exactly the circular shape of the inside of the casing itself and consequently fit perfectly.

W. A. Cobb Scotland, S. Dak.

Michelin Red Inner Tubes give the utmost economy and satisfaction.
