BRUSSELS RIOTS

Gendarmes Charged the Mob

And a Hundred Persons are Injured.

The Pope is Seriously ill—Other Foreign Cables.

By Associated Press to the Journal. BRUSSELS, June 30.—Rioting continued until 2 a. m. The gendarmes charged the mobs fiercely several times. Gazette says a hundred persons were injured during the rioting. At the opening of the chamber of deputies today a motion was introduced amending the rule so as to allow the expulsion of any deputy causing disturbance.

LONDON, June 30.—The Rome correspondent of the Daily Mail says: In consequence of the daily exertions during the religious ceremonies, the Pope is suffering great prostration, together with a slight attack of fever. He was confined to his bed Thursday and some anxiety is felt regarding him.

LONDON, June 30.—The Digger News, the boer organ in London, prints a dispatch from Johannesburg, announcing on reliable authority that the Volksraad will be asked to confirm the arrangement made by the executive council, if acceptable to the British government.

THE HAGUE, June 30.—The first thing the committee of the peace conference discussed today was the reports of war and marine, sub-committees on the Russian proposals, not to increase the effective or military budgets. The sub-committee's recommendation that proposals be referred for ulterior decision to governments was adopted.

WASHINGTON, June 30.—Negotiations in London looking to arrangements of the modus vivendi, fixing the Alaskan boundary have again nearly reached a crisis. Several conferences recently between Salisbury and Choate were dismally disappointing in their results.

At moments it appears that all details could be easily arranged but it turns out that those very details cannot be agreed upon without a sacrifice of interests to many American miners, mainly those driven out of the Atlin district by the severe and discriminating Canadian laws. State department determined not to sanction this.

SAN FRANCISCO, June 30.—The steamship Mariposa arrived from Australia via Samoa and Honolulu today and reports everything quiet in the Samoan islands. The commission is now engaged in writing their report.

Apia is to be governed by a council and mayor. The judicial and diplomatic functions of the consuls will be greatly restricted and the supreme court and one law court will be recognized as sufficient for the needs of Samoa.

A Governor will be appointed who will not be a subject of any of the treaty powers. He will be assisted by a council of three, one from each of the interested powers. This council will legislate for Samoans and will be aided by a small body of representative Samoans.

PASSENGERS MURDERED.

Marshal Shoup, of Alaska, to Investigate.

By Associated Press to the Journal. SEATTLE, Wash., June 30.—United States Marshal Shoup, of Alaska, will investigate the death of the crew and passengers of the steamer Jessie, who either perished in the wreck of their vessel or were massacred by Alaska Indians one year ago on the Kuskokwim river. He will take a number of sailors from the revenue cutter McCulloch to bring all Indian suspects to Sitka for trial. There were 18 people on board the Jessie, and it was thought at first that they had met death by drowning, but subsequent developments suggested a possibility that they reached shore and were murdered by Indians. Marshal Shoup believes they were murdered. Before leaving for Alaska today he said: "The Jessie had a great amount of whiskey on board. The Indian pilot knew this. My theory of the case is that the whites fell in with a large party of Indians, who became troublesome. They were given whiskey, which only made them more dangerous. Desire for more whiskey and the other possessions of the prospectors led to the wholesale murder."

The persons constituting the expedition were: W. T. Repton, Tennessee; R. P. Frierson, Tennessee; Dr. B. Allen, Kentucky; A. C. Stetson, Harry Hedren, Seattle; E. S. Lines, Connecticut; O. F. Amund, Seattle; Engineer Kessler;—Smallhouse, C. H.

Wintzell, J. T. Murphy, Kentucky; Eli Knudsen, Genesee, Idaho; Clifford Hare, England; Japanese cook; Rev. R. Webber, wife and two children. The McCulloch will take Marshal Shoup to the mouth of the Kuskokwim about August 1.

HOLDING THEM.

Otis Is Not Sending Any Move Volunteers Home.

WASHINGTON, June 30.—About 10 days ago General Otis announced that more volunteers were leading to come home, yet they have not sailed, although there are a half-dozen transports ready. The fact is, Otis dare not spare the volunteers until more regulars arrive. The inadequate force in the Philippines is presented strongly in this way, as well as in the meager results of the spring campaign.

HAVANA NEWS.

Trouble in Various Parts of the Island.

By Associated Press to the Journal. HAVANA, June 30.—The local papers devote considerable space to the recent troubles at Guanajay and deplore the action of the few unprincipled men and congratulate Gen. Lee upon the prompt measures taken to put a stop to them.

Armed Cubans held up the village Bachieli and raided the municipal store after killing the proprietor. The police killed a man at Cabezas, claiming he tried to escape and two Spaniards have been killed by a body of Cubans near Cardenas.

Owing to the expressed opinion of General Wilson that rural police were not wanted, trouble is expected in the province of Matanzas for some time.

Klondike News.

