MANY MILLS CLOSED IN THE IRON REGIONS

But a Few of the Union Men are Still Working.

AMALGAMATED ASSOCIATION CALLING FOR FINANCIAL AID

San Francisco Unions are Gaining Strength — Their Position Better Than a Week Ago — May Be Several Weeks Before Things Move.

PITTSBURGH, Aug. 12.—The Amalgamated Association has failed to make good its threat to stop upper and lower union mills this morning. Republic, Painters, Lindsay and McCutcheon and Franktown pudding and rolling mills of the continental department of the National Tube Company, were closed this morning.

The Lindsay and McCutcheon plant started up later with a small force. The mills of the American Sheet Steel Company at Vandergrift, Apollo, Leechburg, Hyde Park and Saltburg are all running full. None of the old men failed to report for work.

The departments of the National Tube works at McKeesport are closed as: The National mill 2000, Boston Iron and Steel mill 500, Managahela Steel mill 40. The McKeesport strikers severely criticized the action of the Chicago and other Western men in refusing to come out. Twelve mills were started at Wellsville today, making a gain of one. The Amalgamated Association has issued a general appeal to organized labor for financial assistance.

President Shaffer said: "We have no official information about the situation in the West. I do not believe that Vice President Davis, of Chicago, has accepted a superintendency from the trust as reported. My only regret is that the men working in the slave pens of the trust had not spirited enough to come out and join the strikers. I will not take any part in calling the American Federation of labor. Its action must be voluntary. The Amalgamated has not lost anything, but made gains.

"Secretary Williams said: "I think the greatest surprise of the strike will come to the steel officials when they find we have invaded the Carnegie plant. We have reliable reports that the lower city mill is tied up, and that but one mill in the upper plant is on. We have not made known our plans, and still have some surprises for the manufacturers.

BIRMINGHAM Ala Aug. 12.—The forty-seventh annual convention of the international typographical union was called to order here today by President Joseph M. Lynch. Delegate Govan of New York, offered a resolution to consider the relation of taxation to wages, which was referred. The sympathy and moral

He Has Saved My Life

State of Oregon vs. Salem, Ore, May 1, 1900
To whom these presents shall come greeting,
This is to certify that I have been afflicted with ovarian tumors for a number of years, also liver trouble. I desire to publicly state upon removed said tumors, two in number, without the use of knife, plaster or poisonous drugs, and that I am entirely, and as I believe permanently cured. I cheerfully recommend Dr. Cook to all persons afflicted as I was. I feel that he has saved my life. My home is three miles south of Turner, Oregon.
MRS. CAROLINE ROTZOLL
Subscribed and sworn to before me this first day of May, 1901.
W. W. HALL, County Clerk.

Do Not Listen to "Cappers"

Who are hired to defame me and say methods of treatment. If I could not cure people there would be no use to fight me. It is because I do cure people that I am persistently misrepresented, but I keep on curing folks just the same and some of the best people in Oregon stand by me, for which I am thankful.
Send for Circulars containing testimonials from patients cured both in Oregon and in the East. Don't despair because you have been told you have been told you could not be cured. Dr. Cook has cured hundreds of people whose cases have been pronounced hopeless by the "old school" physicians.
The doctor has devoted the best years of his life to the study of disease, and the use and action of Nature's vegetable remedies, until he knows absolutely just what he can do. This is his life's confidence.
Dr. J. F. Cook, Botanical Physician
Cures all kinds of diseases.
Office: 301 Liberty St. Salem, Or.

TO UPSET MONROE DOCTRINE

New York, Aug. 12.—A dispatch to the Journal and Advertiser, from Paris, says: Germany certainly, and probably France also, are striving to upset the Monroe doctrine by trying to purchase Cayo Romano and Coyo Cruz, two of the islands of the Greater Antilles, just off the northern coast of Cuba. Both islands are very fruitful. They are the property of Prudencio Ebansey Gaya, a rich Spaniard living here. Neither country seeks to buy the islands directly. Germany seeks to gain control through a German syndicate the chief of which is Baron Adolph Oppenheim, of Paris. Cayo Romano is the third largest Spanish island of the Greater Antilles and both islands being the nearest to the United States coast, would give foreigners power through a commanding position.

