Cables the War Department.

Regarding the Appointment of Officers.

President Appoints Lieutenant Colonels for Two Regiments.

By Associated Press to the Journal.

WASHINGTON, July 10.—Gen. Otis cables the following: "Veteran regiments aroused. I will enlist about one thousand. You can appoint eleven second lieutenants for the First and nine for the Second regiment to recruit in the United States. All other offices are filled. The regiments are styled the First and Second Philippine U. S. veteran volunteers infantry."

General Corbin cabled to General Otis that these designations could not be allowed for the Philippine regiment, and to save confusion they would be called the Thirty-sixth and Thirty-seventh United States Volunteers' infantry.

WASHINGTON, July 10.—The president has appointed the following lieutenant-colonels of volunteers.

Major S. J. Bell, assistant adjutant general volunteers, now serving in Philippines, Herbert G. Sergeant, who was colonel of the Fifth immune regiment during the war with Spain; Captain John J. Brenton, Twenty-fourth infantry, who was in the battle of San Juan Hill and highly commended for coolness and bravery; Captain E. H. Plummer, Tenth infantry, who was recommended for brevet for gallantry in action at Santiago.

OFFICERS

FOUND GUILTY.

The Sheriff and County Commissioners Guilty.

By Associated Press to the Journal.

WALLACE, Ida., July 10.—In deciding the removal cases this morning, Judge Stewart found the commissioners guilty of wilful misconduct in allowing bills to the sheriff in excess of his lawful fee; allowing a percentage for collecting licenses; issuing saloon licenses, without application or bond; approving the bonds of county officers, with insufficient sureties; failing to take action when notified of the probable destruction of property at Wardner.

For these he held them guilty of neglect, sufficient to justify their removal. In the case of the sheriff he said: "The defendant by his own testimony has convicted himself of the most flagrant violation of official duty." The defense gave notice of appeal.

The Dewey Reception.

NEW YORK, July 10.—A special to the World from Washington says: "A letter has been sent to Admiral Dewey, through Secretary Long, telling him of the programme the citizens of Washington have arranged for his reception. Secretary Long will present to Admiral Dewey, on the east front of the capitol, in the presence of the president and citizens of Washington, the sword voted to him by congress. The president has approved the programme."

SPARRING FOR TIME.

Kruger Preparing to Make It Interesting for England.

LONDON, July 10.—The special dispatches from Cape Town and Johannesburg concur as to the complexity and obscurity of the Boer proposals, and declare that the Uitlanders are profoundly disappointed. In Johannesburg it is believed that President Kruger is only delaying to gain time until the weather makes campaigning difficult for the Britishers.

W. P. Schreiner, the Cape premier, has addressed a letter to an Afrikaner paper published in Cape Town, declaring that there is no ground whatever for the active interference of the imperial government in the Transvaal, as the Boer proposals are satisfactory. This has aroused great indignation in the Cape Colony, where it is regarded as mischievous, ill-timed and calculated to encourage President Kruger and to embarrass Sir Alfred Milner.

The Rome correspondent of the Daily Mail says: "The pope has been in correspondence with President Kruger, appealing to him to avoid a rupture with Great Britain, and yesterday he received a dispatch from the Transvaal chief magistrate, declaring that a settlement was still distant, but that the crisis was passed."

According to the Johannesburg correspondent of the Daily Mail, the Uitlanders regard the Transvaal government's proposals as absurdly insufficient.

TERRIBLE FLOODS.

Incessant Rains at Manila Inconveniencing Soldiers.

MANILA, July 10, 8 a. m.—It has been raining and storming almost constantly for two days, and the country along the American south and bay lines is literally flooded. The soldiers are suffering great discomfort. The Thirtieth infantry regiment at Pasay is in the worst position, being practically surrounded by water. The bridges that were used for getting supplies have been washed away, and some of the companies are now separated by streams six feet deep. In many cases the men are sleeping with three feet of water beneath their bunks, which are elevated on cracker boxes. The company cooks, when preparing the meals, stand knee deep in water.

Some of the roads leading to Pasay are simply impassable, and the rice fields on all sides are one great lake. A high wind blew over several tents of the second reserve hospital. Manila bay is impossible of navigation by either launches or canoes, and no vessels are leaving the harbor.

The United States transport Centennial is ready to sail for San Francisco with discharged soldiers, but the latter have to sit around the water front all day, drenched to the skin, waiting for a launch to take them to the steamer. The river Pasig and all the other streams are swollen and city streets at all low points are covered with water.

Bells Will Ring.

Arrangements are in process of completion, whereby the fire bell and all the church bells at Salem will ring out the glad tidings, the instant that the news is received here of the arrival at San Francisco of the transports bringing our boys from Manila.

Elder Barkley returned today from dedicating a church at Dusty he also attended a board meeting to install the Philomathean college president, W. H. Davis.
