

POLITICAL

Review of the Situation

In Our City, State and National Politics.

The City of Salem has passed through another city election and has secured the services of some of the very best men for its city government. Dr. Richardson for mayor will continue the good work begun by Mayor Gatch of keeping the city within its means. Except for the city hall enterprise Mayor Gatch's administration rather worked the city out of debt. For the city hall debt we have the city hall. It is beyond all present needs of the city in proportions, and will cost four times as much each year for interest as the city could have rented for. But then each citizen can point with pride to a fine building and say, that is our city hall, and that is worth something if it is nothing but vanity. It will now cost a great deal annually for electric lights, for water, for heat, for insurance, and for janitors, and for what not? The same investment for water works to give the citizens pure, abundant and cheap water would have been far more sensible. The city hall started with a real estate proposition and a combination in city politics. The only contest in city politics was over the treasurer. City marshal went in on merit and endorsement by Mayor Gatch. Ed Eades gets a third term, not as an endorsement of that principle, but because of his personal popularity and efficiency as an officer. The council will be one of the strongest in the history of the town. The only "Utlander" or newcomer was Ed. Parkhurst, one of the best men in the Iowa colony. That colony has invested about as much as any class who have come to Salem in the last ten years, and about the only one who has got away with anything is H. W. Cottle, now in California. Mr. Parkhurst will be found giving the same close attention to city business that he does to his own, and for the time he has been here he has gathered about as much experience with our political methods as anyone. Mr. Swafford was pulled through for treasurer by his personal friends and the big Republican majority. He is a poor man and the argument was used that if he was defeated he would lose his home, as he would have to turn over the city money that he put in the Williams & England bank. Mr. Swafford is a man of the highest personal integrity, and the assurance of his principal bondsman, J. C. Baker, that all the city money would be paid over as soon as it can be collected, went far to secure his election. Mr. Baker's integrity is above question, and if men like Dr. Richardson and Wm. England and J. C. Baker have their way the bank will pay out every cent of its obligations. There will be more light on this question when the present receivership is given an airing in the courts. Upon the whole the city is to be congratulated on the incoming administration. There is no reason why with returning prosperity, the city shall not have its credit restored and warrants at par.

A little plain truth should be told about our assessment laws. They are a splendid congeries of folly, or in plain English a fraud. The methods of assessment lack uniformity. No two precincts are assessed alike. No two men's property is under the same valuation. No two counties send in their rolls alike. The sending of a copy of the rolls from each county to the secretary of state is as useless as sending a ton of coals to the cemetery with a corpse to keep it warm. It makes a job for the hangerson at the county seat. A summary of the footings on a sheet of legal cap paper is all that is needed by the state board of equalization. But that would mean a saving of thousands of dollars to the taxpayers and would rob the courthouse rodents of their plunder. Besides it would enable the state board of equalization to do its work in an orderly and effective manner. It would enable the clerks to get the rolls into the hands of the sheriff,

Possibly the sheriffs could collect the taxes when they are due and could not put off the sale of lands for delinquent taxes from six months to two years as they do now. That would be hard on some rich taxpayers who now keep their money in their pockets for all that time or have it loaned out at interest while the county and state warrants are out and paying the same class interest. The poorer and middle class taxpayers, mostly farmers, pay promptly, while the capitalist is earning double interest on the money that should be in the county treasury. Of course, there is no collusion between the county officials on this deal, but it could probably be almost made out in several parts of Oregon. If anyone tried. The most sensible thing the present very orderly board of equalization could do would be to close up their work, draw up a few good laws to bring order and decency into the collection of taxes and making of assessments, and resign until a legislature sat with sense enough to pass them. As the laws now are, and without penalties to enforce them, the board of equalization is not able to do much to stop the main swindles. The collection of taxes should be taken out of the hands of the sheriffs and put in the hands of the treasurers. That would make the office of sheriff less a source of corruption in politics, and he would have nothing to do but collect the delinquent list when it was placed in his hands by the court. The sheriff would be robbed of that vast discretion which he now uses to delay the delinquent sales ostensibly in the interest of the poor taxpayer, but really to the advantage of the wealthy. But if a man thinks any of these reforms are easily accomplished he let him go once to the legislature. He will find the official class do the nominating and dictating of legislation. Until the people who pay can originate legislation and pass upon it without the intervention of politicians the people will pay but they will not govern.