Information received in this city through a private letter and from a reliable source states: "While the official reports of the Klondike 'out-put' may not much exceed last year's figures, still it is known to those on the inside that double the amount of gold has been taken out. Of course, there are not so many very large 'clean-ups' as last year, but there is much lower grade ground worked and hundreds of men will go out with from \$2,000 to \$10,000 each, and not so many with larger amounts. As the limit of non-assessable out-put has been raised to \$5,000, many a man will go out with from \$1,000 to \$4,000, which will not be counted in the official report. From \$20,000,000 to \$25,000,000 is doubted less a conservative estimate of the out-put for this year.

General opinion concedes that this summer will be a lively one here, as money is more evenly divided than ever before and the greater part of the discontented class will go out. They are an undesirable class, speaking of them as a whole, and do not do anything to develop the country, and most of them have never sunk a shaft to bed rock or not more than three holes at the most, and then go to town and lay around eating up their provisions and growling at the country and all who have made anything.

It is foolish for any one to come here and expect to make any thing the first year or two, as there are many things to learn that cannot be acquired in a day, as some seem to think. If you will notice you will see that those who have remained here for several years are not the ones who give this country the "black eye" but it is those who only remain a short time who complain. There are many drawbacks here but some of them are being overcome. The mail service is being rapidly improved and methods of mining are undergoing a great change. The old method of thawing with fires is being supplanted by steam thawing machines, and next winter will find hundreds of these at work. With them three or four times as much dirt can be taken out at less expense than by the old method.

This is not a country for poor men, but is a good place for capital to invest, as mines can now be bought at reasonable prices and not at boom prices as heretofore. Many of a homesick man will set even prospecting claims for a little, which can be worked at good profit with a little capital for machinery. The cold bracing winters here we enjoy; but dread the hot malarial summer with its billions of insect, and continuous daylight. Dawson will be a very unhealthy place this summer notwithstanding much improvement has been made in the way of drainage and water supply. The Canadian part of this country is now called Yukon Territory, Canada, instead of Northwestern Territory as heretofore.

The upper part of Sulphur creek is proving very rich. Along about the discovery they have the best thing yet found in the Yukon Basin. It is a pay strike nine feet with and several feet deep that averages \$1.25 to the pan. Richer spots have found on Eldorado but not such extensive pay dirt. On No. 32 above Discovery one pan I know to have been taken out which contained \$116. The lower part of the creek has not been worked much but quite a little gold will come from there this year and no doubt much more next year.

A SALEMITE. M. Klinger was at Turner today on business. John Witcheson, of Turner, is a Salem visitor today.

LABOR TROUBLES

Miners Met With a Fusillade.

Killing Two and Wounding Twenty.

All Amalgamated Labor Scales Expire at Midnight.

By Associated Press to the Journal. ST. LOUIS, June 30.—Word has been received here that colored men from Pana Ills., received a warm reception when nearing the mines at Fredora today. They were met with a fusillade of shots, resulting in the killing of two persons and wounding twenty. Desultory firing has been in progress all the morning and the situation is critical.

PITTSBURG, June 30.—All annual scales of the amalgamated association expire at midnight, and if operators are to continue with present operations, the new schedule of wages prepared by the amalgamated convention at Detroit must be accepted. A number of manufacturers have already stated their intention to sign the scale, and workers believe that by midnight others will accept the terms and renew their relations with the organization.

WALLACE, June 30.—The state rested in the case against the commissioners. The defense introduced several witnesses in behalf of Commissioner Simmons.

CHICAGO, June 30.—The Chicago Packing and Provision Co., today shut down, announcing that it would not operate until the present strike was over. Practically all other packing houses were in market buying hogs for packing purposes and but few evidences of the strike were apparent at the yards.

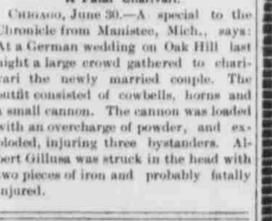

SOUTHERN ISLANDS

Filipinos Said to Be Constructing Fortifications.

VICTORIA, B. C., June 30.—Advice from Hakodate state that Chaptain Saki-chi, of the steamer Hokoku Maru, just returned from the Philippines, reports that in the southern islands the young Filipinos are constructing fortifications against emergencies. Every port is garrisoned by a thousand or so volunteers, whose weapons, however, are very crude, only about 20 per cent being armed with rifles 'Remingtons. They are, however, full of patriotism and state that they will not yield to the Americans though the whole of the islands are destroyed. The Hokoku Maru was warmly welcomed by the Filipinos, who consider the Japanese to be of a kinder race and hope for assistance from them. The Filipinos were prepared to pay for arms and ammunition and Japanese vessels visiting the islands could take return cargoes of hemp. Captain Saki-chia says that he only sold the insurgents two revolvers and the cook's knives.

A Fatal Charivari.

