MILITARY SITUATION IN SOUTH AFRICA

Dewey Endorses the Proposition to Make the Isthmian Canal Neutral.

A FEELER THROWN OUT TO PREPARE THE PUBLIC FOR A TREATY

An Officer of the Russian Army Shows How His Government Has Been Misrepresented—Efforts of Americans to Keep Down Indemnity is Appreciated By the Chinese.

CAPE TOWN, April 29.—A party of Boers blew up the railroad between Graspan and Belmont, Cape Colony, in three places April 27th, apparently with intention of intercepting a train carrying Cecil Rhodes. Damage done was slight.

LONDON, April 29.—Kitchener reports as follows: "Kitchener's scouts under Grenfell captured Van Kansburg's laager at Klipplam, north of Pietersburg. Seven Boers killed, thirty-seven taken prisoners."

New York, April 29.—Great Britain is dissatisfied because the war in South Africa still drags along, says the Tribune's London correspondent. During the last few weeks the movement designed to sweep the Northern Transvaal has been in progress and a good many Boers have been captured, but the impression prevails that the totals include more old men and boys left on farms than bona fide prisoners and at the rate of a couple of hundred captures a week, it will take a long time so get rid of 15,000 Boers who are still believed to be under arms. Some people argue that the British army is even now not strong enough for the task in hand. Meanwhile Mr. Brodrick's scheme of army reform is condemned by nearly every competent critic. It is generally admitted that the regular army will not be strengthened materially until the attractiveness of the service is increased.

New York, April 29.—A special to the Herald from Washington says: In agreeing to insert in the proposed Isthmian Canal treaty a provision establishing the neutrality of the projected waterway, Secretary Hay has taken action which meets with the full approval of Admiral Dewey and the majority of naval officers. When told that the President would pledge the United States to observe the principle of neutrality in the conven-

tion under negotiation, the Admiral ejaculated: "Splendid. More than a year ago I said that the canal should be neutral. I am more convinced today for the necessity of such action. Erection of fortifications would make the canal one of the prime objectives of our enemy's operations in time of war. Besides their construction would entail enormous expense and necessitate constant expenditure to keep them manned and in proper condition. I see no necessity for them. "The neutrality of the canal can be guaranteed by our fleet. The canal is to be a commercial waterway and neutralization therefore will mean its preservation."

WASHINGTON, April 29.—The Chinese Minister today stated that information reaching him, shows that the Imperial authorities are doing their utmost to avoid a clash between the Chinese forces and those under foreign command. Chinese authorities have taken occasion several times of late to make known the appreciation of American efforts to keep the total of the indemnity down to a sum which China could reasonably meet.

New York, April 29.—General D'Artamannoff, an officer of the Russian army, who has been on duty in Manchuria and who is returning to St. Petersburg by way of the United States, has arrived in Washington. Speaking of affairs in Manchuria to a Herald correspondent last night, he said: "There has been a marked improvement in conditions and the country is now pacified. Commerce is being revived, navigation has been resumed, people are again at work on their farms and the natives are being handsomely paid for their work on the great transcontinental railroad. The Russian army is being gradually reduced and in view of this fact the statements that Russia has improper designs on that country are ridiculous and absurd. The military operations of the Russians were not directed against the people of Manchuria but against the Chinese army which had been sent there. "Our treatment of the people was

most friendly and humane. In this regard we were simply carrying out the absolute orders of the Imperial authorities, both those of the Czar and the commander-in-chief of the military and naval forces, Admiral Alexieff. There is a vast difference between the conditions existing in Manchuria and those in the Province of Pe Chi, in which Peking is situated. In the former the people are tranquil and the country prosperous while in the latter the conditions are, in many respects, the reverse. There is absolutely no foundation for stories of cruelty and butchery by the Cossacks and these statements do the Russians a great injustice. Our course throughout is in keeping with the imperial orders to be humane.

"Blagoveschensk, which was attacked by Chinese troops last summer, was garrisoned by only one company of two hundred Russians and the commandant, to have sufficient force to defend the town, supplied the inhabitants with arms. The latter, infuriated by the sight of Russians carried on long poles by the Chinese troops, drove all the Chinese from the place and many were drowned in the Amur. The Russian troops took no part in this movement, and deep regret is felt that such an occurrence took place."

A FATAL FIRE IN PITTSBURG

PITTSBURG, April 29.—Fire today resulted in loss of one life, and property loss estimated at \$225,000. Fire consumed over a dozen buildings and rendered a score of families homeless. Flames started in the basement of a four-story department store. Mrs. Dumbley and child were on the fourth floor. In her haste to escape the mother fell on the stairway and was rendered unconscious. In the excitement the child was either forgotten or burned before aid could reach it.

JAPAN FORTIFYING IMPORTANT HARBOR

BERLIN, April 29.—The St. Petersburg correspondent of the Cologne Gazette says it is announced from Tokio that the harbor of Matsunai, capital of the island of Yesso, opposite Vladivostok, is being transformed into a naval port. The work is already almost completed.

