BEFORE IT IS BORN.

Some Startling Statements of Gen. eral Interest.

Dr. Oliver Wendell Holmes, on being asked when the training of a child should begin, replied, "A hundred years before it is born."

Are we to infer from this that this generation is responsible for the condition of the race a hundred years from now?

In this wonderful generation the natural result of the proper diet and medicines of a hundred years ago?

It is conceded in other lands that most of the wonderful discoveries of the world in this century have come from this country. Our ancestors were reared in log cabins, and suffered hardships and trials.

But they lived and enjoyed health to a ripe old age. The women of those days would endure hardships without apparent fatigue that would startle those of the present age.

Why was it? One of the proprietors of the popular remedy known as Warner's safe cure, has been faithfully investigating the cause, and has called to his aid scientists as well as medical men, improving upon them the fact that there cannot be an effect without a cause.

This investigation disclosed the fact that in the olden times simple remedies were administered, compounded of herbs and roots, which were gathered and stored in the loft of the log cabins, and when sickness came on, these remedies from nature's laboratory were used with the best effects.

What were these remedies? What were they used for? After untiring and diligent search they have discovered the formulae so generally used for various disorders.

Now the question is, how will the olden time preparations affect the people of this age, who have been treated, under modern medical schools and codes, with poisonous and injurious drugs. This test has been carefully pursued, until they are convinced that the preparations they now call Warner's Log Cabin remedies are what our much abused systems required.

Among them is what is known as Warner's Log Cabin saraparilla, and they frankly announce that they do not consider the saraparilla of so much value in itself as it is in the combination of the various ingredients which together work marvelously upon the system. They also have preparations for other diseases, such as "Warner's Log Cabin cough and consumption remedy," "Log Cabin hops and buchu remedy," "Warner's Log Cabin hair tonic." They have great confidence that they have a cure for the common disease of catarrh, which they give the name of "Log Cabin rose cream." Also a "Log Cabin plaster," which they are confident will supplant all others, and a liver pill, to be used separately or in connection with the other remedies.

We hope that the public will not be disappointed in these remedies, but will reap a benefit from the investigations, and that the proprietors will not be embarrassed in their introduction by dealers trying to substitute remedies that have been so familiar to the shelves of our druggists. This line of remedies will be used instead of others. Insist upon your druggist getting them for you if he hasn't them yet in stock, and we feel confident that these new remedies will receive approbation at our reader's hands, as the founders have used every care in their preparation.

SALEM AND THE FUTURE.

Evidences of Approaching Boom.—An Active and Energetic Firm Preparing For It.

The evidences of an approaching boom are many and that Salem and the country surrounding it is to see, in the near future, the greatest activity in general business that it has ever experienced, there is no doubt.

Most of the business men of the Capital city are making preparations for the approaching increase in business, and none more than the young and energetic firm of Moores & Manning at 317 Commercial street.

Having embarked in the Real Estate and Insurance business a few months since they have been very successful both in securing good lines of insurance for an excellent list of city and country real estate; and in selling properties on commission. They are very extensive advertisers, and expect to make a good many transfers in real properties during the present season.

Persons owning farm or city properties which they desire to offer for sale can do no better than to place the same with this enterprising firm. Their facilities for selling are exceeded by no real estate brokers in the city, their terms and contracts are liberal, and they pay very close attention to their business, thereby insuring to each and every client the strictest attention to their interests.

Both of the members of this firm are young men, well and favorably known in this city for a number of years, and have the good will of all the business men of the city with whom they come in contact. They take a deep interest in every matter of public improvement and are generally active and wide-awake business men.

They will collect for rental and accounts, negotiation of loans on approved real estate or personal security, employment agency, and a general information bureau to their other business. When in the city, call on these young business men. They will be glad to agreeable, and will make the visit profitable to the caller if interested in their line of business.

TELEGRAPHIC TIDINGS.

Important Events of the Whole World for Twenty-four Hours.

Buckets of Blood.

PORTLAND, Dec. 3.—The most sanguinary shooting affray which has ever occurred in this city took place about 1 o'clock yesterday afternoon between two gangs of Chinese highbinders, at the corner of Second and Alder streets.

Some fifteen or twenty took a hand in the bloody fight, which was a regular pitched battle lasting for about ten minutes, during which some forty or fifty shots were fired, and at the end of which four men lay weltering in their gore, while two others who had fallen in the fray were carried off the field by their friends, and at last accounts their whereabouts had not been ascertained.

The affair caused intense excitement. As it took place in the center of Chinatown, but few white persons were present, and while the fusillade was going on but few rushed to the scene.

President Cleveland's Message.

WASHINGTON, Dec. 3.—President Cleveland's message was read. That portion of the message in which the president treats of the tariff question was listened to attentively by the members of both sides of the house. Now and then a smile, more of triumph than derision, would appear on the face of some enthusiastic republican, but the silence was not broken until the clerk read in a clear voice: "It is the cause for which battle is waged and is comprised and distinctly defined. It should never be compromised. It is the people's cause." Then the democrats could no longer resist their feelings and broke into a round of applause, which was answered by the republicans with derisive laughter.

Congress in Session.

WASHINGTON, Dec. 3.—The republican members who are prominently mentioned in connection with the speakership came in for an extra share of felicitations, it being generally conceded on the floor that the next house will be republican, with from three to seven majority.

When Randall entered the chamber, which he did at a few minutes before noon, he was surrounded by his friends, desirous of expressing their pleasure at seeing him once more resume his congressional duties.

Stanley Heard From.

LIVERPOOL, Dec. 3.—Mail advices from the west coast of Africa, say: "Rumor has reached Bonny from Upper Niger that Henry Stanley is proceeding back of the Great Oil Reserve under the British flag, and that the natives are friendly."

A Sound Legal Opinion.

E. Bainbridge Munday Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Home Cove, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."

This great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50c, and \$1, at Dr. H. W. Cox's Drug Store.
