Prospect of Call for a Special Session.

CABINET IN SESSION TO SET THE DAY.
New Daily Low-Water Mark in Price of Wheat.

Better Feeling in New York.
New York, June 30.—A more confident feeling prevailed in stock circles this morning owing to the general belief that July settlements will pass without trouble. Good authorities do not expect a repetition of yesterday's flurry in money, and state banks stand ready to prevent any serious trouble.

A Special Session.
WASHINGTON, June 30.—There is good reason to believe that the cabinet meeting today will settle definitely the date of the extra session, and that a proclamation will soon follow announcing the date, whether it shall be September 4th or earlier. President Cleveland desires to have it settled, so as to stop the pressure that is now being brought to bear on him. He thinks the clamor will stop even if the date is not so soon as some people desire. It is claimed that once definitely settled there will be a settlement of the present condition, and that no one can possibly be injured by having the date definitely fixed, while it may be of great benefit. This information is considered thoroughly reliable.

PARIS BANK BURSTING.
Vital Points of the Day's Development—Other News.

CHICAGO, June 30.—Daily a new low-water mark in prices of wheat is set. Today, September is comparatively steady, but July is weak. Selling July was largely due to a report that five millions bushels of "skin" wheat was here, added to the rumor of a Paris bank failure. A rumor came into the market, bought July and sold September, steadying the former. A report of advanced points in silver in New York also helped. July opened 1/2 below yesterday, lowest at 62 1/2, dropped 1 1/2 to 61 1/2, recovering to 62 1/2.

A Bad Showing.
FOSTORIA, O., June 30.—The assignee of Ex-Secretary Charles Foster filed a report of the concerns in which he was interested, but not his personal assets and liabilities. The report shows these concerns to have aggregated assets of \$27,700, liabilities \$554,793. Foster's account in his bank was overdrawn \$136,400.

Silver Higher.
WASHINGTON, June 30.—At a cabinet meeting Secretary Carlisle presented an array of official figures bearing on the silver question. A general interchange of views followed. He gave the president the daily cablegram from London showing price of silver there 80 1/2 per ounce, making bullion value of silver dollar worth 57 1/2 cents.

THE SILVER SITUATION.

Drift of Opinion Among Prominent Men.

CLEVELAND'S CABINET STRUGGLING HARD

To Solve the Problems Raised by Demonetization in India.

WASHINGTON, June 30.—Secretary of the Navy Herbert, who is thoroughly familiar with the Populist movement in the South, said he thought the Populists were not making any progress in that country and the teachings of those engaged in the agitation do not have any influence in shaping the policy of the Democratic party.

In speaking of silver the secretary said: "I think the stoppage of the free coinage of silver in India the greatest blow given to the Sherman law and the free coinage of silver in this country. The free coinage of silver in India has been pointed to as an object lesson by the advocates of free coinage in this country."

Secretary Carlisle received numerous callers, among whom were many members of congress. With all these the silver question formed the principal topic of conversation, and the continued decline in the price of silver was naturally referred to. The secretary had received a cablegram stating the price of silver in London was 68 1/2 cents per ounce, at which rate a silver dollar as bullion was worth 63 cents. Nevertheless the point, of course, was that the apparent purchasing power of the silver dollar, with silver bullion at 68 1/2 cents per ounce, was as great as when silver was worth \$1.22 per ounce and the bullion value of silver 93 cents. This fact was several times emphasized at the last session of congress when ex-Secretary Sherman and others repeatedly declaring during the senate debates that there was in the treasury bullion in gold to the value of every silver certificate issued by the government.

Ex-President Harrison is in the city and when he asked how he accounted for the shrinkage of the price of silver since the passage of the Sherman law said he preferred not to discuss that subject; but everybody knows, he said, that the Sherman law was only an expedient as it was passed in preference to something worse. The ex-president thought a great deal more blame was laid at the door of the Sherman law than it deserved but that its repeal might tend to restore public confidence if only by working upon the imagination.

Senator Jones of Nevada this evening said: "I doubt very much if the Sherman act can be repealed at an extra session. It certainly cannot be wiped out unless a substitute satisfactory to the advocates of free coinage shall be provided. Should congress succeed in effecting the repeal without granting such substitutes a silver party will be formed and it will wield such an influence that to ignore it will be fatal to any man who desires political preference."

The condition of affairs in Philadelphia banking circles is becoming more marked. According to advices received from Philadelphia this morning New York exchange in that city is at half a cent on the dollar. Several large banks in this city have large balances owing to them in Philadelphia banks which the latter are unable to remit on account of their inability to procure New York exchange currency. Unless the Philadelphia banks remit this week it is probable, according to some New York bankers, that a discount will be charged on the Philadelphia exchange received from dealers here.

BOSTON, June 30.—The strain on the financial situation is severer than ever. Stocks were demoralized at the start. Liquidation was extremely heavy under pressure, and prices tumbled badly. Banks are calling in loans on all sides and some of the best houses on the street had to pay abnormally high rates to get carried through.