DOING TRUST ACT FOR STEAMSHIPS

LONDON, April 29.—The first step in the direction of the consolidation of some of the biggest trans-Atlantic shipping interests has been accomplished by the purchase by J. Pierpont Morgan & Company of Lejand line steamers.

BRITISH LEASE ISLAND FOR BOERS

HAMILTON, Bermuda, April 29.—There is considerable excitement in Bermuda over the expected advent of 1500 Boer prisoners. The British government has leased Darrell's Island, one of the largest islands in the sound.

Alfred G. Vanderbilt, who has been ill with pneumonia at his New York home, is said to be out of danger.

"Where there's life there's hope." Never give up, that's the idea; for often the most serious cases take a sudden turn for the better and rapid recovery follows.

Perhaps you are very ill now and have a doctor; yet the medicine doesn't seem to go just to the spot. Then why not ask your doctor if he doesn't think that Ayer's Sarsaparilla is what you need. Doctors are very friendly toward this Sarsaparilla, for it is the oldest, safest, and strongest. They say there's more cure in a teaspoonful of it than in a tablespoonful of the ordinary kind.

No matter if you have taken other Sarsaparillas and any quantity of other medicine, remember—Where there's Ayer's there's hope.

"I suffered greatly from impure blood. I was treated by a number of physicians, but they did me no good. I tried many kinds of patent medicines, but without effect. But when I tried Ayer's Sarsaparilla I got hold of the right thing, for I was soon completely cured."—R. P. CROUSE, Attica, N. Y.

One dollar a bottle. All druggists.

Ask your doctor what he thinks of Ayer's Sarsaparilla. The probability is he has prescribed it a great many times and knows just what it will do. Then ask him if he does not think it is precisely the medicine you need this Spring. J. C. AYER CO., Lowell, Mass.

HON. J. C. TRULLINGER OF ASTORIA DEAD

Was An Oregon Legislator, Pioneer and Prominent Citizen.

Astoria Millowner and One of the Organizers of Republican Party.

Death of a Druggist's Wife and a Washington Suicide.

ASTORIA, April 29.—Hon. John Core Trullinger, one of Astoria's oldest and most respected citizens and business men, and one of Oregon's early pioneers, died at his residence in this city Sunday morning from hemorrhage of the brain. He had been seriously ill for several days, and his death was not unexpected. The funeral will be held from the family residence Tuesday. Deceased was actively identified with the early history of Oregon, and was interested in the establishment of some of the most important business enterprises in the state. He was born in Indiana 1828, came across the plains with his parents to Oregon in 1848. Shortly afterwards, Mr. Trullinger went to California, where he engaged in mining, but returned to Oregon, leaving San Francisco January 1, 1850, on the schooner C. H. Montague. On reaching Oregon he engaged in business at Milwaukie, but later owned and operated lumbering and flouring mills on Fanno Creek, at Oswego, and the Centerville mill, near Forest Grove. In 1875 he came to Astoria and for many years had been engaged in the lumbering and electric lighting business here. Mr. Trullinger had held various offices of public trust in Astoria and Clatsop County. He was Mayor of the city from 1886 to 1888, and previous to that time was a member of the City Council. In June, 1892, he was elected to the state Legislature and served during the session of 1893. He was one of the organizers of the Republican party in Oregon in 1856. He leaves a widow and six children, Perry A. Grant, Thomas, William C., Thaddeus and John Trullinger, of Astoria; Mrs. T. T. Geer, wife of Oregon's Governor, and Mrs. W. D. Mack, of Aberdeen.

Do You Want to Be Cured?

When the quack doctors who cannot cure you, have got all your money, they advise you to "change climates." Dr. Cook would advise you to change doctors not climate, and get cured. He has cured scores of people in Salem and vicinity, and can cure you if you have the courage to break away from the "morphine hope doctors," and take a course of rational herb treatment such as he would give. Dr. Cook is a graduate in medicine, and is a natural physician. He practiced in Omaha, Nebraska, for several years with marked success. His patients include many of the best people of Salem. He has cured cancer, tumors, gravel, kidney and bladder troubles, bone disease, asthma, skin diseases, all without the use of the knife or poisonous minerals or mineral of any kind.

Do Not Listen to "Cappers"

Who are hired to defame me and my methods of treatment. If I could not cure people they would be no use to me. It is because I do cure people that I am persistently misrepresented, but I keep on curing folks just the same, and some of the best people in Oregon stand by me, for which I am thankful. Send for Circulars containing testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you must not be cured. Dr. Cook has cured hundreds of people whose cases have been pronounced hopeless by the "old school" physicians. The doctor has devoted the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies, until he knows absolutely just what he can do. This gives him confidence.

Dr. J. F. Cook Botanical Physician Office, 201 Liberty St. Salem, Or.
