AGUINALDO

Appeals to the Powers.

China Inclined to Grant This.

Three Transports to Leave Manila Soon.

By Associated Press to the Journal.

MANILA, Aug. 8.—Aguinaldo has appealed to the powers for recognition of "Filipino independence," in a document dated Tarlac July 27. It has been received by all foreign consuls in Manila with the request that they forward it to their respective governments.

The Filipinos use the argument that they had conquered the sovereignty of the islands from Spain before the signing of the treaty of Paris and therefore Spain was in no position to cede them to the United States.

NEW YORK, Aug. 8.—A special to the Herald, from Washington, says:

Some uneasiness prevails in military circles relative to the attitude of China with respect to the Filipinos, as a result of her refusal to permit the shipment of horses purchased by agents of General Otis to Manila, on the ground that they are "contraband of war."

While Peking the government has not formally recognized the belligerency of Aguinaldo, her announcement that horses are contraband is regarded as dangerously near recognition.

Officials interpret the action to mean that China holds that this government, instead of being engaged in the suppression of an insurrection is involved in a war and that goods purchased in her empire for the use of the American army are consequently contraband.

WASHINGTON, Aug. 8.—Following has been received from Otis: Manila: A three days typhoon, is raging, rendering work on the Bay impossible. The transport Sheridan with the Minnesota and Dakotas and discharged soldiers sails for San Francisco on the 11th. The Valencia and Zealandia, when loaded requiring ten days good weather, will leave with Montanas and discharged men.

They argue that possession of 7000 Spanish prisoners captured with arms, fighting against the Filipinos, is an eloquent proof of nullity of Spanish sovereignty and that when they surrendered Spain's hold was irrevocable lost.

The document appeals to the powers to influence Washington to bring to a termination and unjust war which is devastating the country."

WASHINGTON, Aug. 8.—Aguinaldo's address does not worry officials here. There is no idea any foreign government will heed the address. It has been the desire of Aguinaldo and associates from first to secure such recognition and as the parliament has put the desire into formal shape it may bring to an issue the position of outside governments.

It is stated parliament does not share the apprehension that is said to exist among the army officers that China gives indirect recognition to the Filipinos by refusing allow the Americans to ship horses from China to Manila, because they are "contraband of war." Minister Conger reports China's course due to certain demonstrations prohibiting exportation of horses to Ponce.

CYCLONE.

Sweeps Over the Island of Martinique.

By Associated Press to the Journal. FORT DE FRANCE, Martinique, Aug. 8.—A cyclone prevailed yesterday on the island of Guadeloupe. Many small fishing boats, schooners and two small steamers were wrecked and sunk. Plantations suffered heavily.

LABOR POLITICAL PARTY.

Steps Taken to Organize One in New York.

NEW YORK, Aug. 8.—In response to a call issued some time ago by the Central Federated Union, 21 delegates, representing 165 labor organizations, met in Clarendon hall to consider the advisability of forming a permanent labor political party. President Samuel Prince, of the Central Federated Union, acting under the instructions of that body, called the meeting to order.

admit Edward Friday, who had credentials from the Clothing Salesmen's Union, on the ground that he is a Tammany politician and an inspector on the Third avenue railway, and not a bona fide salesman. William Martin, with credentials from the Knights of Labor local assembly of 1883, was rejected on the ground that he had been a candidate on the last Republican ticket. It was decided also not to admit delegates claiming to represent central bodies, like the district assemblies of Knights of Labor and the Central Federated Union.

Joseph Baronos, of the tailors, leader of a score of strike, made a passionate appeal for organization. "Why should we longer wait?" he asked, to have more jails filled and more indignities heaped upon us? I tell you the time to act is now. Tammany Hall sent me to prison, and the capitalists sent that heroic leader, Eugene V. Debs, to a prison cell for your rights. But the time to end it all is here, and labor must strike. Now is the time. New York is the place. Organize!"

Baronos was loudly cheered. The proposition to form a permanent organization was then submitted to a vote, and the following officers were elected: Chairman, William J. O'Brien president of the board of walking delegates and of the Granite-Cutter's Union; vice-chairman, T. M. Daly; secretary, Ernest Bohlen; treasurer, Patrick McCarty; sergeant-at-arms, Richard Cooney.

STATE TRIAL

The Notorious Dreyfus Case

Conducted With Secrecy and Red Tape.

High Officials to Be Charged With Perjury.

By Associated Press to the Journal.

