

MILL FORCE PAYMENT

Water Users' Association Attorney Sues For Annual Assessments

ACTION IS APPROVED AT BOARD MEETING

Three Suits Are Already Filed and Several Others Will Be Instituted Against Parties Who Refuse to Pay Delinquent Fees

J. S. Smith, attorney for the Klamath Water Users Association, filed three suits yesterday for the collection of assessments from members of the association. The suits were brought against M. Lipton, Mrs. Frances Lee and Ed. Pfannstiel.

This is the first attempt made through courts to force the payment of delinquent assessments, but it is stated that papers in several other suits are being prepared. This action is in accordance with the decision of the directors at their recent meeting, to enforce the collection of all assessments. Those who have showed a disposition to pay will be given a sufficient time to do so, but in cases where all notices of assessment have been entirely ignored or where parties for any reason have absolutely refused to make payment, suits will be brought at once.

It is understood that Mr. Ady will bring a suit to be brought against him in order to give him an opportunity to pay charges against some of the transactions of the Reclamation Service. This is the only way he can get the matter into court. He has paid the assessment on part of his holdings, but it is believed to be his intention to refuse to pay on the balance.

Communicated

Editor Herald: Do you know that since J. F. Heney dropped into town in 1904, I've been wondering, as Dutchman says, "what it is." Now now. Its Christian Science. That's what did it. Harry J. Porter has stepped over a higher stick than Conchy did, and Con was a champion, too. Jerry lays all the blame on Chistain Heney. Never trained, never missed a ball, never lost any sleep. If you are optical, try it. Francis J. fresh from Ph. D. C., stepped off the cars one day, in Oregon State, and proceeded to set up land frauders, as a harvester eats wheat. No training, no asking "if the chicken was Plymouth Rock or town Leghorn". No noise; just sent a few of them to McNeil Island, a few jail, John H. Mitchell to his grave, and showed all of them up in a real-

ly realistic light; that those he got, was little, only enhanced the greatness of the future promise of deliverance. Big man? Big act? No. Christian Science. Don't believe it? Try it.

Now comes THE ONLY SMITH member of the memorable holdup Legislature, at Salem, 1903, that Fulton, at the instance of, and with the money of John H. Mitchell offered him 3000 cash, to vote for said Mitchell; to wit, 1500 cash money, the receipt whereof is hereby acknowledged, balance upon delivery of note as aforesaid. All done before witnesses and legal. Yes, verily, a masterpiece like that should entitle Fulton, a Cabinet position, at least.

This sounds much like the story of that other member of that Memorable House, who was offered 12,000 at least, to come in and speak up. The unprotected male was in bed at the time (door probably locked). Being awakened from peaceful repose, after duty well done, a party stood at the bedside, and waving a roll of bills above said Peaceful Party's head, offered him all would be only come. In the attempt to discover the personage it was too dark in the room to identify him, but should judge there was at least 12000 in the waving bundle. Christian Science? Sure, Mike.

Yes, quandy is certainty, at last, and if the land frauds that don't seem to fraud, and the Frisco convictions that don't seem to convict, will only hold out, there will be rejoicings galore on or about the 4th of November, 1908. And, if not, lay the blame on Harriman. Of course he's used up a lifetime in finding out how, and we probably couldn't do it after he had told us. But that cuts no ice. He should have told, when asked, Or Cortelyou. He made a report to the U. S. Senate that anyone could understand, and thus established a very disagreeable precedent.

Democrats, all you need is patience. Republicans, all you need is time. The present state of affairs will do the rest, and a Cleveland will come to replace a Harrison.

Richard Kerns and T. H. Hunsaker are in the city from Dorris.

The Royal Neighbors will give a St. Valentine's dance at Houston's opera house on February 14th. The grand march will be led by the Foresters and M. W. A. and Royal Neighbors teams.