The French Jesuits who are compelled to leave France are bidding for the islands. The French government prefers that the Jesuits get them rather than the German syndicate because notwithstanding the practical expulsion of the former Frenchmen, their interests in the islands could be arranged in exchange for other concessions. Ambassador Porter, though not in Paris, has cabled to the State Department concerning the purchase. It is understood that he believes France is satisfied with Martinique, but that Germany is working tooth and nail to get control of the islands.

RUSSELL WANTS CLEMENCY

New York, Aug. 12.—Commenting upon the disposition of the case of Earl Russell, recently sentenced for bigamy, the Tribune's London correspondent says: A final effort is to be made by Earl Russell's friends to induce the Home Secretary before he leaves town to advise the King to extend his clemency toward the noble prisoner now in the Holloway jail. Their argument is that the lord High Steward admitted in the passing sentence that the records of the courts and the House of Lords showed that the defendant had had much provocation, and it is further contended that had the trial take place at the Old Bailey a month's imprisonment would probably have been the outside limit of his punishment.

FLOUR FREE TO CHINA

WASHINGTON, Aug. 12.—The State Department has received a cablegram from Mr. Rockhill at Peking, reporting that the draft of the final protocol has been agreed upon. A tariff five per cent ad valorem, will be put in force two months after the signing of the final protocol excepting on goods shipped within ten days after the signing will continue until a conversion to specific rates is effected by an expert commission. The Chinese free list will include rice, foreign cereals, flour, gold and silver bullion and iron. The inclusion of flour in the list is of much importance particularly to Pacific coast shippers.

OUR CONSUL GETS ORDERS

WASHINGTON, Aug. 12.—Dr. Russell, American charge d'affaires at Caracas, Venezuela has been authorized by the state department to use his good offices as a representative of Colombia in case the Colombian minister should withdraw from Venezuela. This is in response to a request for instructions.

Was Greatly Surprised.

HOBOKEN, N. J., Aug. 12.—Herman Ehrlich, a contractor of 111 Monroe street, left today for Hamburg, Germany. His father died a short time ago, leaving an estate of \$1,000,000, one-eighth of which Mr. Ehrlich will get. The surprise is the fact that no one supposed the old man was worth one-tenth of the sum he left.

Tennis Championship

Newport, R. I., Aug. 12.—The annual national lawn tennis championship games in singles and doubles began today and will last through the week. The winners here will play Little and Alexander, who are at Chicago.

DISEASE AND STARVATION REPORTED IN PORTO RICO

Yellow Fever Discovered in Mayaguez Placed Under Guard.

GREAT POVERTY IN PATILLAS AND BAD SANITARY CONDITIONS

Base Ball is the Fad Among Officials at San Juan—Free Trade is Reducing Number of Custom House Clerks—Thirty-one Men Removed.

SAN JUAN, Porto Rico, Aug. 5.—(Correspondence of the Associated Press)—Baseball is becoming a great fad here. Most of the American colony are great "fans" several clubs have been organized and nearly every Saturday afternoon a game is played between two picked nines. The interest became so great that a league was proposed. The plan took well with the people and six clubs have been formed from the clerical force of the various government offices. A number of Americans employed by private concerns and several Porto Ricans are members of the different clubs. All the clubs have sent to the United States for uniforms. Not a few of the players could draw salaries in professional lists. Grounds have been secured at Puerra de Tierra, about 10 minutes trolley ride from San Juan. A large subscription list was to defray expenses. The diamond will be leveled and filled. Two games will be played each Saturday afternoon. The removal of the tariff on goods brought into Porto Rico from the United States has made a reduction in the number of customs employees necessary. Thirty-one men were notified that their services would not be needed after August 5 and two transfers were made. Ten took their heads at San Juan, seven at Ronce, five at Mayaguez, three at Arecibo, two at Aguadilla, two at Arroyo, one at Humacao and one at Fajardo.

