THE UNAMERICAN PRESS CENSORSHIP.

The Journal has, at risk of incurring the displeasure of many of its readers, sought to patiently endure the damnable features of the administration of the Spanish and Philippine war. We have placed our feelings in the background and sought to uphold the conduct of the war as a patriotic duty.

But if the telegraphic reports in regard to the censorship be true there has been another infamy added to the beef scandal, to the Egan episode, to the murder by neglect of our troops in American camps, the most damnable of all offenses by a government towards a free people—the suppression of facts and the deception of the whole nation.

We naturally wish to see our own government succeed in that which it undertakes. We close our eyes to the scandals and abuses that are attributable to party politics and machine methods. But we cannot close our eyes to the rottenness of a press censorship that produces a false public sentiment, that would set aside the honest impulses of a free people, to protect incompetence in high places, and shield corruptionists who hide behind the guise of patriotism.

Who is there will not arise in righteous indignation and smite with condemnation a lying, truth-concealing fact-suppressing censorship of the Press that has kept the American people in the dark for a purpose?

The San Francisco Call says in an editorial:

"We have indirectly some unmeasured real news from the wife of an officer who has recently arrived here, her husband being still in the Philippines. She says insurgent bullets frequently whistle right in the city, and the Americans have to fight to hold the water works; that the narrow peninsula on which Cavite is situated has been bombarded daily for months, but was not captured until the recent expedition; that any territory, outside of Manila, is not held, while ammunition is readily smuggled through the lines to the Filipino army. It also was incidentally mentioned in her presence by another arrival that an American gunboat had been captured by the Filipinos, with a supply of krag-jorgensen bullets. She says the people here have no idea, by reason of the right censorship, of the actual situation in the Philippines, which is far worse, for the American forces, than is represented, even Manila itself not being safe. It is evident that the administration is determined that our people shall not know the truth. But murder will out."

Yes, murder will out! The awful murder of the freedom of the press, the suppression of free speech and publication, the annihilation of the right to pass an honest opinion on facts as you see them, the obliteration of the primary right of the citizen to criticize his government. In the name of all that is great and small, is a free land to suffer such degradation as that its citizens

hold one up, many of whom were accustomed to obtain a good part of their food by being skillful marksmen, and who had defended their homes against the savage foe, would make the best of soldiers. They were self-reliant, self-confident, skilled in landcraft, and have a perfect knowledge as to how to take care of themselves under circumstances, absolutely fearless whether alone or acting in a body, and who are the best material in the world for military service.

Their intelligence favors discipline and promotes respect for superiors, as well as absolute loyalty to the cause in which they are engaged. It is not surprising that they should have made a splendid record of patient endurance, undaunted courage and noble sacrifice. Coming from the ranks of the best of our citizens, they have made a bright chapter in our history, and will return to their different communities to become again most highly respected and worthy citizens.

"I feel sure that their welcome will be becoming alike to the communities that will receive them, as well as to heroes who return, and that their noble services will be ever appreciated."

JOURNAL X-RAYS.

The Salem Sentinel seems to cast doubt on Marion county having her proper quota in the penitentiary.

It would seem as though there were better ways to utilize the Filipinos than shooting them; but they would be utilized.

The headline over the Astoria Herald floats on a beautiful expanse of water. Editor Curtis does not float on water if he can help it.

They do say that Chorch McBride has secured dot Bostoff's site for Cholby Riley. Pully for Cholby; he has long deserved a pension.

Every editor knows that no man can become a "leading citizen" until he patronizes the advertising columns of the newspapers.—Exchange.

The Eugene Guard has daily telegrams from down up the river announcing the progress of the steamer Eugene as it climbs toward the Cascade's frozen gorges.

Oregon Republicans ought not to kick at electing men to office who reward their relatives instead of their friends. Nepotism has become a cardinal principle of modern officialism.

The man who advocates the good and right and pure and true and noble and beautiful, etc., may get it in the neck about as often as the other fellow, but I don't seem to hurt him as much.

