

SEWARD TO BE TERMINUS FOR ALASKAN ROAD

BELIEVED ALASKA NORTHERN TO BE BOUGHT

While Announcement Is Not Made as Yet, It Is Understood That the Government Intends to Build Line Under a Commission Headed by an Army Officer, as Was the Case in Panama Canal Construction.

United Press Service
WASHINGTON, D. C., March 25.—It became known today that the tide-water terminal of the government's Alaskan railroad will be at Seward.

Seward is the present terminal of the Alaska Northern railway. The purchase of this terminal will probably be one of the first steps by the government.

Formal announcement of the plans will not be made until President Wilson is ready.

The selection of Seward and the possibility of the purchase of the Alaska Northern terminals, etc., means the elimination of the Copper River railroad as a possibility, despite the efforts of the Morgan and Guggenheim interests to sell this line to the government.

It is believed that the government will itself build the railroad, as it did the Panama canal. It is understood that the work will be in charge of a commission headed by Colonel Edes of the corps of engineers.

A German Barber in the Trenches

There is use in the German army for every kind of artisan, and this photograph shows a barber plying his trade in the trenches just outside the dugout where the soldiers hide and sleep, out of danger of the shells of the enemy. Many of these men in the trenches have been in them all winter, living in underground cellars, dark and gloomy. The shoemakers, tailors and barbers among them have been glad to work at their trades to relieve the monotony, and in nearly every German company there are sufficient of these to take care of the simple wants of the soldiers. Just at the left of the barber are seen two soldiers sticking their heads out of the dugout in order to get into the photograph.

RUSSIAN HORDES ADVANCING EAST UPON BUDAPEST

BOTH PETROGRAD AND VIENNA CONFIRM THIS

Muscovites Have Passed Successfully Through Dukla Pass, and Are Now Within Fifteen Miles of Barfa. Rumanians Have Ransomed Przemysl, and Fighting Heavy Along Fifty Mile Front in East.

United Press Service
LONDON, March 25.—According to advices from Petrograd and Vienna, the Russian troops have successfully traversed Dukla Pass through the Carpathians, and are now entrenched on Hungarian territory, fifteen miles from Barfa.

This is the first stage of a great battle, preceding the Russian attempt to take Budapest.

Near Barfa and also in the territory between the Lupkav and Usok passes, the Russians are mightily smashing the rear guards that seek to impede the progress of the invaders.

Since the fall of Przemysl (the Russian spelling of Przemysl) the fighting along the fifty mile front has assumed tremendous importance. Upon the outcome depends largely the outcome of the spring and summer campaign.

It is reported that Czar Nicholas and Grand Duke Nicholas are going to the scene of the Carpathian fighting as soon as communication is restored south of Permisl.

Fleet Enters Dardanelles.
United Press Service
LONDON, March 25.—A dispatch from Tenedos Island says the allied fleet has entered the Dardanelles, and opened a violent bombardment on the forts near the narrows.

Fleet Commander Reported Killed

is Admiral S. H. Carden, commander of the allied fleet at the Dardanelles, killed or wounded, or is he ill, as reported by the British admiralty?

This is a question that has been unsettled since the conflicting reports were sent out Saturday, following the sinking of three allied ships by the Turkish land batteries a week ago.

Admiral Carden was the ranking officer of the fleet sent to the Dardanelles, so he was given command over the French as well as the British warships.

CHINESE PUZZLE STILL UNSOLVED

ANSWERS TO NOTES SENT JAPAN ARE SAID TO BE UNSATISFACTORY, ALTHOUGH OFFICIALS ARE SILENT

United Press Service
WASHINGTON, D. C., March 25.—It is understood that Viscount Chinda, the Japanese ambassador, has assured the United States that Japan's position in the present Oriental misunderstanding in no way violates China's "open door" policy.

It is also understood that the explanations of Japan are not such as to fully satisfy the apprehensions of America. But regarding these matters, President Wilson has ordered all officials to be silent.

There is a possibility of the re-agitation of the California anti-alien land bill matter. It is understood that if the Okuma ministry was strongly sustained at yesterday's election, it is Japan's intention to re-open the matter.

President Wilson is receiving copies of all Peking and Tokio messages immediately upon their receipt.

YAQUI INDIANS TAKING CITIES IN HERMOSILLO

REIGN OF TERROR IN THE NORTH TODAY

Fighting, Rioting and Wholesale Executions Follow Successful Campaign by Indians—Rumors Sent Out to Arouse Other Tribesmen—Governor Is Still in Prison—General Angeles a Possible Compromise Candidate.

United Press Service
HERMOSILLO, March 25.—Fighting, rioting and executions of many white people mark the control of the state by the native Yaqui Indians, who in great force captured the principal cities.