HE IS MAKING GOOD

Congressman Hawley Is Laying the Foundation For a Successful Career

Representative Hawley, of Oregon, is "making good." He has shown during his brief career in Congress that he is made of the right kind of stuff. If the people of his district have the good sense to return him term after term, they will find at the end of a few years that they have one of the strongest representatives from the entire West.

Though untrained in a legislative career, Mr. Hawley is rapidly learning the ropes in Washington, and is laying a sound foundation for a successful congressional career. He did not come to Washington with a reputation; he was not known as a humorist; he was not heralded as a "boy orator" or "boy wonder"; he was not advertised as a freak of any sort. He was just a plain, new Congressman, to be judged by his actual worth. He made no pretenses; he claimed no honor.

The men who are recognized leaders in Congress are continually looking for new material. They carefully scrutinize every new member; take his measure, and if he is worth while, they watch his development. There is always room for good men; there is always a demand for good men; there is always a demand for new leaders. But leaders are not developed in a session; they work up to high position by degrees. The eyes of the leaders have been on Mr. Hawley, and their first impression is very favorable.

With all his modesty, Representative Hawley has demonstrated a determination to get fair treatment at the hands of those with whom he deals. He is not so modest as to allow others to take an unfair advantage of him—not for a minute. He is ready to deal squarely with every man, and he demands that every man deal as fairly with him.

JUICE FOR CROOK

H. V. Gates Will Construct Immense Power Plant In Crook

H. V. Gates, of Hillsboro, president of the Klamath Falls Light & Water Company and several other lighting plants throughout the state, has given out that construction of an immense power plant at Lava Falls, on the Deschutes, six miles south of Bend, will begin in the early spring. The plant is to be completed within a year. It is to cost \$150,000 and will serve the towns of Bend, Laidlaw, Redmond and Prineville with a 24-hour current for lighting and other purposes. The company expects to secure 2000 horsepower at Lava Falls.

Negotiations between Mr. Gates and S. Stanley, of the Deschutes Irrigation & Power Company, which has filed on the water right there, are now under way. The company has agreed to transfer to Mr. Gates all the water necessary for the project, reserving an amount necessary for the reclamation of its segregation.

C. A. Jensen, who has been employed on Klamath Falls newspapers for several years, leaves for Lakeview in the morning. He has accepted a position as foreman on the Lake County Examiner, and being a good printer and also a good fellow he will fit into his new surroundings.

Mr. and Mrs. Jas. H. Hughes are in the city from Butte valley, where Mr. Hughes is now engaged in clearing a large tract of sagebrush land, preparatory to putting in a crop of grain. They will return to Dorris Monday.

Nick Williams and "Curly" Devoil, who have been ordered to leave Bonanza, are still there. Williams is not able to leave yet, and Devoil is staying to look after him.

SERIOUSLY INJURED

Harold Kilgore Is Victim of Accident in Wild Horse Round Up

HURT INTERNALLY AND BADLY LACERATED

Mishap Occurred Near the Grohs Ranch in Langell Valley and the Injured Man Was Taken to Bonanza for Medical Treatment

Special issue it will have contained therein the street numbers, the council in the meantime having made provision therefor.

The advertising patronage of the directory is quite extensive, and well it might be, for not only is it a good advertising medium but also is it a mirror of conditions here and strangers who see a copy of this publication must be impressed with the enterprise, number and character of the business establishments of the county.

Special arrangements are being made for the circulation of the directory in the principal towns between San Francisco and Portland, and that this feature will be productive of much good goes without saying.

The directory contains a complete folder map of Klamath Falls, the county seat.

FOR COUNTY ASSESSOR

I hereby declare myself a candidate for the nomination for County Assessor on the Democratic ticket, subject to the decision of the voters at the primary election.
J. P. LEE.

FOR SCHOOL SUPERINTENDENT

I hereby announce myself a candidate for the nomination for County School Superintendent, for the consideration of republican voters at the primary election.
J. G. SWAN.

It is understood that the Fire Department will ask for the receipts from the basket ball games. The Public Library officials also think they could use the money to good advantage.

