**Salem to Be Illuminated.**  
The illumination for the celebration will be the best ever seen in Salem. The work has been under the management of Radin K. Page, of the Citizens' Light & Traction Company, and thousands of incandescent lights have been stretched on State and Commercial streets that will make that section of the city as light as day. This, together with the splendid pyrotechnic display, will give Salem the appearance of a metropolitan city. A large number of flags will also be unfurled to the breeze along the line of march taken by the parade. Many of the

business places have been decorated and Salem is taking on holiday attire of the most attractive sort. If a prettier Salem has ever been witnessed than that which will be seen tomorrow by the throngs of visitors, our memory is at fault.

**Cheerfully Recommended for Rheumatism.**  
O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months, with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affection. 25c, 50c and \$1. For sale by D. J. Fry.

#### First Big Car Switched Onto the Little Electric Line

This morning the first big Chicago & Northwestern car of 70-pound steel for the Willamette Company was switched into the fair grounds from the Southern Pacific tracks and pulled with an electric engine down the fair grounds track of the Citizens' Light and Traction Company, and pulled onto the siding built on Broadway on property leased from the Salem hop firm that has bought a block of land out there. It is the first time that a car has been switched from the standard gauge to the electric line and shows that the whole system of street car lines of Salem is adapted to be absorbed by the Hariman system.

### FOR FOUR-HUNDRED YEARS

#### Law Suit That Cost \$150,000 and Value of Property in Dispute Was \$2,000

Nice, July 3.—The two villages, Ceran and Lanconque, in the Alpes Maritimes, have just held a celebration in honor of the ending of a great lawsuit which has kept the two villages divided ever since November 14, 1170. The question in dispute was the possession of a piece of land at Lanconque which each village claimed.  
A few days ago the court at Nice definitely settled the matter by dividing the land equally between the villages. The total cost of the law, during the 444 years amounts to about \$150,000, while the value of the land in dispute was about \$2,000. The documents which had accumulated the course of the centuries were deposited in 1,856 parcels, which weighed ten tons, and were stored in a large disused church.
