

## CAMPAIGN IS VERY QUIET

### City Nominees Depend on Friends

### CONTESTS ARE CLEAN

### Despite Nearness of Election There is No Perceptible Stir in Politics

It is only a few more days until the city election. Its approach is not heralded by any loud campaigning. The candidates are not working openly for election. Most of the voters feel that all the men nominated are well qualified to fill the positions to which they aspire and as a consequence are taking little interest. They feel that no matter which way the election goes it will be well for the city.

Neither of the candidates for Mayor are making a strong campaign and both, so far as it is known, have refrained from making any promises or pledges in the event of election. The campaign has been clean and up to this time all personalities have been avoided.

The election occurs on next Monday and the polls will open at nine o'clock a. m. and will close at four o'clock p. m. The First ward will vote in the Wilkins building near the bridge, the Second at the town hall, and the Third at Sander-son hall. According to the city charter all who are not registered cannot vote and it will be useless for anyone to attempt to sever in his vote.

## Sawing Lumber for Flume

The Long Lake Lumber Company which has the contract for sawing the lumber for the government flume, began the operation of the Odessa mill several days ago and has already delivered some of the lumber so that the flume contractors could begin construction work.

## Another Good Play

The Mong Company pleased a large audience last night with the presentation of the beautiful drama, "Until Death do us part." The play was one of the best ever presented in this city and the audience seemed well satisfied with the manner in which it was produced. Every member of the company knew his or her part exceptionally well, and as a consequence all of the characters were sustained in a manner that pleased the crowded house. Mr. Mong as Dr. Jacobs, was in his element and made a splendid appearance. The death scene was very realistic and the part throughout gave Mr. Mong a chance to show his superior talents as an actor. Everyone of the actors deserves special mention, for without exception, the play was thoroughly sustained in every part and character, and gave the impression that remain with those who witness a well produced drama.

Those who went early to see the actors apply the grease paints and put on the make up for the character they were to represent in the play witnessed an interesting performance. "Making up" is an art in itself, one the actor must thoroughly understand before he can appear at his best.

## Thanks to Firemen

The Long Lake Lumber Company desires to extend its thanks to the Klamath Falls Volunteer Fire Department for the service rendered at the recent fire. The promptness of the department and the earnestness of the men did much towards saving the building. The work of the fire boys is deserving of the highest commendation and praise.

W. O. HUSON,  
Manager Long Lake Lumber Co.

## Auction Sale

A. Arnold will sell at public auction on Saturday, May 9th, at 1 p. m., at the Bird Landing place, near the tunnel, the following items:

Two wagons, harness, one plow, two harrows, all kinds of household goods and other articles. Terms cash.

## REPUBLICAN PRESIDENTIAL CANDIDATES

WILLIAM H. TAFT OF OHIO.

## Will Make Brick Soon

Goeller & Wattenburg will receive the machinery for their brick manufactory within a few days and will begin operating the plant as soon as they can get it established. It will be located on the Buena Vista addition near the Upper Lake.

## Not Ready for Business

The steamer Winema will not be ready to go on the regular run on the Upper lake for several weeks. All of the traffic on the lake is now carried on by the steamer Hornet and the numerous launches.

## County Court Business

County Court will convene in regular session next Monday. The most important matters that will likely come up will be a decision on the bridge across Lost river at the upper gap, and the appointment of a health officer to fill the vacancy created by the death of Dr. G. W. Maason. Dr. White has been mentioned in connection with the appointment and it is very probable that he will be appointed by the Court. The bridge in question is a nut which the Court has been trying to crack for sometime, but has not determined upon a means of going about it. The bridge as first proposed is too expensive to warrant its construction at this time and the Court is in a quandry as to what action to take. The judge and the commissioners will likely visit the bridge site before taking any definite action on the matter.

## Police Court Revenue

The Police Court has contributed in round numbers about \$1200 to the city exchequer in the past two years, or since A. J. Leavitt went into office. The police Judge draws a salary of \$400 per annum, and it will be noticed that in the two years the fines collected aggregated approximately \$400 in excess of the salary paid. Judge Leavitt states that there has been practically no business in his court for the past two months.

## Will Export Boxes

Several large shipments of boxes will be exported this year by the Long Lake Lumber Co. The first shipment will be started about May 15th, and others will follow at regular intervals. The company has contracts enough at San Francisco, San Jose and Los Angeles to utilize 2,000,000 feet of lumber. The shipments will be made over the California Northeastern, and the Southern Pacific has granted a commodity rate to the manufacturing concern.

