

# MEN ARE TAUGHT ART OF COOKING

### BACHELORS AT OREGON AGRICULTURAL COLLEGE GET LESSONS LIVING BY THEIR OWN HANDS WHILE AT SCHOOL.

(Herald Special Service)  
 CORVALLIS, Oct. 2.—A men's cooking class for students that batch has been organized at the Oregon Agricultural College. In this class the men will be taught how to select, buy, plan, prepare, cook and serve food for their bachelor families for each meal of every day of the week.

The first course of the kind ever conducted at the college was instituted last year in response to many requests for advice in planning and cooking bachelor menus. A large number of men at the college are making their own way through school and while they find it suits the purse to batch in small groups, the service is not always satisfactory.

In fact, it is sometimes a causal bell.

So they have sought help from the domestic science department, and will take a three-hour lesson a week for twelve lessons. All meals will be planned to supply food requirements of the individuals, comprising each group, in the most economical and palatable forms.

Under direction of their instructor the men will prepare, cook and serve a scientific meal, and then eat it. They will then prepare similar meals in their bachelor quarters for the family group. By this method last year a group of men kept their living expenses including board, room, heat, light and water, under \$90 a year. Fred C. Powers, Oakland, Ore., their manager, says that the living was good and satisfactory.

# Drilling on the Border is Not a Vacation

By WEBB MILLER  
 (United Press Staff Correspondent)  
 EL PASO, Tex., Oct. 2.—It is not a vacation—this job of being a national guardman down on the border. No matter what their occupation in civil life, the civilian soldiers are now working harder than they ever worked before. And they are doing it cheerfully.

Here is a guardman's day, if he belongs to the cavalry or artillery. The infantry varies little, except there is no horse to care for. At 5:30 the "guardie" rolls out of his cot—if he has one—to the shrilling of the bugle. After dressing and washing, he has thirty minutes to feed, water and curry his horse and "police" the company streets. Policing is only a sweeter name for the work done at home by the "whitewings."

At 6 o'clock the bugle blows the most popular noise on the border—the mess call for breakfast. Then more policing and tidying up of tents. About 7 o'clock attention is turned to the stables and further policing ensues for an hour. By this time the sun is blazing and the temperature is climbing. The real work of the day begins.

From 8 until noon the practical work of making citizens into soldiers

# ANOTHER IS MAN WITH SUITCASE

### DEFENSE IN BILLINGS BOMB CASE PRODUCES MAN WHO SWEARS HE WAS ONE WITH SUITCASE AT DENTIST OFFICE

(United Press Service)  
 SAN FRANCISCO, Oct. 2.—After the defense had introduced affidavits of several witnesses who claimed they saw a dark man plant the bomb suitcase during the preparedness parade, Judge Dunne today continued until Tuesday his decision on the motion for a new trial.

Dan McDonaldson swore in an affidavit that he was the man with the suitcase at the dentist's office before the explosion.

Judge Dunne remarked that the affidavits were merely contradictory, and could hardly be considered as new evidence.

## PAIN GONE! RUB SORE, RHEUMATIC ACHING JOINTS

RUB PAIN AWAY WITH A SMALL TRIAL BOTTLE OF OLD, PENETRATING "ST. JACOB'S OIL."

Stop "desing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacob's Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain and distress. "St. Jacob's Oil" is a harmless rheumatism liniment which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache and neuralgia.

Lumber up! Get a small trial bottle of old-time, honest "St. Jacob Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.—Adv.

# VETERAN OF 94 MARRIES AGAIN

### GRIZZLED OLD WARRIOR WHO WAS IMMORTALIZED IN TENNYSON'S POEM, TAKES SIXTH WIFE TODAY

(United Press Service)  
 COLORADO SPRINGS, Oct. 2.—Charles A. Gordon, 94 years old, one of the heroes of the Crimea, immortalized in Tennyson's poem, still is the dashing soldier of the days when he rode in the ranks of the famous "Light Brigade." At a time of life when other veterans would be awaiting the bugle call for a literal "charge into the valley of death," Veteran Gordon is starting on his sixth honeymoon.

Mr. Gordon, veteran of the Crimean, American Civil War, the Boer War and Kitchener's campaign in India, surviving husband of five wives, today was married to Mrs. Mary E. Dixon, 78 years old, the relict of four husbands.

The bridegroom has medals and documents to show that he was one of the gallant six hundred who won deathless glory by their reckless charge into the jaws of certain death.

Between wars he was married often, his first matrimonial engagement beginning in London in 1837, on the day Victoria ascended the throne.

Mr. Gordon says he has been lone some for many years, with no one to look after his boy in their motherless home. His boy is James E. Gordon, a youngster of 78 years, the same age as his step-mother.

# IF BACK HURTS BEGIN ON SALTS

### FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a

**Van Riper Bros.**  
 There's a Strong Attraction

well known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a table spoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders. Jad Salts is inexpensive, and cannot

injure; makes a delightful effervescent lithia water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

# 308 X YES IS A VOTE FOR YOUR CHILDREN

### ONE NORMAL NOT ENOUGH

Oregon has but one Normal School. This school is located at Monmouth. Excellent as is the work of this school it is utterly unable to supply but a small part of the need for trained teachers for the State.

Of more than 6,000 school teachers in the public schools of Oregon, but 13 per cent have been trained for their profession of teaching in Normal Schools.

It is a well established fact that our one Normal School cannot supply the needs of the entire state. That is why we ask for your work and vote for the proposed Eastern Oregon State Normal School at Pendleton, Oregon.

### GIVE EASTERN OREGON SQUAKE DEAL

Eight counties in the Willamette Valley have employed during the past five years, 203 teachers who have graduated from the Monmouth Normal as against 39 Monmouth Normal School graduates for the eight leading counties of Eastern Oregon.

During the past five years the attendance of students from nine Willamette Valley counties was 877 students as against 81 students from nine of the leading counties of Eastern Oregon.

Owing to the crowded condition of our one Normal at Monmouth and also the distance and expense of attending, students from Eastern Oregon are compelled to go to neighboring states to secure their training as teachers.

### ONLY COSTS 4 CENTS PER \$1.00

The annual maintenance cost of the proposed State Normal School in Eastern Oregon amounts to but one 25th of a mill or 4 cents on a thousand dollars of taxable property. Isn't it worth this to have your children trained to become useful and productive citizens?

### STRONG ENDORSEMENTS

Among those who strongly endorse the establishment of the proposed Eastern Oregon Normal School are Governor Withycombe, J. H. Ackerman, President of the Monmouth State Normal; W. J. Kerr, President of the Oregon Agricultural College; P. L. Campbell, President of the State University; Robert C. French, former President of the Weston Normal, and practically all of the leading educators of the State. J. A. Churchill, Superintendent of Public Instruction, voices the sentiments of those who are most familiar with the need of more adequate Normal facilities when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training.

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to students to get the amount of teaching practice required in a standard normal school."

All the above educators insist that a Standard Normal School must be located in a town of 5,000 or more population and having enough grade pupils for teaching practice.

### VOTE RIGHT

By voting YES for No. 308 you will help to give to the school children of Oregon the same advantages enjoyed by the school children of our neighboring states. Vote YES for No. 308.
