THE PAINTER'S UNION.

Steps Taken by the Organization Concerning School Houses.

At a meeting last evening of the Brotherhood of Painters, Paperhangers and Decorators, some discussion was had relative to public work, especially pertaining to the matter of painting the school houses of this district, which work is soon to be done. A committee on this work was appointed as follows: H. S. Prior, T. J. Kress, C. F. W. Browne, Wm. Wickey and F. L. Willman. This committee is engaged today in measuring and making estimates of this work. These will be submitted to the board when it meets for their information and for the protection of the painting fraternity and the taxpayers. Special propositions will be made later.

A member of the special committee made the following statements:

The object of this organization is to promote the welfare and fraternal feeling among the members, and to keep down severe and unjust competition, to regulate the price of our labor and to so adjust them that it will be fair to the people as well as the artisan.

While we are opposed to all forms of trusts and combinations to control industry and labor for selfish ends, we find it necessary to protect ourselves against unfair and unscrupulous persons who will, in order to crowd out all competitors, take work at any price, when in so doing, they must use inferior material and slight the work at every turn, thereby defrauding their customers and bringing the trade into disrepute. The old saw is "competition is the life of trade" is so old and obsolete that the teeth are all worn off, and it won't saw any longer. Competition conducted on a fair basis is all right, but cut-throat competition is all wrong.

The members of this association are gentlemen, citizens and taxpayers of Salem who spend their money in Salem and educate their children here.

We not only seek to promote our own well-being, but to do square and honest work for the people at prices which long experience has taught us are both reasonable and just to all concerned. We help to build up the city as far as we are able and to beautify the homes of its citizens and make them attractive and inviting to both resident and stranger. Our motto is "Live and let live," thereby in a measure following the golden rule.

We would therefore respectfully ask the people of Salem to give us their moral support and patronage and we on our part will give them good material and good work.

CLIMATE AND CROP BULLETIN.

Western Oregon Conditions as Given Out by Department of Agriculture.

Weather.—The mean temperature for the week averaged 61 degrees, which is 1 degree lower than for the preceding week and 4 degrees lower than for the corresponding week of last year. The maximum temperatures ranged from 69 degrees to 80 degrees and the minimum from 54 degrees to 55 degrees. No rain fell during the week. The morning general cloudy "high fog" and the afternoons were clear. The winds were from the west to the north and light in force.

Crops.—The temperature and sunshine conditions were favorable to the growing crop, but rain would be of benefit. The continued dryness was not injurious, because there was an absence of hot, dry winds.

The second crop of alfalfa is being cut in the southern counties. The cutting of wheat for hay has commenced in a few sections. Timothy, clover and cheat continue to be cut. The hay crop is turning out as well as it has ever done. Fall-sown wheat, oats and barley are turning yellow; in a few favored localities barley harvest has commenced. Early-sown spring grain has commenced to head. The spring grain promises well; the yield will not be as heavy as the fall-sown. The reports indicate that the grain crop is in a fairly satisfactory condition, not as good as in some years but better than in others.

Strawberries are about over. Cherries are ripening; Royal Anne are about two weeks late in ripening. Apples, pears and prunes have not changed in condition; dropping has ceased and the fruit now on the trees will probably mature. The light frost crop allows of an extra good growth of wood, so that the orchards are really benefited by the light crop. Peaches are ripening in the southern counties. In Jackson county there is a good crop; in other counties there will be little if any more than that required for local markets.

Hops are making good growth; rice are increasing and spraying has commenced in many of the yards. The current condition of the vines is favorable for a good crop.

Garden produce is making good growth; rain is needed more for garden than for growing crops.

Raspberries are ripe and very plentiful. Blackberries promise a good crop. To-day the crop prospects for western Oregon are fairly satisfactory. In the eastern states the present crop prospects of Oregon would be called excellent, but compared with usual conditions in Oregon they must be classed as only fair.

Crash and Straw.

The New York Racket has a large line of crash, and straw hats, crash suits, and bicycle suits, also linen dusters, and light mohair, and black alpaca coats. Call, we sell cheap. 21-17

Iowa Ready.

SEATTLE, July 11.—The battle-ship Iowa will come off of Port Orchard dry-dock Tuesday evening at 8 o'clock. Steamers will leave Seattle early Tuesday evening, carrying excursionists to witness the launch and attending ceremonies.

Big Purse is Offered.

SAN FRANCISCO, July 11.—The managers of Glen Park, in this city, have raised their offer of a purse for the Jeffries-Sharkey fight to \$100,000. If they get the fight they propose to make the general admission \$1, and at that rate expect an attendance of 100,000.

The fight will be held in an open-air arena.

To cure La Grippe, keep warm, especially the feet, and take Dr. Miles' Nervine.

OUT OF POLITICS.

Zola Rejoices Over the Return of Dreyfus.

New York, July 11.—A dispatch to the World from Paris, signed by Emile Zola, says: "Positively I will not write of the Dreyfus case for any newspaper whatsoever—at least not until the coming trial is over. What I had to say, I have said. I consider that I am no longer needed. I withdraw."

"I learn that a man in New York boasts that he has a contract with me to write a play about Dreyfus. Another man talks of my making a lecture tour through the United States. I learn, too, that certain newspapers have recently published articles signed with my name, and are announcing that they will publish other articles by me. All such statements are absolute impositions. I have never authorized these statements nor the publication of those articles."

"When I raised my voice for Dreyfus I merely desired to rally the defenders of justice, then busy elsewhere; to draw attention to a crime, the accomplishing of which was not to be tolerated. I am glad I did it—because the agitation probably saved an innocent man; because it proved invaluable in educating the masses; because this revision marks the entrance of the moral idea into politics, where principle is too constantly sacrificed to immediate expediency and mutual toleration. Such a sacrifice in the long run is ruinous to any nation. I am glad I did it. Should occasion arise, I should enter politics again."