A case of supposed yellow fever was discovered last week in a house near Mayaguez on the western coast. The city authorities at once placed guards around the house and did not permit the inmate to have any communication with the outside world. Several deaths have occurred recently near Patillas, in the eastern part of the island, which are said to be due to starvation. The sanitary conditions at Patillas are extremely vile. There are no beds or cots. The inmates using in hammocks or have a "nest" in one corner of the room. As the municipality is in straitened circumstances, it is impossible to relieve these conditions. An exceedingly large percentage of deaths in this district are from starvation. This is considered rather strange in view of Porto Rico's prosperity.

ALFALFA PLENTIFUL

PHOENIX, Ariz., Aug. 12.—Reports received here from 23 points in the Territory all state the largest alfalfa crop ever known is now being gathered. The crop is the second one of the year and will be of extraordinary value at this time, when the hay crops of the General Western states are burned out.

WIRELESS TELEGRAM

New York, Aug. 12.—The Herald has received a dispatch by Marconi wireless telegraph from on board the Lucania, via Crookhaven, giving an account of the voyage of the Lucania, a distance of 60 miles offshore and away down the station. The report says among other things:
"Mr. William Moloch, postmaster general of Canada, is on board, and is greatly interested in wireless telegraphy."
"Mr. Louis Mann and Miss Clara Lipman are sitting in corners, studying a new Board play."

YEOMEN NOT PAID

New York, Aug. 12.—A dispatch to the Tribune from London says: Many imperial yeomen who have returned from South Africa are still complaining that they have not yet received their arrears of pay. It appears that in the case of more than 20,000 yeomanry battalion no account was kept of advances made to the rank and file in South Africa. The war office authorities consequently cannot tell what amounts are now due to some of the men, and they have decided not to settle any claims until proper accounts have been rendered. The affair is becoming a perfect scandal, and is certainly not simplifying the work of

HIRED MURDERER TRIED

VANCOUVER, B. C., Aug. 12.—A Chinese gambler named Ah Woody was last night committed for trial for the murder of four Chinese. It is charged that he paid for the commission of the crime. They were the four Chinese killed last month in a boarding house at Ladner's Landing near Vancouver. They were hacked to death with an axe in the hands of Quong, another Chinese. A third Chinaman came to the police yesterday, saying that he had heard Woody and Quong discussing the plan of the murder. Woody offered Quong \$100 for killing the men and finally they agreed that Quong should get \$200 if he would dispatch two or more of them. Quong has confessed to committing the crime.

BUDDHIST FUNERAL

SAN FRANCISCO, Aug. 12.—Buddhist services in memory of the Oriental victims of the wreck of the Rio de Janeiro were held yesterday on the deck of the steamer Caroline in the Golden Gate over the spot where the lost vessel is supposed to lie. The Caroline was chartered by K. Ogawa, a wealthy Japanese, and had on board 250 of the Mikado's subjects as his guests. The steamer was garlanded with flowers from stem to stem and gaily tinted paper lanterns decked the rigging. When the appointed place was reached a little altar inscribed with strange characters was brought out and placed on a stand, heaped with flowers and fruits. Rev. Miahijima, head of the Buddhist mission, in mourning robes of black and purple, seated himself before this improvised shrine and began an incantation, low, monotonous and pathetic, while the assembled company listened with bowed heads. Then all on board joined in strewing the sea with flowers, fruits and confections, while some slips of tissue paper bearing the names of the ancestors of the dead were also assigned to the waves. This ceremony ended, the boat proceeded on a four hours pleasure trip around the bay. Refreshments were served and music and games enlivened the occasion.