The "sound currency committee" of New York expended from two to four million dollars furnishing stereotyped plate reading matters and illustrations to the daily and weekly newspapers of the United States in the late campaign. The large city papers were bought outright for the gold standard. Now a new "business men's campaign" is to be opened for "sound money." The same committee of New York bankers and syndicate managers is sending circulars to the press announcing that "so long as a considerable minority of our citizens" advocate free coinage of gold and silver on equal terms, "this committee proposes to continue the fight for honest money," until the minority is so small "that they will not be a barrier to industry and prosperity." Following is the offer made to THE JOURNAL, dated 52 William street, New York, Dec. 10, 1896:

"This Committee expects to take up

The skeleton in many a household is the peculiar weakness of the wife and mother, or of the wife who ought to be a mother and is not. It is a disease that is destroyed by the presence of the secret sickness that may lurk like a grinning death among the most luxurious homes. The most terrible thing about this condition is that it is entirely incurable. There is no reason in the world why every woman in the world should not be strong and healthy and capable of fulfilling her whole duty as a wife and mother. Many women go on month after month, and year after year, becoming weaker and weaker, because of a very natural hesitancy they feel in consulting a physician. They know that if they go to a doctor for treatment, the first thing he will insist on will be "examination" and "local treatment." This must of course be distasteful to every modest woman. They are generally as unnecessary as they are abhorrent. Dr. Pierce's Favorite Prescription cures positively, permanently, all varieties of "female weakness" and disease. It is designed to do this one thing, and it does it. It is the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

Every woman will be healthier and happier following the friendly, practical, common sense contained in Dr. Pierce's great universal doctor book, "The People's Common Sense Medical Adviser." It is the most comprehensive medical work in any volume in the English language. It contains 1000 pages, fully illustrated, 600,000 copies have been sold at 15c each bound in cloth. The profits are now used in printing half-million free copies bound in strong manilla paper covers. To get one you have only to send a one-cent stamp to pay cost of mailing only, to World's Dispensary Medical Association, No. 55, Main Street, Buffalo, N. Y. Send promptly before all are given away. It is worth its weight in gold. They are going off rapidly.

I WANT YOU TO UNDERSTAND THAT I'LL HAVE NOTHING BUT THE GENUINE BLACKWELL'S DURHAM!

You will find one coupon inside each two ounce bag and two coupons inside each four ounce bag of Blackwell's Durham. Buy a bag of this celebrated tobacco and read the coupon—which gives a list of valuable presents and how to get them.

at once the work left off just before election. It will endeavor not only to decrease the number of free coinage advocates, but to increase the number of those who favor better banking and currency laws. During this winter and spring we shall probably issue Sound Currency plates every three weeks through the American Press Association and the A. N. Kellogg Newspaper Company; probably also through one or two of the other plate associations which have been supplying our plates. Should we do so we will offer plates to you FREE OF COST if you will agree to pay transportation charges and either to put us on your exchange list or send us copies of your paper containing such matter as you may print.

"We can also furnish you on the same terms speech plates containing the speeches of Secretary Carlisle at Chicago, Judge Aldredge at Atlanta, McCleary in Congress, and Carl Schurz at Chicago. These are issued only through the A. P. A."

To accept these plates means a saving of hundreds of dollars to a daily newspaper, and to discharge one or two typesetters on each newspaper that uses them.

This is a direct bribe to induce a newspaper to support the gold standard.

Thank God we have not fallen so low as to accept the crumbs that fall from the tables of the rotten aristocracy of New York masquerading as the "sound money" propaganda. Not a line of their literature will find its way into these columns.