The Portland Newsboys Saturday Eye says: The blissful season has arrived when the watermelon social will eclipse the cake walk in colored society.

Organizations and enterprises of all kinds are continually striving to get their affairs before the public through the press and so are all merchants who have real enterprise. If you have a worthy thing it pays to keep it before the public.

Why is it that several prominent Salem merchants refuse to bid on supplies for the asylum, "as long as Paine has control"? Dealers who have never before declined to bid, say that they cannot stand the methods. Is he too honest?

Rev. Oliver, a Baptist minister from McMinnville, who has been a good sufferer from inactivity of the stomach and liver for a number of years, is stopping at the Star boarding house for a few weeks. He thinks that the nicely prepared food that he receives at the boarding house and the soda water will greatly improve his health.—Sodaville Item.

Bob Hendricks currying favor with the administration by his long flowery letter resigning the Portland appraiser's office is signing when it is remembered that he only got the office to fill until Col. Summers returns, and it is only a bluff to pave the way for some other fat place. Republicans are so unaccustomed to his keeping an agreement that they consider his letter a mark of great virtue.

CURRENT EVENTS.

Today being the anniversary of the death of President James, all Mexico was on a pilgrimage to the beautiful tomb in the national pantheon, of San Fernando, erected over the ashes of Mexico's liberator and greatest benefactor.

The Knights and Ladies of the Macabees will have full possession of Port Huron, Mich., during the next few days, the occasion being the biennial convention of the Supreme Tent of the Knights and the Supreme Hive of the Ladies Auxiliary, both of which were formally opened yesterday. The past year has been a period of prosperity for the order, as is evidenced by the unusually large number of delegates and visitors on hand. The order now numbers about 325,000 members, while the Ladies of the Macabees report a membership of 31,773, making it the largest fraternal beneficiary organization in the world composed entirely of women.

Indianapolis, Ind., is filling up with the advance guard of the delegates to the international conference of the Epworth League, and the success of the gathering already appears to be assured. Special trains, bearing thousands of delegates, are reported on the way from California, Texas, Canada, New York, New England and various parts of the South, where the League has a large following.

Stories continue to drift into London from India concerning the dissatisfaction and adverse comment said to have been excited at Simla by the severe form of etiquette favored by Lady Carson, formerly Miss Mary Leiter, of Chicago. It is reported that at an ordinary society function all the ladies rise from their seats directly the viceroyn's wife rises from hers and remains standing until she either resumes her seat or takes her departure. Even Lady Curzon's own sisters, it is said, observe the same form of homage in the private apartments of the Vicereine.

The annual session of the Monona Lake assembly at Madison, Wis., with a good attendance of campers. The assembly continues two weeks during which time a number of well-known speakers and educators will be heard. Popular topics will be treated to a greater extent than in previous years and as a consequence the attendance promises to be unusually large. Among the speakers scheduled for this week and next, are Miss Jane Adams, of Chicago; Rev. Thomas Dixon, Jr., Congressman Dulliver, Ignatius Donnelly and Rev. Frank De Witt Talmage.

With one exception the through trains of the Burlington Route are almost invariably well-filled. The exception is our St. Paul-Chicago Limited. On the limited there is usually room and to spare.

A LIFE SAVED.

Dr. J. F. Cook, the Botanical Specialist, Succeeds Where Others Fail.

To whom it may concern:
This is to certify that Bertha P. Conner, of Mt. Angel precinct, Marion county, Oregon, has suffered from a cancerous growth in the left ear for about three years. The growth was cut out twice and burned out once by Albany Physicians, but the growth came back as bad as ever and pained her so badly that she had to be taken from school. After three weeks' treatment by Dr. J. F. Cook, of Salem, Oregon, the Botanical Specialist, the growth entirely disappeared, and at this date, four months since treatment was begun, the growth has not reappeared, and the ear has entirely healed leaving only the scars indicated by the Albany doctors.

I hereby certify that the above statement is absolutely true, and that Bertha P. Conner, the person mentioned in the affidavit, has resided in my family since early childhood, bearing the relationship to me of niece.
H. C. LONG,
