SALEM,

CONSTITUTIONAL EQUILIBRIUM.

Transformed by President Cleveland.

WHATEVER THAT MAY MEAN.

A French Newspaper Charges Him With It.

HE MAY SUBMIT A MESSAGE

On the Question of the Sandwich Islands.

Equilibrium Transformed.

PARIS, Oct. 27.—The Paris "Temps" newspaper says: "Although Cleveland has rendered a great service to the business world, yet he has helped modify the constitutional equilibrium of the United States, by transforming the member of his cabinet into quasi-parliamentary leaders."

The 8th of Bill.

WASHINGTON, Oct. 27.—It is believed that when the silver bill is out of the way in the senate the president will send to congress a message and correspondence on the Hawaiian matter. There are three solutions to question restoration of the queen, annexation, or protectorate. It is not known which the administration favors. Representative Hitt has a scheme which he thinks will be satisfactory. He says the islands could be acquired as a military and naval station and governed as such by the United States.

IN THE HOUSE.

There seems to be but little opposition in the house to the admission of Utah as a state.

The bill to aid the states of California, Oregon, Washington, Montana, Idaho, Nevada, Wyoming, Colorado and South Dakota, to support schools of mining, allowing each 25 per cent of the proceeds of sales of mineral lands within the state, but not to exceed twelve thousand dollars per year, was on motion of Dubois, of Idaho, considered.

The state of Minnesota was included and the bill passed.

IN THE SENATE.

Consideration of the repeal bill was resumed and Stewart resumed his argument against it. At 1:30 p. m. he yielded to his colleague Jones. The house has adjourned till Monday.

THE NEW TARIFF BILL.

A Rough Draft in the President's Hands.

WASHINGTON, Oct. 27.—It is understood a rough draft of the proposed tariff bill is now in the hands of President Cleveland and Secretary Carlisle for perusal. Some features of the bill are radical. The Springer free wool bill which passed the house last congress is incorporated into the bill practically without change. There is to be a radical cut made in the glass schedule. There will be a considerable enlargement of the free list by the addition of raw materials, and a heavy cut will be made in all duties which are not properly revenue duties. The idea of tariff for revenue only is adhered to quite closely, but this application may not be made to coal and iron ore, which go on the free list, and there is a very considerable shaving down of the entire iron and steel schedule. The tax on whiskey will be increased not above twenty cents. The increase in the beer tax is practically decided on. The subcommittee men are not quite made up in their own minds on the sugar question, but they have practically determined not to try to get any revenue out of sugar. The sugar bounty will go, however. Either an income tax or inheritance tax will be provided to increase the revenues.

A Strange Case.

KALISPELL, Mont., Oct. 27.—Sensational developments have followed the killing of Jack White, the Northern Pacific train robber who was shot in the mountains Monday by J. P. Genseman who now is charged with felonious intent. He is under arrest.

Prominent Lady Suicides.

WASHINGTON, Oct. 27.—Miss Daisy Garland, daughter of ex United States Attorney General Garland, committed suicide this morning. She is 34 years old, and it is thought has been insane. Attention to the daily habits of the young prevents suffering. Take Simmons Liver Regulator.

How is Your Blood?

I had a malignant breaking out on my leg below the knee, and was cured sound and well with two and a half bottles of SSS. Other blood medicines had failed to do me any good. WILL C. BEATY, Yorkville, S. C.

I was troubled from childhood with an obstinate case of Tetter, and three bottles of SSS cured me permanently. W. L. MANN, Greenville, S. C.

The Silver Struggle.

WASHINGTON, Oct. 27.—The program of the managers of the repeal bill in the senate is to get to voting sometime today on the amendments to the bill, finish Saturday and vote upon the bill itself Monday. The opinion prevails in the senate that the house will pass the bill, when it is sent over, with very little delay. Whether there shall then be a recess or adjournment will depend upon the committee on ways and means. If the Democratic members of that committee are of the opinion that the tariff bill will be in shape for presentation before the time for the beginning of the regular session, a recess is more probable than adjournment; otherwise, adjournment will take place.

A well defined report was in circulation about the capitol yesterday that there had been an effort made to have the Democratic managers in the senate postpone voting upon the bill until after the Virginia election. It appears the Virginia Populists made the fight almost entirely upon the silver issue and made such headway as to render the Democratic managers somewhat anxious, but when it is represented the immediate passage of the bill would have a good effect in Massachusetts and New York it is thought best to let the bill take its course.

Senator Power spent a considerable portion of the day in gathering facts concerning silver bullion in the treasury with a view to getting support for an amendment to repeal the bill providing for the coinage of this bullion which will be offered by himself or some other silver senator. He finds there is a sufficient amount of bullion stored to make \$134,000,000 if coined, and he thinks there should be little objection to its being coined, especially in view of the fact that the seignorage of this silver, about \$54,000,000, would furnish money necessary to supply the threatened deficit in the treasury. He has been canvassing the proposition somewhat among the senators and finds it meets with favor generally among the silver men. There is a feeling, however, among the silver Democrats that the bill should not be amended in any way at their instance, so administration may have all the praise and all the blame for it when it shall become a law.