General Maytorena, the governor, is still locked in the palace, where he was imprisoned by the rebellious Indians.

Indian runners are now visiting all the Indian settlements to arouse the other Indians. The news that they have already conquered Hermosillo will undoubtedly start thousands of other reds on the warpath against the whites.

WASHINGTON, D. C., March 25.—General Felipe Angeles is looking up as a possible compromise candidate for Mexico. General Angeles was chosen as provisional president at the peace convention last fall which split Villa and Carranza, and it is understood that if a Villa-Carranza campaign is successful, he will be their candidate for the office.

The war department today stated that an army transport will take foreign refugees from Tampico if it is found necessary.

Fighting is reported near there, the Villistas, under the command of Villa in person, attacking Matamoros.

WIFE OF RULER TO VISIT HERE

WIFE AND CHILDREN OF THE PRESIDENT OF GUATEMALA WILL SPEND SUMMER MONTHS ON UPPER KLAMATH LAKE

Mr. and Mrs. D. P. Doak and daughter are expected about the first of the month from San Francisco to spend two or three months at the Doak ranch on Upper Klamath Lake. They will be accompanied by Senora Manuel Estrada Cabrera, wife of the president of Guatemala, and her two daughters, who will also spend the summer in the Klamath country as guests of the Doaks.

During the last year Mr. Doak's health has suffered under the strain of business. He was advised to spend as much time in the open as possible this summer.

Turkey's navy contains only four dreadnaughts.

Athletes to Try for Expo Meet

United Press Service
CHICAGO, March 25.—The Western try-outs for the Panama-Pacific exposition wrestling championships, to be held under the auspices of the Amateur Athletic Union, will be held here beginning tonight. Mat artists from all over the Middle West are entering. The Eastern wrestlers had their workouts in New York two weeks ago. The cream of the wrestlers chosen will have their expenses paid to San Francisco to be pitted against the elite of the padded ring from all sections of the country. The final elimination contests will be held here Saturday night for the Western athletes.

The last report issued by the government, upon the vacant public lands of the United States, shows that the area unappropriated and unreserved covers a total of 665,891,029 acres, of which 486,686,632 acres is unurveyed. Of this latter figure, 367,963,823 acres represents vacant lands in Alaska.

Only 35 per cent of the population of South America are women.

TO BRING NEW FORAGE PLANTS

OKLAHOMA FARMER, CONFIDENT THAT SORGHUMS WILL FLOURISH HERE, SENDS HOME FOR QUANTITY OF SEED

A new crop to be tried out here this summer will be the sorghum varieties, milo maize, fetterita, shallou and kafir corn. G. W. Hartman of Okla., Okla., who is here visiting his daughter, Mrs. S. O. Dearing, believes that these crops will thrive as well at this elevation as in his part of Oklahoma, where the elevation is 3,300 feet, and he has sent home for seed from his own ranch.

He intends to plant these on small tracts, and if they prove as successful as he expects, he will sell out back East and move to Klamath. Twenty pounds of each variety of seed has been ordered sent here by Mr. Hartman, and farmers wishing to plant some small tracts to these crops are asked to communicate with Hartman through the Chamber of Commerce.

"I believe that these are the ideal forage crops for Klamath county," says Hartman. "They cannot be excelled on dry lands for profit, and I am anxious to test them out."

"These sorghums are seventy-five day crops. The yield per acre runs from thirty-five to sixty bushels of seed an acre, according to the amount of cultivating. A bushel of seed weighs 54 pounds, and when I left home the seed was selling at \$1.35 per hundred pounds. It is used as chicken feed and for stock fattening, etc., and is as good or better than any other grain for this purpose.

"Besides the grain from the varieties, the remainder of the plant is good for stock feeding. It can be fed with the grain, thus giving both roughage and fattener at the same time, or can be fed as silage."

Despite an increase in the use of electricity, twenty-five factories in the United States are kept busy making incandescent gas mantles.

OLD MAIDS MAKE AUDIENCE MERRY

MEMBERS OF REBEKAH DEGREE SHINE AS HISTORIC STARS IN PRESENTATION OF COMEDY SKETCH AT I. O. O. F. HALL

For about an hour and a half last night an audience of 300 or more, composed of Odd Fellows and their families, roared with laughter at the antics of fifteen or twenty members of the Rebekah degree, who, under the title of "The Young Ladies' Club of Single Blessedness" held a convention, calculated to forward their efforts to obtain partners for life's journey.

Deep in their plans and schemes, they halted with joy the coming of Professor Makeover and his assistant, with his wonderful machines, which would take an old maid and grind her up and turn her out in whatever form she wished, and the fairies, brides, musicians, etc., the Professor turned out were a pleasure to behold. One requirement necessary to a successful operation was that the old maids tell the professor their exact age, and all went well until one of them, Matilda Mablett Straightface Joyful, insisted she was but 31, and thereby wrecked the machine.

