### ANNOUNCEMENTS.

**FOR SCHOOL SUPERINTENDENT.**  
The undersigned hereby announces himself as a candidate for the office of county school superintendent, subject to the action of the Republican county convention.

H. H. SMITH,  
FOR ASSESSOR.

I hereby announce myself as a candidate for the office of COUNTY ASSESSOR subject to the will of the county Republican convention.

J. A. VAN EATON,  
FOR REPRESENTATIVE.

I have consented to have my name borne before the Republican county convention for representative.

E. W. CHAPMAN.

John H. Mitchell, Republican and all citizens who are opposed to the domination of the old Portland ring in our state affairs should turn out to the Republican primaries in Marion county next Friday, March 20. See to it that delegates are elected to the county convention March 24 who will do their duty in nominating a Mitchell legislative ticket composed of five men who will not have to be paid with offices or otherwise to do their duty, and who cannot be hired to vote for a candidate of Wall street and the corporations. Let no minor issue defeat the paramount duty of choosing a people's senator and a legislature free from the corrupt domination of ring influences.

Not all who shout Israel are of Israel says the Scripture. Not all who shout Mitchell are for Mitchell. A year ago an effort was begun in Oregon to shelve Mitchell. But he was so strong with the people that he was abandoned some time ago, and now men are catching onto the popularity of the man's name to foist themselves upon the people as Mitchell men when at heart they are machine men and will betray Mitchell for the machine if they have a chance.

The eastern papers are publishing the religion of all the Governors, Governor Lord is not in the list as having any religion. But he has a very kind heart when he can favor a deserving man struggling to support his family. He has appointed several he knew to be good men and never asked them what their politics or religion were. By the way, an English prime minister once said no gentleman would speak of his religion.

A new disease to Oregon prune orchards is Brown rot, and the whole product of several orchards was this year destroyed by it.—Coquille City Bulletin.

That disease can't hold a candle to the Gorman Wilson tariff. While it taxes every mouthful of sugar an American family eats, it admits Turkish and Asiatic prunes at a low revenue duty that yields no revenue, but makes all American prunes a drug on the market.

The New York Equitable Life Insurance company will pay about \$1,000 a year taxes on its premiums under the new Oregon law. All such corporations should be compelled to pay a two per cent tax on their gross earnings, and relieve the land tax to that extent. Then tax the foreign loan companies on their mortgages and reduce the legal rate of interest.

Salem wants no more palace school houses. The people in a city do not want to send their children one or two miles to a big institution where a great deal of style is put on. The people want less machinery, less offices and more small school houses conveniently located to accommodate 50 to 100 children.

### THE MARION DEMOCRATS.

Marion county Democrats assembled in very respectable numbers as a county convention last Saturday at Salem. They were as intelligent and orderly political assemblage as one would like to see. They seemed to have met for a well-defined purpose which they kept in view. Long before the convention adjourned it was apparent to spectators that they would not behold the usual manifestations of boyish pranks and brotherly affection.

There was a staid hand at the helm. F. N. Derby had been at work for a few weeks bringing order and system into the disordered ranks. The usual set-to of factions was avoided. Mischief-makers were avoided. Kickers were sat upon. When the chairman had concluded a carefully considered speech, the proper delegates made the appropriate motions. The convention unfolded itself in a business like way.

Mr. Derby and the other leading lights of the party are to be congratulated on their success in curbing the conflicting elements in their party. For a number of years Democratic conventions have been the laughing stock of the county. The Democrats have redeemed themselves in the eyes of the people and shown themselves capable of conducting a self-governing parliamentary convention.

### THE DEMOCRATIC PLATFORM.

The Marion Democrats departed from their usual platform of exaltation of themselves and denunciation of their opponents. Not a word in approbation of the Cleveland administration, not a word in denunciation of the Republican state government or even the legislature, no allusion to their time-honored party traditions or the iniquitous high tariff! What does it mean?

They did go to a great deal of trouble to endorse free coinage of silver, and so instructed their delegates to the state convention, some of whom are single standard men. The young delegate who voted to table the resolution all alone was not informed as to the program, or he would not have done so. Many of the older heads who are staunch Cleveland goldites kept silent or voted for the free silver resolution.

What does it mean? Simply that there is an opportunity these gentlemen would be willing to unite all the silver elements in the state under the banner of Democracy. The temptation to ignore the tariff, foreign immigration, the Monroe doctrine, state, county and municipal reforms, and all other questions to get into power once more was too great to be resisted.