## Working on Power Plant

Moore Bros. started a crew of men to work on their power plant this morning. The heavy machinery which arrived a few days since will be installed before the building is erected. This is done because of the size of the large pieces. As soon as the machinery is put in place work on the building will be resumed. The line to Bonanza will be completed in about six weeks, and just as soon as it is finished the crew will begin building to Merrill. The plant will be ready to furnish power before the first of July.

## "Hello Girls" Resign

The Misses Etta Smart and Edna Houston, who have been employed as "Hello girls" in the office of the Midway Tel. & Tel. Co., have resigned their positions, and Miss Houston accompanied the show troupe to Lakeview where she will visit with friends for a few weeks. Miss Smart will go to Merrill tomorrow to visit with her friend, Miss Hazel Burris. While there she will accompany a party on a camping trip to the Lava Beds. The familiar and cheerful "hello" of the girls is missed by the patrons of the telephone system.

## Off for Frisco

Mr. and Mrs. E. B. Hall will leave for San Francisco to witness the incoming of the fleet. Mr. Hall will return home from there but Mrs. Hall will go to Los Angeles for a brief visit. From there she will go to Colorado, returning home by way of Portland in time to take in the Rose Festival. She will be met by Mr. Hall at Portland.

## TRAIN PULLS OUT ON TIME

### Many Passengers On First Cars

## BIG CROWD PRESENT

### Klamath Falls is Represented By a Small Delegation Of Travelers

Dorris, Cal., May 1.—The first regular train over the new railroad left this town at eight o'clock this morning. There were a number of passengers from Klamath Falls and several from this town and vicinity. Every resident of Dorris was out to see the cars move away from the depot site across the level sagebrush plain. The cars moved away slowly as the track is not yet ballasted, and it would be unsafe to run at a high rate of speed. The track is absolutely straight for about 15 miles, and the train could be seen several miles out of town.

The history of railroading into this town begins with today, for heretofore only construction trains have pulled in and out at irregular intervals. The entire population of this town will turn out to witness the arrival of the first train at 4 o'clock this afternoon.

## Homesteaders at Home

Parties coming in from the woods North of Bly state that most of the cabins that were built last Fall during the big rush are now occupied, and in a number of instances several parties are residing on the same quarter section. A number of the claims that had three and four settlers on them last Fall show no signs of life now, and the claims have long since been proved upon under the timber and stone act. Many of the homesteaders realize that it is an extremely difficult matter to hold a claim in the timber belt as a homestead and comply with the laws in every sense of the word. To avoid any chance of losing the claims through a contest they have relinquished to the Government and placed timber and stone filings themselves or else they have allowed some other party to place the filing.

## Arrived From Wyoming

Mr. and Mrs. E. W. Huson, father and mother of W. O. Huson, of the Long Lake Lumber Company, and T. A. Arant, brother-in-law of W. O., arrived here last night to make their home. The former came from Clearmont, Wyo., and the latter from Basin City, Wyo.

## About Your Summer Suit

## Improving Pelican Bay

J. S. Holabird, brother of W. H. Holabird was in town this week from Pelican Bay getting supplies and labor to carry on the work of installing a pumping plant, complete hot and cold water system, and cold storage plant, at the Harriman resort.

## Looking for Land

Several parties are in the Wood river valley looking over the country with a view to buying stock land. The parties are from Carson City, Iowa, and are looking for a large area so that they can engage in the stock business on an extensive scale.

The Weed Lumber Company has shipped a carload of lumber to Dorris for the large warehouse for the McIntire Transportation Company. Most of the lumber to be used in Dorris hereafter will be supplied by the Weed Company as Klamath Falls mills cannot compete as long as they have no railroad transportation.

The Klamath country needs no reformation. The city and county jail have been vacant for several weeks, save for an occasional drunk who is locked up long enough to become able to navigate. The cells of the county jail have been unoccupied since the last session of the Circuit Court when the criminal cases were disposed of.

Use the "BRISTOL" for Trout.

## Fishing Tackel

Hooks, Flies, Trolls, Spinners, Reels, Silk and Linen Lines.

BASKETS, NETS BAMBOO RODS & CANE POLES.