"Now, however, my ideas on these subjects are in the hands of better leaders of men than I am. These leaders are amply able to make the ideas to fructify in this beloved, generous France. Having no doubt these ideas will bear fruits in America, too, I can't see how any articles, lectures, or especially how any bad melodramas I could contribute to the discussion would help the good work. Therefore, despite what has been said, I have none but a literary ambition; I now return to purely literary labor."

FRIGHTENED TO DEATH

Burglar Alarm Going Accidentally Causes Death.

SAN FRANCISCO, July 11.—Death called Dr. Mary C. Edmonds, a well-known physician of this city, in a tragic fashion at her home at 913 Dush street. The accidental setting off of a burglar alarm wrought up her nerves to such a strain that she suffered death by fright. She went to a window and blew a whistle. Help came, but just as she opened the front door she tottered and fell dead.

Mrs. Edmonds was a very talented and successful physician of this city. She was the widow of Judge Edmonds, late of the superior court, and leaves two sons and a daughter. The latter, Miss Annie Edmonds, is a teacher at Berkeley, and one of her sons, Frank W. Edmonds, who has been connected with the United States geodetic survey for years, is now in Alaska. Her other son, Dr. Harry Edmonds, is a physician practicing in Fresno county.

The Unseated County Officials Replaced and They Have Qualified.

WALLACE, July 11.—Governor Stenberger has issued commissions to Tynis C. Gordon, Jas. E. Gyle and G. Scott Anderson as county commissioners. They have qualified and are in session today.

John Clarke was the first witness called in the Corcoran case to-day. He was the recording secretary of the Burke Union at the time of the riot and went to Kellogg with the rioters. At Kellogg he saw a number of masked men all armed.

Jumped From a Train.

LOS ANGELES, Cal., July 10.—A Kramer, of Dayton, Ia., jumped from a Southern Pacific train near Burbank, and, taking a penknife from his pocket, he proceeded to gash at his throat.

The train was stopped and the man put on board and brought to this city. His only injury is loss of blood. It is thought that Kramer became temporarily insane from the heat of the Mojave desert. He had considerable money with him, as well as a return ticket to Dayton.

Senator McBride Better.

NEW YORK, July 12.—Geo. W. McBride, U. S. senator from Oregon, on Monday left the post graduate hospital where he had been recovering from the effects of a painful operation. "Populism is dead in Oregon," he said, "and rapidly dying in other parts of the west. Oregon can be counted in the republican column for some time to come, at least."

Bath Towels Wash Cloths

We have just a little the best values in Turkish bath towels its ever been on our lot to secure. They range from 10 to 25 cents and the 25 cent ones are the great large fellows that soothingly sop up the water. Wash rags at 3 and 4 cents. Glad to show you these.

Workmen's Articles

July usually finds us as busy as any other month. Our front table is now replete with men's substantial goods 23 cents hats! Jumpers, overalls, shirts, straw hats! and all that.

Mrs. Chitty, of Dallas, who has been visiting at Woodburn, returned to-day accompanied by Miss Wright of that place where she will spend several weeks.

J. A. Carson went to Portland on the early train.

Leonard Brown and J. A. Evans left this morning at Woodburn, returned to-day accompanied by Miss Wright of that place where she will spend several weeks.

County Judge Terrell, Commissioner Davis and Assessor Hobart are at Portland to attend the assessors' convention.

EDITORS HERE.

Continued From First Page.

A Bad Breakdown

occurred on the electric line by the engine of the first section tearing down the guywires to several trolley line poles at the Allen Cannery. This broke the circuit and it was after 1 o'clock when the line was repaired so cars could move. Then the crowd had reached Marion Square about, and in vehicles.

At the square the lunch was served to the guests standing. Ropes were drawn so as to keep the crowds back. Not being arranged by states, very few eastern people succeeded in finding their friends until the carriages were filled when some had a chance to greet old acquaintances.

THE SPEECHES.

Frank Davey delivered the address of welcome and President Henry responded on behalf of the association. Secretary Page made some announcements about their future itinerary.

The visitors were now taken for a two hour's ride in carriages before taking the train for Por Lud. Scores of vehicles were soon speeding in all directions and this closed the day.

A GENUINE SURPRISE

Was in store at the train where a dray-load of the choicest hot house flowers sent to THE JOURNAL office for grateful remembrances to the departing guests. In all its details the Salem program was a great success and the city can well feel proud. The refreshments at Marion square were voted equal to any that had been served while all the ladies went into raptures over the flowers voting them the finest that were presented anywhere.

DIED.

FREEMAN.—At the state insane asylum, in this city, Monday, July 10, 1900, James A. Freeman, aged 72 years.

The remains were shipped to Seaside on this morning's overland for burial.

Friedman's New Racket.

Celebrated the Fourth and so did all the rest of the people who purchased clothing at Friedman's New Racket; for they saved enough money in the bargains they got at Friedman's New Racket that they had money to blow in at the Fourth. And you could see by their faces where they bought the goods. All those who looked pleasant and smiling and patronized the restaurants, peanut and lemonade stands were the ones who purchased their wares at Friedman's New Racket. The few dejected looking people, who went without their dinner and refreshments on the Fourth, bought their goods elsewhere. And now Friedman's New Racket is preparing for the Fall trade; and down goes prices still lower in order to make room, prices go down still lower, and those who are in need of clothing, hats, gents' and ladies' furnishing goods, staple and fancy Dry Goods, blankets, comforters, laces, ribbons and embroideries, handkerchiefs, towels and notions, trunks, valises, etc., will find that it will pay them to make their purchases at