Good judges say gold has appreciated 20 to 40 per cent. Have labor and products depreciated that much? If gold has appreciated, or silver depreciated, or other products depreciated, then is the single gold standard right? We would like some candid answers to these questions from gold-only advocates.

It is all right to talk reform but it is better to take an interest in the primaries and see to it that good representative men are chosen delegates, and then let the people give them to understand that they must act with a proper sense of responsibility to the people.

A presidential candidate who would cut off about one-third of the extravagance and funkyness at Washington, D. C., would meet with favor among American people.

It is going to be a question of fact and record whether the Republicans or the Democrats are the better friends of bimetalism, with the latter handicapped by Grover Cleveland.

### WASHINGTON PRIMARY LAW.

The last Washington legislature enacted a primary law that went into operation for the first time, Thursday, March 12, to elect delegates to the city convention. The law requires that at a caucus the day before the primaries a list of names shall be selected. That caucus is secret and controlled by the machine. Then the law says:

Sec. 9. The managing committee shall cause a list of the names of such delegates so selected to be printed on one ballot of convenient form for each polling precinct, which ballot shall be the only ballot voted at such primary election and shall be obtained only by the voters from the primary election officers immediately before election.

It will be seen that the citizen has little or no choice of names to vote for as delegates and he can not make up an independent slate. The only ticket he can vote is one handed him by the officer of the machine primary, and whose name was put on the ticket by the machine. The Tacoma News says of the result:

There is a general feeling of elation and confidence about the city hall as the result of the Republican primaries is discussed that manifests itself in all the offices, and clerks as well as heads of departments have their countenances wreathed in the blandest of bland smiles as they express their opinions on the outcome of the approaching election.

The JOURNAL does not believe that the new Washington law will prove a reformatory measure. It is legalized boss rule, from which the people will get no relief. The old-fashioned open primary, or a direct vote for party candidates, is a better system.

An Unsolicited Expression.  
SALLEM, February 22, 1896.

To Whom It May Concern:

I have read Mr. Hofer's lecture on the early history of the English language and peoples. Without solicitation upon the part of any one, I wish to express my high appreciation of it. It is a production of merit, and it deals with the most interesting and important of subjects in a style that is clear and forcible. You will be interested in it from first to last.

If chairman Fairbank of the Democratic county convention will wait till the campaign opens fully in Oregon he will realize the tariff is not a dead issue.

An Oakland, California, lady has dropped a damage suit of \$10,000 for four kisses a man robbed her of. The price of kisses has dropped like everything else.

McKinley is sound on the protection goose that lays the golden egg of prosperity, and not even the American eagle can perform that trick without the tariff.

The Democratic plan—if the Republicans put up a weak man for a county office, or representative, to put up a strong man and unite the people against him.

### RIVER NEWS.

The river registered 8 feet above low water mark this morning.

The Ruth left for Portland at 6 o'clock Saturday morning, heavily loaded with flour and feed from the Salem flouring mills. She also had a good passenger list.

Steamer Elmore arrived up from Portland Saturday evening bound for Corvallis.

The Altona is expected to arrive up from Portland Tuesday by which time her broken shaft will have been replaced by another. Meanwhile the Ramona makes a trip to Portland every two days.

The O. C. & E. company has leased the Three Sisters to the government to assist in raising the snag boat, Corvallis, to the surface of the river, she having run onto a snag in the river near Corvallis and sunk a few days since. In its present position the boat is an impediment to steam boat navigation and will necessarily have to be removed. It is probable the boat will be repaired at once and again resume the work of pulling stumps.

### A CORRECTION.

The following communication seems to be for the purpose of refuting the statements contained in a report concerning a number of youthful boxers who were reported to indulge in semi-occasional boxing matches. It is a pleasure to know that the statement regarding the respectability of the parents was not erroneous.

EAST SALEM,  
near Court and Thirteenth streets,  
March 12, 1896.

EDITOR JOURNAL:—I see a communication in your issue of yesterday in which you say there is an organized sparring club, and a number of statements, some of which are true, but the most are fabrications. There is a barn here (that's true). On March 7 a number of the neighbor's children played they had a little show, speaking and other sports. There were three boys of us, and two of the three put on a pair of old gloves and sparred. But there was no knock out, as you speak of, no club, no truth in the whole write-up except the statement that our people are respectable people.

Deafness Cannot be Cured.  
by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; in cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
