AN ERA OF BETTER BUSINESS

THE legislature has adjourned without enacting any reactionary legislation attacking business or industries—it went the other way, and gave more attention to constructive policies.
The effort of the legislature as a whole was directed to making it easier for industries, placing fewer burdensome regulations on corporations and capital helping development.

The feeling is growing among the people that big business as well as small business is entitled to profits, and that industries and payrolls are more desirable than agitation and regulation.

If railroads and public utility corporations cannot make money, cannot pay interest on bonds, cannot earn dividends for stockholders, there is no future for this large field of investments.

As the community curbs the initiative of private enterprise, it drives out capital and forces public ownership with increased taxation in nine cases out of ten as the only alternative.

Then why should not legislatures, city and county governments, courts and commissions become constructive and helpful instead of attacking undertakings of private capital?

States, county and city have the right to collective enterprises, but they have no right to drive out or destroy the opportunities for private capital in any legitimate field.

The right of reasonable regulation is conceded, but there is an obligation that this regulation shall be helpful and shall conserve the fountains of prosperity.

Scattered Shots

AMONG THE most persistent "comebacks" please include: sunny weather in Klamath county.

THERE ARE MANY of the thrills of the city that we miss here—dodging jitney buses for one.

THIS IS THE time of the year the progressive farmer is plowing and the progressive city is cleaning up.

THE ONLY man we have heard cuss the announcement that coal prospects have been found is the fellow who purchased a wood burner late in January.

NOW THAT spring "have sprung," we can look for bigger operations—and death lists—from the European fronts.

WE ALL WANT to see the Ankeny canal put out of business. You can't help unless you register at the city hall.

HAVE YOU HORSES TO SELL?

We want from 100 to 500 head of horses for French artillery service. We want horses of the blocky type, like a half breed Percheron or shire, weighing 1200 to 1300 pounds, from 5 to 9 years old, any color but light gray or white, from 15-1 to 16 hands high. Anyone having this kind of horses notify us at the Adams ranch, Merrill; or Hotel Hall, Klamath Falls, and we will be glad to look at them. French Inspection, March 23d at Adams ranch. We pay for the horses when we accept them, regardless of action of the French government.
5-11 J. FRANK ADAMS & SON.

If you are looking for a good farm or stock ranch, it will pay you to see Chilcoot. Lots include some of the most desirable properties in the Klamath Basin. Never too busy to answer questions. 625 Main St., Phone 65.

Uncle Sam Isn't Telling World How Boys Hit Mark

(Continued from Page 1)

the Cornado Islands, with an eight-inch gun, firing at a rate of three and a half shots a minute, that was not all, either.

On the other hand, the real dry-in-the-wool gunner, for the past year, when it comes to hitting the bulls-eye with a fourteen-inch cannon, is L. V. Lindsey of the Texas, an ordinary seaman. Manipulating one of these fourteen-inch guns and ringing the bell frequently is a real feat, so Lindsey gets special recognition for his work.

The leading twelve-inch gunners were W. F. Meyers, seaman on the Arkansas, and E. L. Talley, coxswain of the Georgia.

Back in the days when Uncle Sammy used to do a bit of advertising about his gunner's ability—say about 1896—a shot every three minutes from the turret guns—eleven, twelve and fourteen inch—was considered satisfactory, while one a minute from a six inch gun was looked upon as a paper figure. And if the hits averaged three and a half per cent, as in the battle of Santiago, the navy felt well content. The hitting in that bat-

tle, however, was chiefly with small guns at a range less than two miles. But in these days of "Big Berthas" and the like, shooting and hitting in the United States navy is far higher than it used to be. Now two shots, a minute from the big turret guns and about eight from the smaller guns is considered a fair record. The hits, however, run much higher. The big fourteen-inch guns, which can create a whole lot of wreckage up to fourteen miles, score about 25 per cent on hits—at least that was the record when last figures were made public in 1911 in connection with firing at the old San Marcos target in Chesapeake Bay.

Incidentally, Secretary of Navy Daniels had this to say on the general subject of target practice a few days since:

"Some people complain that our navy hasn't had enough target practice recently. But I want to say that the practice we had in going to Vera Cruz was more valuable than the target training could be. We picked up and got down there in double-quick time—and everything ran like clock-work. The training was invaluable."