RENNES, Aug. 8.—Police arrangements in the vicinity of the Lycee this morning are the same as those yesterday but not more than a hundred persons had gathered at the hour fixed for the days proceedings in the trial of Dreyfus.

The prisoner was conducted to the Lycee at 6:15 a. m. secret sitting lasted until 11:15, when the court adjourned until tomorrow. The day passed so far quietly. Paris 8 the jury today says there are grave contradictions.

General Mercier and Former President Casimir Perier were before the court of cassation and it is understood that the counsel for Dreyfus is preparing a dramatic coup. Counsel proposes that when the respective depositions are presented to the court martial to charge either Mercier or Perier with perjury, the arrest would then occur while the accused is still in the witness box.

An evening paper here caused a sensation by including among the supplementary witnesses whom Colonel Jonaste announces he is to summon personally the name of De Muller, officially described as a merchant of Lille, but whom the paper characterizes as witness from Potsdam, asserting that he will testify concerning an incident which occurred in Emperor William's cabinet.

It is also said that there is a witness named Wilton, a merchant of Lyons, who, according to the same paper, was the witness to whom Colonel Jonaste referred as having seen Dreyfus conversing with German officers during his stay in Alcaez. Everything is quiet this evening.

Malame Dreyfus visited her husband this afternoon and found him hopeful, though much unnerved, as the rigorous examination and especially the unfeeling demeanor displayed toward him proved a tremendous strain.

There are many persons who were present at the trial now under the impression that the harshness of the presiding judge was assumed and was intended to disarm the enemies of Dreyfus who are exceedingly anxious to intercept ordinary courtesy into the grossest partiality toward the prisoners. If this be the case, and such an explanation is quite plausible, Dreyfus is naturally unaware of it, and the effect upon his highly strung nerves must be very severe.

A NEW YORK MYSTERY.

Wealthy Merchant Accused of Attempt to Murder His Wife.

NEW YORK, Aug. 8.—Mrs. Annie Kronmann was found by her husband in her home on Eight avenue unconscious, with two five-inch gashes in the back of her head. Beside her on the floor lay a bloody hatchet. The flat was in perfect order, and Mrs. Kronmann's jewelry, valued at several thousand dollars, had not been disturbed. There was no evidence of a struggle. The woman had evidently been struck down while passing through the private hallway. Mrs. Kronmann was removed to the hospital, and up to a late hour had not regained consciousness.

Nathan Kronmann is a wealthy fruit commission merchant. Kronmann was permitted to visit Roosevelt hospital. Afterward he was asked by the police to go to the West Thirty-fifth-street station. He was informed that he was not under arrest, but that he was "merely detained." To persons familiar with local police methods, this means the equivalent of being arrested. The police say they have learned that a woman had been much in Kronmann's company of late, and that she called frequently at his place of business. Kronmann and the woman, the police say, would spend several hours in each other's company on such occasions, and he always arrived home late. When his wife demanded explanations, he pleaded business engagements.

Kronmann was seen to leave his place of business, accompanied by the woman, and he admitted that he did not reach his home until 7 o'clock. When examined at the police station, his coat sleeves and cuffs were found to be stained with blood, but he explained this, saying that he had received the stains while lifting his wife out of the hallway.

Kronmann was placed under arrest. He is charged with having murderously assaulted his wife.

Justice Court.

The case of L. J. Davenport vs. Fred Dose is on trial this Tuesday afternoon before Justice Johnson. The plaintiff, Davenport, alleges that the defendant owes him some \$30 as a balance due him for purchasing and handling oats for defendant. Dose makes a general denial and puts in a counter claim on the ground that the oats fell short of plaintiff's measurement and he lost money on the goods. Bonham, Jeffreys and Martin are attorneys for the plaintiff, and John A. Carson for defendant. Trial is before a jury consisting of W. W. Hepburn, Frank Post, C. H. Lane, Scott Rozorth, T. T. Tucker, Earnest Anderson.

He Says Negotiations Are Progressing.

By Associated Press to the Journal.

WASHINGTON, Aug. 8.—The state department has received from Italian authorities a copy of a report by Marquis Romano on the investigation into the lynching of five Italians in Louisiana. The report contends that Dr. Hodges first drew a weapon and that the first shot by Deftata was in defense of a fallen brother and not a wanton attack. Conceding some extenuation in the lynching of the two immediately concerned in the Hodges killing, Romano contends that the lynching of the other three was a thing of particular atrocity.