The solo, duets and instrumental music rendered by the "made-overs" was one of the features of the entertainment, while the old maid who wanted to become a "nice little housewife, so she could catch a man" swept and dusted in a truly artistic manner. Taken all together, the evening was a thoroughly enjoyable one, and the Odd Fellows extend their hearty thanks to the Sisters for a most pleasant evening, and assure them a cordial welcome when they come again.

REGALS DROP A COUPLE TO PALMS

JOE KENT'S ROLLERS TAKE THE BEST OF THE SERIES FROM SHOE STORE TEAM ON ALLEYS LAST NIGHT

The Palms took two out of three from the Regal team last night, winning the first and third games. Don Dale of the Palms rolled 210 in the last ten frames.

On Way Home.
Mr. and Mrs. John W. Wells are in the city on their way home to Bly, after spending the winter in Ashland.

British women are now forming Tipperary clubs, which will bring together not only the wives, mothers and daughters of the fighting soldiers and sailors, but also the cousins, sisters, aunts and every woman who wants to do something for the recruits and the absent soldiers.

Expense of Feeding the Starving Belgians

LIVERPOOL, March 18.—(By mail to New York)—"It will cost the United States \$180,000,000 annually to feed the Belgians, if this is to be a war of years," declared the members of the United States Central Belgian Relief Commission here today, en route to inspect conditions in King Albert's country.

"Our committee is spending \$3,000,000 a month now to feed 1,500,000 Belgians," said W. G. Lawrence of New York city today. "Sixty vessels are chartered to carry food. Forty-five are now plying between the

United States and Rotterdam, but the number of dependent Belgians is increasing every day, and those we are feeding are reported to be on half rations."

Lawrence, together with Miss Josephine Roche, a suffragist of Denver, will visit all industrial and agricultural centers of Belgium to report to the Belgian relief committees in the United States. Lawrence declared today the trip will furnish information for replies to charges in the United States that there is greater need for food and clothing among the unemployed and poor in America.

SPECIAL MASS EASTER MORN

THE CHOIR OF SACRED HEART CHURCH PRACTICING ONE OF MILLARD'S ARRANGEMENTS FOR HIGH MASS RENDITION

The choir of Sacred Heart church is rehearsing one of the celebrated Millard masses for high mass Easter Sunday, which will begin at 10:30. In addition a special Easter sermon will be delivered by the pastor, Rev. Wm. McMillan, S. J.

Mrs. A. Y. Tindall, organist, is directing the choir. Mrs. Jule Barlow is violinist. The vocalists are: Soprano—Mrs. Matthew Smith, Miss Claudia O'Laughlin, Miss Alice McCourt.

Alto—Miss Marjorie Weeks, Miss Edna Soule.

Tenor—Lawrence Mehaney, Miss Dorothy Weeks.

Bass—Carl Schubert, Rhinehart Moteschbacher, Joseph B. McAllister.

Texas Demands Fire Escapes

AUSTIN, Tex., March 25.—Fire escapes are being added to buildings everywhere in Texas today as the result of the passage of a law at the recent legislature. All structures of more than two stories in height must be equipped with adequate fire escape facilities. Fire chiefs, fire marshals, city officials and the state commissioner of labor are charged with the enforcement of the law.

School buildings, lodging houses, theaters, public halls, manufacturing and mercantile establishments are affected.

Wright Makes Aerial Craft for War Uses

DAYTON, Ohio, March 25.—In an interview with the United Press today, Orville Wright, who with his brother was the pioneer in heavier-than-air craft invention, admitted that his factory is turning out scores of military airplanes for use on the European battlefields.

ANOTHER FLEET MAY SAIL LAKE

PASSENGER AND FREIGHT LINES BEING TALKED OF FOR LAKE IN ADDITION TO CALKINS & HAMILTON DAILY SERVICE

With prospects for increased business at all points on Upper Klamath Lake, there is talk of another line of freight and passenger boats plying daily to all ports of call this summer. Regarding this, nothing definite has been arranged as yet, though several of the shippers have been interviewed. The proposed line's service, it is understood, would make trips at different hours than the Curlew and Spray, the mail boats. These boats leave Shippington each morning, returning in the afternoon, while the proposed line, it is understood, will leave Rocky Point in the morning, returning there in the afternoon.

"Foreign military experts are greatly elated over the success of this invention. They predict that it will entirely revolutionize warfare." "I cannot say what amounting the machine we are building. All our men are made in America, and we have no doubt of the success of the machine." "We are not building a new machine, but we are building a new type of machine, one that is safe as a rocking chair."