Capt. Ivan D. Applegate arrived in the city last evening from his home in Oakland, Cal. Mr. Applegate will remain here a short time looking after his sheep interests.

A new basket ball has been purchased for use during the series of games for the Mong Cup. The ball will be given to the winner of the series.

Guy M. Ingram, head of the Forest Service at Lakeview, passed through the city last evening on his way to the railroad.

Look in Winters' window and see the smallest watch made in America.

(Herald Special Service)

BONANZA, Feb. 7. A very serious accident occurred to Harold Kilgore last evening. Mr. Kilgore with a number of other men were rounding up horses about 8 miles south of the Grohs ranch in Langell Valley, when they ran upon what is known as the "wild bunch" of horses. In the chase the horse which Kilgore was riding becoming exhausted fell and threw the rider on a pile of rocks, dislocating his wrist, badly lacerating his face and causing internal injuries. One of the largest cuts is an extensive gash over the right eye.

He was picked up unconscious, and Frank Grohs, securing a wagon from the ranch brought him to Bonanza, driving all night. Dr. Patterson dressed the wounds, but the extent of the internal injuries have not been ascertained as yet.

More Proof of Oil

Since the organization of the company here to prospect for oil, there has been several representatives from the outside sent here to make private investigation. One of these parties is in the county now from Bakersfield, Cal. In speaking with a business man of Bonanza, he fully agreed with the report and statements made by Mr. Sims. He said, however, that it would take a well-organized company with considerable capital in order to sink wells and build pipe lines.

Dog Poisoner Again

Evidence that the dog poisoner has begun work again this year has been reported. "Rip," the fine English pointer, belonging to L. A. Gregory, was taken sick this morning, with every indication of poison, and it was only after several hours of work that the life of the animal was saved. It will be remembered that last year there was a big loss of valuable dogs from some unknown person distributing poisoned meat.

WATER FOR IRRIGATION FOR THE CITY

A public meeting will be held in the Court House, Saturday evening, February 8th, at 7 o'clock, for the purpose of conferring with the Government officials in regard to a proposition for the furnishing by the Government of water for irrigation purposes within the city of Klamath Falls. This is a matter of vital importance to every property owner in the city, as one of the greatest needs is cheap and sufficient water for irrigation of gardens and lawns.

PLANT FRUIT TREES NEW DIRECTORY OUT

Dunkards Are Planning To Engage In the Fruit Business

According to J. B. Hulse, who recently returned from Dorris, the Dunkards are planning to set out a one hundred acre tract in apples this spring. It is believed that the vicinity near MacDoel is particularly adapted to the raising of fruit. Experiments already made fully justify those who hold this opinion and another year will see large tracts planted in fruit trees. The contract is also about to be let for the seeding of a tract of 700 acres in wheat. Every indication points to the rapid settlement and cultivation of all land along the line of the new railroad.

Ready For Business

L. Alva Lewis has already secured quarters for his repair department, which is in charge of Frank Upp. Space has been secured from the Chitwood Drug Co., and that department will be running as usual hereafter. Mr. Lewis has removed all damaged goods to his residence, and as yet has made no plans for the future except as stated above.

H. J. Winters and Dan Johnston left this morning for Poe Valley, where they will spend a few days hunting cougars.

Publication Indicates Growth and Prosperity of Klamath

The 1907-08 Reference and Business Directory for Klamath County was issued today. It is a long step in advance of the last issue and is a fair indication of the growth and prosperity that has been the portion of this county during the past two years.

The directory is the work of the Klamath Republican and is the largest book ever printed in this county, being seventy-four pages in size. The workmanship is a splendid testimonial to the mechanical perfection of the Republican job department and the ability of its manager, D. B. Kendall and will undoubtedly bring that office much business.

The first part of the directory is made up of a splendid write-up of the county and its resources, followed by a directory of the residents of the county. One noteworthy feature of the publication is the effort that has been made to give the street address of the residents of this city. Owing to the fact that the houses are not numbered this task was made the more difficult, and it is to be hoped that when the next directory is
