THE DAGON CORRUPTION. While Cleveland is somewhat to blame for the present hard times and the depressed condition of the national treasury, there is no justice in Governor Penoyer attributing to him all the woes of the unemployed and the miseries of the famished. Cleveland is only a public representative of the Dagon of corruption which this age worships.

Evon Governor Penoyer bows the knee to the golden idol of private selfishness and public greed. His wealth is estimated at from one-fourth to three-quarters of a million and he does not scruple to take about two thousand dollars a year besides what the constitution allows him as governor of Oregon. His money was made in a sawmill conducted under the lumber and shingle trust.

There is no evidence that Governor Penoyer has not taken all there has been in the job or that he would in Washington do any different from what he has always done in Oregon and as the plutocrats do everywhere—roll up wealth by legislation, combination and commercial extortion. The Dagon of corruption is worshipped in Oregon as well as on Wall street.

APPEALING TO DISCONTENT. It was by appealing to the dissatisfied and discontented classes that Robespierre and the leaders of the French Revolution introduced the regime of terror and the reign of blood, only to lose their own heads under the guillotine.

Stirring up the dissatisfied and unfortunate to strife and violence by making them believe that social conditions are depriving them of employment and that the government owes them a living, serves the arm of the Guleatus, Prongeratus, and Haymacket anarchists.

The demagog who conjures the broomsticks into spirits can never undo the evil he does. Spirits of evil once called up can never be rendered harmless but will wreak their vengeance on the heads of the innocent. France had its Robespierre and Oregon has its P—opulist agitator.

A GOOD MAN. The suggestion of Col. Robt. Clow, of Junction City, for receiver of Oregon Pacific railroad. He is a gentleman of the strictest integrity and understands railroad questions from the standpoint of the producer.

He was a member of the old railroad commission, understands rate sheets and railroad law. He would show the court a clean balance sheet and would run the property without three-fourths of its earnings being taken to pay the corporation lawyers and gentlemen of leisure.

SUGGESTED COMMENT. The only thing Uncle Sam has on hand New Year is a big deficit. American contractors are whorping up 160 miles of a railroad contract in the Holy Land.

A. B. Shauson, formerly of the Oregonian, is doing excellent work on the Seattle Post Intelligencer as its Washington correspondent.

The increased tax on liquor proposed to be added by congress, could well be applied to maintain Kelsey Institutes, in place of taxing the people to keep inebriate at insane asylums.

The New York Sun discovers that new Supreme Judge, William B. Howard, has argued that a case in the federal courts in the course of ninety-two or twenty years, and that of these thirteen he lost ten.

Harrisburg Courier: THE CAPITAL JOURNAL says that "a man who takes a dollar in public or private business that does not honestly belong to him, or that he has not honestly earned, is a thief." This is pretty strong language, and it applies to a large majority of men in public positions. There is no question however, that it has become an evil that cannot longer be ignored, and the time is not far off when a demand will be made for a reduction of the salaries of such persons until they shall correspond with the earnings of those who pay them, and be nearer commensurate for the services they render.

Advices from Independence, Ia., condemn the rumor current in those circles for some time respecting the financial collapse of C. W. Williams. Last week Williams assigned every dollar's worth of property he possessed, except his

horses, to satisfy a blanket mortgage of \$100,000, held by David Campbell, a banker of Independence, and Jacob Rich, the well-known capitalist and politician of Dubuque. Everything goes; kite shaped track, breeding farm, hotel, theater, street railroad, private residence, newspaper and all—property representing an outlay of more than \$250,000. His greatest fault was he was too public-spirited.

Leaf by leaf the roses fall; One by one our days are dia. O, to keep them with us still! Loving hearts send up the cry, Wife and mother, O how dear, Fading like a misty way, Father, at us keep them here Tearfully to God we pray. Many a wife and mother, who seems to be doomed to die because she suffers from diseases peculiar to women, which says her life away like a vampire, and buff a the skill of the family physician, can be saved by employing the proper remedy. This remedy is Dr. Pierce's Favorite Prescription, the greatest boon ever conferred by man on weak, suffering, despairing women. It is a specific for all female weakness, no matter what its name.