SENATOR SQUIRE'S SPEECH.

Squire said he sought to find a middle path which is the path of safety. Originally he had been for repeal and there he stood now. There had been timidity about acting on the subject of bond issue (authority for which he had no doubt existed) when if action had been taken he believed the present panic would have been averted. "Who feared the electioneering cry when danger to his country confronted him—the credit of a great nation involved that of every institution and individual in it. Why, asked Squire, "should not the United States obtain two or three hundred million dollars (mostly from abroad) at a low rate of interest? Bringing so much more money to the country would benefit indirectly everyone." He favored giving the secretary of the treasury authority to pay whatever rate of interest might be necessary up to 4 per cent, and he would trust to the secretary to place the bonds at as low a rate as possible. The very authorization of the issue of bonds might be sufficient without ever using the bonds. He appealed to the senate to do that which was practical for the immediate relief to the senate and of the people.

Cockrell, from the committee on appropriations, reported with amendments, the bill making appropriations for certain urgent deficiencies for the present fiscal year.

Stewart, republican of Nevada, then resumed his speech against the repeal bill. When he talked about the act of 1873, which he claimed demonetized silver, Palmer asked whether he did not vote for it. Stewart admitted he did, but said he did so ignorantly. Every senator and representative but one (referring to Sherman) had been deceived. Without concluding his speech Stewart yielded and the senate took a recess until tomorrow.

Foreign Personalities.

LONDON, Oct. 27.—Fears are expressed that Nansen, the Norwegian Arctic explorer, is lost.

PARIS, Oct. 27.—The remains of the great composer, Gounod, were buried today, with full civic and military honors.

600 Year Old Fire.

LONDON, Oct. 27.—Fifield church, near Abingdon, built in the thirteenth century, has burned today.

One of Morgan's Men.

NORTON, Va., Oct. 27.—Marshal Taylor, better known as Doc Taylor, one of the survivors of John Morgan's famous guerrilla band, during the war, was hanged this afternoon for the murder of Ira Mullin's wife and two children. Taylor appeared on the gallows in a suit of pure white linen, and preached his own funeral sermon.

RACY FOREIGN BUDGET.

Interesting Bank of England Statement.

BRAZIL PREPARING FOR WAR.

Uruguayan Government Asked Not to Interfere.

NEW YORK, Oct. 27.—A Montevideo cable says advice from Rio are as follows: The Brazilian minister here had an interview today with Uruguay's minister of foreign affairs, in which the relations of the two countries were discussed. Brazil's representatives urged that the Uruguay government take no action towards recognizing the provisional government established in Desterros, Santa Catarina. He pleaded that the ships in Melio's fleet were not entitled to other consideration than is accorded to pirates, and he asked among other things that the Uruguayan government take steps to prevent the furnishing of coal or water to any of the rebel fleet at any of its ports. No action has been taken by the Uruguayan government on the application of the Brazilian minister so far as is known. The Tiradentes is still in port with steam up and the Republics is waiting for her to come out and fight. From all appearances it is about certain the Tiradentes is simply waiting for a good chance to creep past her formidable adversary without being seen. She is waiting for a dark night or foggy weather, and then she will slowly steam in the opposite direction to that in which she supposes her enemy to be. That she will steam boldly out, in the face of heavier guns and more of them, is not credited here. Fifty soldiers are here waiting for the Bahia, which is drifting with her rudder gone, but which is being searched for. It was currently reported last night that the Brazilian river squadron has declared in favor of Mello.

LIMA, Peru, Oct. 27.—News of serious importance has just been received from Huancayo. It has been stated that the Indians there are raising in revolt against the government. They are in favor of President Caceres, whose citizenship was recently taken from him by the Peruvian congress. Congress has disapproved the proposed treaty with Ecuador, defining the boundary limits of the two countries.

ST. PAUL, Minn., Oct. 27.—The street car strike or lock out is unchanged.

NEW YORK, Oct. 27.—The strike on the Postal Telegraph & Mutual Reserve buildings, is settled.

Prison Fire in Nebraska.

LINCOLN, Neb., Oct. 27.—A fire which caused a great scare in the city through rumors of heavy loss of life, but happily unattended by fatalities, broke out in an enclosure of the state penitentiary in the manufacturing buildings of the institution at about 6 o'clock last evening. It had origin in the foundry room, spread rapidly, and entirely consumed the room, as well as the ones in which are the range works and harness shops. Some anxiety was felt among the convicts, but they were never in the slightest danger and Warden Beemer provided for their transfer to another part of the building. The loss falls heaviest on the state, which owned the buildings and part of the furnishings; it is estimated the loss is \$50,000 entirely uninsured. The Western Manufacturing company, Lincoln Range works and Cuckstaff Bros. who operate the harness shops, lose in the aggregate of something like \$50,000 nearly fully insured.