Late Market Quotations

LOCAL PRICES FOR PRODUCE, POULTRY, MEATS AND LIVESTOCK—PORTLAND AND SAN FRANCISCO LIVESTOCK QUOTATIONS

(The following figures are those paid for the commodities enumerated, by local merchants and markets.)

Table with columns for Vegetables, Grains, Etc., Butter and Eggs, Poultry, and Cured Meats. Includes items like Potatoes, Onions, Wheat, and various meats.

REPORT OF THE CONDITION OF THE Bank of Bonanza

Table showing financial condition of Bank of Bonanza, including assets like Loans and discounts, and liabilities like Capital stock and Surplus fund.

PORTLAND LIVESTOCK MARKET

Table listing livestock market prices for Cattle, Hogs, Sheep, and other animals, including Prime light, Choice, and various grades.

PORTLAND LETTER (Herald Special Service)
PORTLAND, March 13.—The market on cattle opened briskly on quality offerings at about steady prices. Top steers remained steady all week at \$7.75. Monday's run of cattle was the heaviest in these yards for some time. Good cows are quoted at \$6.50 and other lines in proportion.
Notwithstanding the fact that the Portland prices have been the highest in the United States for some time past, marketing has not been as lib-

eral in the hog house as expected. Top hogs opened Monday at \$7.25 and were selling at the same price at close of the week.
Sheep are again being snapped up promptly for any and all offerings. Packers are extremely short of supplies, and are willing takers of all offerings at good prices. Lambs still sell at \$8.50.

Advertised List

The following unclaimed mail matter advertised on the 13th day of March, 1916, will be sent to the dead letter office at Washington, D. C., on the 27th day of March, 1916:
Brewer, R. C.
Churchill, Frank (2)
Drew, Kate
Kieeman, Louis
Mathews, Harry F.
Morgan, Mrs. Hazel
Payne, Pearl Adams
Weatherman, N. D.
Wells, Vernon
A charge of one cent will be made on all letters delivered from this list. In calling for letters please say "advertised." W. A. DELZELL, P.M.

Investment With Protection

Mr. James Coats insured for \$20,000, and paid in premiums \$9,696. The Mutual Life paid \$36,826 including dividends, or \$3.80 for each \$1 received.
13-2* F. M. PRIEST, Agent.

The wonderful record made by Diamond Tires last year proves that they are right structurally.

It proves that the materials we put into Diamond Tires have the weight, strength and wearing qualities that combine to give the most economical mileage in actual service.

Recently we conducted a test by mail to find out what jobbers and tire dealers had to say about 1914 Diamond Tire records. The hundreds of letters received from them show that Diamond Tires have more than made good.

These letters from dealers in all parts of the country, show that Diamond Tires in 1914 established a service record which stands supreme. We have put these letters into a book. They furnish concrete evidence of the big mileage Diamond users get and the freedom from tire troubles they enjoy.

Write to Akron, Ohio, for this remarkable book of letters. It's a wallop—and we want you to have a copy.

In addition to the extraordinary mileage and freedom from trouble that you get in Diamond Squeego Tread Tires, you can buy them at the following

Table titled 'FAIR-LIST' PRICES showing Diamond Squeego tire prices for various sizes like 30x3, 30x3 1/2, 32x3 1/2, 33x4.

Industrial Commission Looks Into Matter of Import

(Continued from page 1)

concentration of ownership of lands into the hands of a limited number, and that absentee landlordism is growing apace. It will develop with startling vividness the fact that it is not so much how to "get back to the land" that will trouble the people as how to "get back the land."

The hearings have been set for the Southwest, because in this section the land problem has reached its most acute stage in America, and a reaction against landlordism has already begun. In the Southwest also the tenant farmers have been increasing twice as fast as the home-owning farmers, and there are a number of counties of almost entirely white population where the percentage of tenant farmers to the whole will run higher than 68.

For several years Texas and Oklahoma have been the scene of a silent, but bitter struggle between landlord and tenant classes, and a decided movement has come about to raise the rents. The tenants have resisted and formed class conscious unions to resist what they have come to regard as landlord encroachments. In Texas alone, there are about 236,000 tenant

WOOD-LARK TRADE MARK SQUIRREL AND GOPHER POISON QUICK, CERTAIN & DEADLY. READY FOR INSTANT USE NEVER FAILS. Destroys squirrels, gophers, prairie dogs and rats. Apply early in spring when the pests awake from winter's sleep. Money back if it ever fails. "Wood-Lark" for 25 years has stood every test. It's crop insurance against rodent pests.