NOTICE OF DISSOLUTION. The drug and medicine firm heretofore doing business under the style of Smith & Steiner, have this day dissolved partnership by mutual consent, Dr. J. C. Smith retiring. The business will be continued by Leo Steiner, at the old red corner stand, where all bills and accounts are to be settled, Salem, Dec. 1st, 1914.

Economize in Paper. Clean newspapers, tied in bundles of 100, not cut, for sale at this office at fifteen cents a bundle. A heavy straw wrapping paper, large sheets, two cents a pound. Next door to the postoffice.

Fight on a Locomotive. Incompatibility of temper between an engine driver and a stoker very nearly brought about a disastrous railway accident. The two men had not been for some time on very good terms, and a violent quarrel broke out as they were conducting a train over a rather difficult line. High words were exchanged and then they came to blows, and a regular setto ensued in spite of the confined space which they had for this test of their proficiency in the noble art.

For some time the battle raged, while the train—abandoned to its own resources—sped onward with such velocity that the passengers, ignorant of the cause of its sudden elevation to the dignity of an express, began to entertain serious misgivings, while the country people, looking up from their labor in the fields and taking in the real situation at a glance, viewed its wild career with feelings akin to consternation. The train was rapidly approaching a station at which another one would soon be due, and unless its progress were promptly checked a terrible collision was a moral certainty.

Happily, just at the critical moment the engine driver and the stoker both thought themselves of the fearful catastrophe that was impending and, concluding a truce, they set to work with the utmost energy to arrest the lightning speed of the train. They were just in time, for in another moment they would have dashed headlong into the other train. The company, of course, got wind of the affair, and an investigation has been set on foot without delay.—Paris Correspondent.

Must a Mail Carrier Doff His Hat? An interesting and novel point was raised in a peculiar manner in Kansas City recently. The question arising was, is a United States postman in contempt of court when he refuses to take his hat off in a state court? The mail carrier entered the courtroom with his mail-pouch slung over his shoulder and some letters in his hand. He advanced across the room and laid them on the clerk's desk.

The deputy sheriff rapped for order. The mail carrier walked toward the door and still kept on his hat. The deputy met him and told him to take his hat off; that he was in contempt of court. The man of letters replied that his cap was a part of the uniform which the federal government required him to wear while on duty; that he was there on duty, and there was no law to make him take it off. The deputy warned him that he could not enter the courtroom again with his hat on, and the matter was reported to the authorities in the federal building.—Washington Post.

Hungarian Railroad Tickets. The "railway marks" invented by the Hungarian minister, Dr. Lukacs, has been adopted by all Hungarian railways. In the future no traveler on Hungarian railways will be troubled to stand waiting at the ticket office for his ticket. He will be in a position to make out his ticket for himself. On a blank card he will write the name of the station from which he takes his departure and that of the station to which he means to go, and he will stick on to the remaining empty space on the card as many "railway marks" as his journey will cost. The blank cards will be obtainable at all tobacco shops.—London News.

Modern Philosophy. Progress is only shifting ideas. Once our standard English play was "The School for Scandal," now it is "Charley's Aunt." Once our type of a majestic figure was Minerva, now it is the fat, dumpy, little Queen Victoria. Once our model of beauty was the Venus de Medici, now it is Ada Rehan. Once our young men played to rival Hercules, now they play gambling games of football on Thanksgiving day.—Halle.

VIGOR OF MEN. Easily, Quickly, Permanently Restored. WEAKNESS, NERVOUSNESS, DEBILITY. And all the train of evils from overwork, excess or later years, such as indigestion, nervousness, depression, and loss of vitality, are cured by the use of this simple, natural, and powerful medicine. It is a specific for all male weakness, no matter what its name. It is a specific for all male weakness, no matter what its name. It is a specific for all male weakness, no matter what its name.