CHICAGO, June 30.—A special to the Chronicle from Manistee, Mich., says: At a German wedding on Oak Hill last night a large crowd gathered to charivari the newly married couple. The outfit consisted of cowbells, horns and a small cannon. The cannon was loaded with an overcharge of powder, and exploded, injuring three bystanders. Albert Gillusa was struck in the head with two pieces of iron and probably fatally injured.

Bushels of Eyes

Would not be of any use if they were not in order. Are your eyes all right? Glasses may or may not be necessary. The young are subject to defects of vision as well as the old. The earlier it is treated the greater the chance of a permanent cure. We test eyes free of charge. We can furnish you anything in the spectacle and eyeglass line. BARR'S JEWELRY STORE, 318 STATE STREET.

SMALLPOX SCARE.

The Disease in a Dozen Towns in Washington.

SPokane, June 30.—A smallpox scare exists in a dozen towns in Eastern Washington. Almira, Lincoln county, is quarantined. Colfax has a well-developed case. A new patient has been reported in Spokane and Walla Walla has a sick man in her pest house. At Almira there are seven well-developed cases, the whole town having been exposed, because the school teacher, who first was stricken, did not know the nature of his malady and continued to teach for several days. Another case was discovered at Marshall, this county. Five men who occupied a box car with a smallpox patient have gone to Waverly, where hundreds of laborers are working in a sugar beet factory. It is feared that the epidemic will spread there. Public meetings in farming communities have been prohibited, while vaccination is the prevailing fact.

TALKED WITH M'KINLEY.

General Wood Says Schools are What Cuba Needs.

By Associated Press to the Journal. WASHINGTON, June 30.—General Leonard Wood was in Washington today. He came at the request of the war department officials and to confer with the president and secretary of war regarding the situation in Cuba. Wood says what people in Cuba need: cost good schools, good sanitation in the cities and enforcement of United States laws. He does not believe the yellow fever outbreak in Santiago will be serious.

SALEM SUMMER SCHOOL.

Conducted by J. J. Krap and County Supt. Jones.

A very successful summer normal is being conducted at the East Salem school building. Prof. J. J. Krap and Mrs. Jones, the Marion county superintendent, are the conductors. The terms are very reasonable and the work is done in a very practical manner. Their first week closes today with about sixty teachers enrolled, and they seem to be of the very best type of students, who are willing to put in their summer vacation of six weeks at earnest and thorough preparation for teaching.

The first summer school was conducted at Salem two years ago by Prof. Krap with a class of 24. Last year there were 40 and this year shows a rapid growth. Teachers are drilled in all the common and advanced branches and for examination for both county and state papers. It will surprise some to learn that there are teachers taking the Salem summer school course from different parts of the state and from Washington, Idaho and Colorado. This speaks well for Mr. Krap as an instructor. He is a life-long teacher and seems to have the confidence of the teaching profession.

A large number of citizens and invited guests went to Chemawa this afternoon to attend commencement at the Indian school, where they will be royally entertained.

Hon. Phil Metcham returned to Portland this afternoon.

Excursion to Frisco.

Dr. C. W. Barr, of Lebanon, who has had wide experience as an excursion manager, expects early in August to perfect an excursion to San Francisco for the benefit of such as would enjoy that for a summer outing. He expects to secure a rate below one regular fare for the round trip, and all who wish to avoid themselves of the opportunity should correspond with him at an early date for full particulars.

ROYAL BAKING POWDER CO., NEW YORK.

MORE TROOPS

Applications for Commissions

Pour in on the President By Scores.

Sick Soldiers Homeward Bound—464 on the Morgan City.

By Associated Press to the Journal. WASHINGTON, June 30.—Since the announcement that 10,000 volunteers were to be mustered into the army for service in the Philippines, the president has been deluged with applications for commissions. The president requests all visitors to file applications with Adjutant General Corbin. At the same time he makes it clear in a general way that the policy of the administration in granting the commissions will be to favor volunteer officers, who showed ability and performed valuable service during the Spanish war.

The number of officers to be commissioned is carefully guarded to prevent a scramble.

WASHINGTON, June 30.—The transport Morgan City left Manila yesterday for San Francisco with 464 sick.

Yellow Fever in New York.

By Associated Press to the Journal. NEW YORK, June 30.—John Johnson, mate of the Norwegian steamer Kreim, was removed to Swinburn island hospital this afternoon, suffering from yellow fever, and tonight his condition is serious. The Kreim sailed from Havana and Matanzas.

Excursion to Frisco. Dr. C. W. Barr, of Lebanon, who has had wide experience as an excursion manager, expects early in August to perfect an excursion to San Francisco for the benefit of such as would enjoy that for a summer outing. He expects to secure a rate below one regular fare for the round trip, and all who wish to avoid themselves of the opportunity should correspond with him at an early date for full particulars.
