THE ACADEMY DRIVE

The reception accorded the canvassers for funds for the erection of the Academy of the Sacred Heart has been such as to merit the sincere appreciation of those who are promoting the academy...

The business interests of the county—merchants, manufacturers, big property owners—are going to be appealed to next to carry this drive toward the goal sought...

It is here where the material part of the drive becomes of interest to the business man of the city. That the academy, under the preliminary plans covering the first unit, will mean a thousand dollars a week to the business men of the city is certain...

That is not all. The present plans contemplate only a beginning. Back in Nazareth, Kentucky, where the sisters who will have charge of the school come from, there is an institution in which is invested over a million and a half dollars...

that will ever be made for this school. It was undertaken only because the demand for accommodations were so great as to call for a structure greater than the parish of the Sacred Heart could hope to undertake at this time...

MEANT TO CALL THEM QUICK

Aunt Dinah Had No Idea of Allowing for Misunderstanding When She Rang the Bell.

Aunt Dinah, plantation born and reared, went to a nearby town to "hire out." She was very promptly hired by a young housewife, who, seeing her lack of familiarity with modern households, started to train her.

She showed Aunt Dinah her small silver-service bell—there were no electric bells in the old-fashioned house—and told her that when it was rung she must come into the dining room. Aunt Dinah said she understood...

Puzzled, the housewife entered the hall and there stood Aunt Dinah swinging a large dinner bell vigorously. "Why, what on earth is the matter, Aunt Dinah?" she gasped. "Why are you ringing that bell?"

"Well, Miss Mary, I thought dat was the way folks called each other in de house. Didn't you show me yo' bell the other day? I found dis one in de cupboard and I wanted you right quick in de kitchen, so I rung hit."

Labor Savers.

At a home in North Delaware street the man of the house gathered two or more bushels of nuts last fall and put them in the attic. His wife spends most of her time at the office with him, so the house is empty every day. However, recently the wife remained home one day and heard a terrible noise in the attic...

Supernatural Sleuth.

"During the windstorm yesterday afternoon," related Constable Sam T. Sheckpitter, the sagacious sleuth of Petunia, "a sign board was blown off in front of the Right Place store and hit on the head a gent that was coming from the depot to deliver the evening course lecture at the op'ry house last night, and knocked him senseless. I d'know as I believe in omens and such things any more than the average person, but I couldn't help thinking that when a circumstance like that happens it is a sign of something."

Twirling-Arms Dance.

Many new dances were shown at the dancing congress in Paris recently. Most of them, however, appeared to lack originality. An exception is the "Tchega," which is danced to the strains of Hindoo music. The "Tchega" would never meet with the approval of the British dancing masters, as it is most unsuitable for the English ballrooms...

Goodyear Tires for Small Cars Are Popular Because Economical

There is nothing but disappointment in buying cheaply made tires that are announced as wonderful bargains at a few dollars each and then fail after brief terms of service.

Get exceptional mileage at exceedingly low cost in Goodyear Tires, of the 30x3-, 30x3 1/2- and 31x4-inch sizes, built of Goodyear-selected materials and with Goodyear skill and care.

Due to their precise manufacture in the world's largest tire factory devoted to these sizes, their quality is most economically produced and therefore most economically employed.

If you own a Ford, Chevrolet, Maxwell, Dort or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; ride farther and fare better.
