**'BLACK BEAUTY'  
 IS GREAT FILM**

Playthings, playthings—  
 Horses and trumpets and gay things;  
 From the days of my youth,  
 When fairies were truth,  
 And dollies seemed really to say things.

Memory of the care-free days out in orchard flat on the grass in the summer, or on the worn old sofa in the chimney corner in the winter with "Little Men" and "Little Women," "Mildred" and "Doty Dimple," "Alice in Wonderland," or, best of all "Black Beauty" came vividly back yesterday afternoon with a trooping train of joy at the sight of all the youngsters in town—there might have been two or three missing—lined up in front of the Liberty theatre for the matinee performance of "Black Beauty."

Harry Peole threw open the doors to the children, on payment of a nickel each to cover war tax, and they swarmed as if the pipes of the Pied Piper were lifting them on.

They blocked the street and it took a special policeman and several assistants to keep them in line and from under the wheels of the traffic until they could all be gotten inside and seated.

But there were no mishaps and it was a worth while picture—the same old story with an additional chapter in which one of the greatest cross country races ever filmed furnished thrills at the rate of a thousand a second.

The theatre was crowded with grown-ups for the evening performance and the general enjoyment again proved the triteness of the old saying that "men are but children of a larger growth."

There will be another performance of "Black Beauty" this evening.

**The Honor Roll  
 and  
 the  
 Slacker List**

*Everybody in Klamath agrees that Oil Development is the one great hope; the one big chance for profits and prosperity unbounded for everybody this summer.*

*There are three of these big chances for this year. THE SIEMENS WELL, THE CRATER WELL AND THE NORTHERN CALIFORNIA WELL. Each of these companies have already spent many thousands of dollars in actual work and equipment, and must spend thousands and thousands more.*

*Practically every dollar of this money has been raised by the sale of stock in Klamath County. Every other dollar needed must be raised in the same way.*

*The names of the public-spirited, men and women who have contributed this money and made this development work possible, should be placed on THE HONOR ROLL and full credit be given them for the public good which will accrue to Klamath when oil is struck. This would be a wonderful list; a list of the real, progressive men and women of Klamath County. All the live ones, all the game ones and all the lucky ones will be on that list.*

*Then there should be a LIST OF SLACKERS. A list of the business men, bankers, property owners and farmers, who have taken no interest in Oil Development, who have selfishly let their neighbors, and their employees take all the risk and make all the sacrifices.*

*This would be a wonderful list too. In it would be the names of all the Dead Ones, all the Tight-Wads, all the Pessimists, all the Knockers, all the Crape-Hangers and all the Kill-Joys in Klamath County.*

*There is some satisfaction in considering the subject of these two lists, and that is in the fact that the Slackers wouldn't get any of the profits which will be made in Oil Stocks when a gusher comes in.*