Financial News.

DENVER, Oct. 27.—The Commercial National Bank has gone into hands of a receiver.

LITTLE ROCK, Ark., Oct. 27.—The jury in the case of the defuncting ex-State Treasurer Woodruff, after being out since Tuesday, came into court this morning and announced that they could not agree, and were discharged. It stood ten to two for conviction.

Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

Mine Accident.

UNION, Or., Oct. 27.—The Oregon Gold Mining Co., of Cornucopia, Union county, met with an accident Tuesday that will necessitate a close down of about ten days. While the great tram way used for transporting the ore down the mountain to the mill, a distance of one mile, was in rapid motion, the steel cable was severed and the loaded iron cars were scattered a cog the mountain side. The plant was being run very and night in its fullest capacity and giving employment to a large number of men. The big house of the day shift was burnt yesterday with its entire contents.

FREE SILVER DEFEATED.

Peppers Coinage Amendment is Knocked Out.

THE SENATE WILL VOTE TONIGHT.

A California Free Coinage Proposition.

WASHINGTON, Oct. 27.—Voting on the amendments to the silver bill began at 4 p. m. today. The Peffer amendment to restore the law of 1837 for free coinage alike of gold and silver was lost by 28 yeas, 36 nays.

At 4:30 p. m. the Voorhees bill was substituted for the Wilson bill, yeas 53, nays 9.

This was only a pro-forma vote and not a test vote. Only radical silver men voted against it.

LATER.

Voorhees says when the amendments are disposed of and the bill reached, he will probably ask the senate to continue in session until the bill is disposed of, even if the work should go into the night.

LATEST.

At 4:35 p. m., Perkins, of California, offered an amendment which provides for coinage of the American product, charging 20 per cent seignorage, allowing no gold coins of less than \$10, and treasury certificates of less than \$5. He is now speaking on the amendment.

MAIL STEAMER WRECKED.

Fast Being Pounded to Pieces on the Rocks.

SAN FRANCISCO, Oct. 27.—The Pacific Mail company's steamer City of New York went ashore last evening in a dense fog and will probably be a total loss. She is hard and fast on the rocks at Point Bonita with eight feet of water in her hold. She sailed for China and Japan at 3:30 in the afternoon and went down the bay under a full head of steam. The fog was very thick and in a few minutes the big steamer was lost sight of. About 6 o'clock the booming of the cannon could be heard and signal rockets were seen as they burst above the fog. At first it was not known what vessel was in distress and it was thought it might be the Monowal due today from Australia. Later it was ascertained it was the City of New York. The steamer was in command of Captain F. H. Johnson and in charge of Pilot Stevenson. She carried a large cargo of flour and a large passenger list, including 200 Chinese. When the ship struck the rocks the Chinese in the steerage set up a howl and intense confusion reigned.

The latest advices from the wreck stated the steamer went on the rocks at full speed and the numerous tugs which rushed to her assistance could not pull her off. She had eight feet of water in her hold. All the passengers have been taken off and will be brought back to this city.

The City of New York was built at Chester, Pa., in 1875 but was practically rebuilt a few years ago. She was 530 feet long, 40 feet 2 inches beam and 20 feet 5 inches in depth.

There was very little wind and the tugs will stand by the stranded ship all night. Should a wind come up she will probably soon go to pieces. The ship is valued at half a million dollars. A reporter just in on a tug from the wreck reports the City of New York lying with her head to the westward, broadside upon the rocks. She is lying over on her port side and three or four big holes stove in her bottom. The vessel will be a total loss. The tide is receding and she is now high upon the rocks and the surf is pounding in upon her. There is not much wind, however, and a very little swell. The tugs hovering about the wreck could possibly pull her off the rocks but it would be useless as it is certain she would go to the bottom. Though the steamer is doomed, it is believed she will hold together until the cargo can be jettisoned, unless a heavy sea comes on. Her cargo is canned stuff and general merchandise valued at \$200,000. She also carried a considerable amount of treasure.

At 11:30 at night it is reported there is no hope of saving the wrecked steamer. She is splintered fast upon the rocks and cannot be moved. In attempting to float the vessel much of her cargo was thrown overboard into the sea, no effort being made to save it. Thousands of sacks of flour are wasted. The tulle and mails were saved.

May Be Saved.

SAN FRANCISCO, Oct. 27.—The steamer City of New York, which went ashore off Point Bonita last evening, is now lying easily in smooth water, and the hope is entertained that she may be pulled off if the weather continues favorable.

Trades Union.

COLOGNE, Oct. 27.—At the session of the national social Democratic congress a resolution was adopted declaring it the duty of every social Democrat to belong to a trades union.