We are silver Republicans from conviction and principle and all the money of Wall street nor all the offices at their disposal through corruption of the press and voters cannot sway this one little newspaper to ever accept the gold standard. The citizens of Athens who sold their services to Persians were not more contemptible in the eyes of those barbarians than is a turncoat bimetalist in the eyes of Americans.

We warn citizens of Oregon against the large papers from the cities that have sold out to this Wall street gold standard league. Papers that were formerly Republican silver papers and have sold themselves to this syndicate for the corruption of the American press should be found in no honest man's home. Papers like the Toledo Blade, Inter Ocean, New York Tribune and Louisville Courier Journal, that advocated silver to get a large circulation, and then sold themselves to the money-power are not fit to wipe a freeman's feet, to say nothing of instructing his mind.

We have papers in Oregon and California that belong to the same category. THE JOURNAL wishes to thank a number of gentlemen who have interested themselves of late to give THE DAILY and WEEKLY the wider state circulation they are enjoying. The time has come as many believe to give this paper a state circulation, and when it is considered that Oregon for years has had but one paper of state circulation and that for gold only it is a wonder silver has had any friends. It is a wonder a bimetalist who was sincere and uncompromising could exist as a public man or even make a living in Oregon. The ostracism of the Oregonian newspaper has been upon all who dared to be inde-

pendent of its teachings. The terms crank, insane, anarchist were fixed on each individual who would not surrender and never retracted. A man once condemned for the asylum by the Oregonian remains a fit subject for a lunatic's cell in the minds of thousands who take no other paper. Wider circulation of THE JOURNAL is accounted for by the fact that the people love justice and want an opposition paper. As an opposition paper is built up and circulated it will be found that the power of the Oregonian to ostracise, condemn and ruin the characters of citizens will be destroyed. In addition to giving THE JOURNAL a state circulation, a strong daily paper should be built up at Portland. It is significant that the Daily Tribune of Portland is growing rapidly.

An old-line Republican writes THE JOURNAL from an eastern state: "Cleveland was elected by deception and lies and all was laid bare before two years rolled around. His message to congress caused every Republican to smile at his congratulating himself over the endorsement of his financial policy, gold bonds, syndicates and all. To what base use is the Republican party descended! I honestly believe McKinley is sincerely inclined to do what is right; but his docile submission to a platform which was in disharmony with his former official actions is a foreboding of trouble in his government when he will be too weak to knock off the tough barnacles which already cling to his ship of state before it has even begun to rock on the waves of the tempestuous government seas. The president-elect will have trouble in selecting a suitable cabinet. Most of the old hacks have made themselves impossible; by blunders which they have committed or are charged with. This class of politicians will not stand back. They will never admit that their days of political usefulness are ended because they imagine the world would stand still if they ceased

CURED AT 73 YEARS.

Dr. Miles' New Heart Cure Victorious. No other medicine can show such a record. Here is a veritable patriarch, 73 years of age, with strong prejudices to overcome, who had Heart Disease 15 years. He took the New Heart Cure and is now sound and well.

SAMUEL O. STONE. Grass Lake, Mich., Dec. 28, 1894. I have been troubled with heart disease 15 years or more. Most of the time I was so bad, it was not safe for me to go out alone, as dizzy spells would cause falling. I had severe palpitation, shortness of breath and sudden pains that rendered me helpless. All physicians did for me was to advise keeping quiet. In August last I commenced taking Dr. Miles' New Heart Cure, and before I had finished the first bottle I found the medicine was a God-send. I have now used four bottles in all and am feeling entirely well. I am 73 years of age and have held a grudge against patent medicines all my life, but I will not allow this to prevent giving my testimony to the great cure your valuable remedy has wrought in me. I do this to show my appreciation of Dr. Miles' New Heart Cure. SAMUEL O. STONE. Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at 15c a bottle for 50c or by mail, prepaid, on receipt of price by Dr. Miles Medical Co., Elkhart, Ind.
