New State Furniture—The furnishing of Private Secre- tary Gates' office of the governor's is graced by the addition of a grand new Globe-Wernicke sectional cabinet which was just deliv- and set up this morning to replace the old cabinet, which, on account of its size, has outgrown its usefulness and is unable to accommodate the readily increasing volume of busi- of the executive department.

Useful Education—A business education was at one time considered useful only for those who expected to follow bookkeeping. It is not so now. Such an education is considered the proper kind for any one, no matter what his occupa- may be, and if a young person could succeed in business now, he will stand little chance without a thorough knowledge of accounts and kindred subjects. All of these are taught thoroughly and practically at the Capital Business College of Salem. Send for our catalogue. 2t

Who Is Convalescent—Franz Dich, the young German who was shot at the passenger depot several weeks ago by Policeman Busk, is so much improved that he is able to sit up. BACK FROM CALIFORNIA.

W. H. Downing Tells of His Impres- sions of California Enterprise.

W. H. Downing, president of the state board of agriculture, who has just returned from a three weeks' visit to Los Angeles and other points in California, reports that he was fa- vorably struck with the vast differ- ence in the character of improve- ments, municipal and otherwise, be- tween the states of California and Oregon and the great thrift and en- terprise displayed by the people of the former state.

Particularly was this so in respect to street and public highway improve- ment which appealed to his pride and native sensibilities in a manner that impressed it indelibly upon his mem- ory. He says the country roads, for 25 and 50 miles out of Los Angeles which have been treated with crude oil, are as good as the streets of Por- tland, but he also takes into considera- tion that oil is almost as cheap in California as water in Oregon. Mr. Downing took his son, George, who is a sufferer of hay fever into Orange county, where he located him upon an orange ranch to remain for several weeks until he recuper- ates his health.

News from Canby.

Canby, Ore., Dec. 17.—The South- ern Pacific has a large crew of Greeks at work here putting in an additional track to the large gravel pits. The large amount of traffic incident to the taking out of increased quantities of gravel for ballast purposes required more room and a more convenient way of getting in and out.

Cars for lumber are more plentiful and the local mills have made large shipments the last week. But they are still away behind with their orders and it will take many more cars to move the held-up shipment and also the orders coming in.

Canby petitioned the Southern Pa- cific some time ago to have the morn- ing and evening trains to stop here, but the request has not so far borne fruit. The evening train to Portland has fallen back into its old habit of being from one to three hours late. Canby people are looking forward to an electric line connection for the betterment of their condition.

Bottom of Lake Sinks for Thirty Feet.

Glenns Falls, N. Y., Dec 17.—A strange geological disturbance has occurred near Hague, Warren county, at the north end of Lake George. Here the bottom of the lake for an area of 1000 square feet has sunk. The spot has long been regarded as dangerous to navigation because of the shallowness of the water, which was never more than three or four feet deep. Today the lake at this point is over 30 feet deep, the bottom having sunk away. A coal barge was aground on the reef and efforts to dislodge it had failed. Suddenly the boat moved away with the cur- rent, an investigation revealing the strange disturbance. No other part of the lake as far as known has been af- fected.

A Close Season for Frogs.

Albany, Dec. 17.—Owing to the great demand for frogs and their con- sequent decreasing destruction a bill has been prepared and will be im- mediately presented to the legislature to prevent their total extermination. The bill provides for an annual close season during spawning time and en- acts penalties to prevent the destruc- tion of the spawn. At present there is no statutory check on the destruc- tion of frogs and the Fish and Game Protective association who are mov- ing on the matter are demanded that it be made unlawful to kill frogs dur- ing certain months of the year.

The New Harriman Company.

Salt Lake City, Dec. 17.—The Pa- cific Fruit Express company has com- pleted its organization today. It is a \$12,000,000 express company to handle perishable freight and is an adjunct to the Harriman interests. The scheme is the outcome of the new interstate commerce regulations, which, prevent the operation of private car lines that have hitherto monopolized the perishable freight busi- ness. The Harriman system had been using the Armour cars but have had several thousand of their own con- structed.

A Cotton Company With \$3,000,000.

Montreal, Dec. 17.—The North American Cotton company today com- menced the erection of large cotton mills at Shanlingan Falls outside of this city. The company only recently organized with \$3,000,000 stock. The Dominion Textile company, the largest in Canada has purchased a large interest in the company.

A Ship Under Arrest.

A British steamer has had the remarkable experience of being placed under arrest in Genoa harbor for twenty-one months, while Italian lawyers argued out a lawsuit in the courts. The legal wrangle is still proceeding, and the captain, losing patience, has outwitted the authori- ties and brought his ship to England, the escape being marked by exciting incidents.

The vessel is the Briardale, and is now lying in the Tyne. She has on board a motley crew, consisting of Arabs, Danes, Swedes, Germans, Italians, Greeks and a few English- men, the foreigners being signed as emergency men to assist in the es- cape. The Briardale sailed from Shields in March last year with coal for Genoa, and after the cargo had been landed at the Italian port the authorities placed the steamer under arrest pending the settlement of cer- tain claims made against the owners.

The Briardale was taken out of the breakwater and kept under close observation. The crew re- mained on board for four months, when they were ordered to return to England, and in the following month the captain and officers also made their departure, with the exception of the second mate, who was left in charge. After twenty-one months the law courts gave their decision in favor of the Briardale, and prepara- tions were made to take the vessel home, the captain, three engineers and others leaving England for Genoa, and a scratch crew being ob- tained in the port.

It was found that great difficulty would be experienced in getting the steamer home, as her bottom had be- come thickly coated with barnacle. She was accordingly dry-docked and overhauled. But while these prepara- tions were being made an appeal was lodged in the courts and the vessel once more placed under ar- rest.

The captain, however, decided to make a dash for liberty. Fortunately there was some coal on board and food was smuggled on to the vessel. The captain selected a day during which a fierce gale was raging for his attempt, and the vessel steamed away with appropriate dramatic effect, in a thunderstorm.

The authorities, however, had seen the move, and a tug was sent after the Briardale; the officials on board the former shouting out threats that they would bring about all the ter- rors of the law if the captain did not return. Just at this moment a loud roar was heard, which led the crew to fear that the fort had opened fire, but it was nothing more alarming than an exceptionally loud peal of thunder. The Briardale soon drew away from the pursuers, and reach- ed England without further adver- ture.—London Chronicle.

THE TRIP OF A LIFE TIME

The Salem Journal's Repre- sentative to the Jamestown Exposition Will Educate the East.

Arrangements have been made while our representative is east that she will be interviewed by the lead- ing daily papers throughout the ter- ritory covered. For instance, on the trip from Albany to New York which will be by boat on the far famed Hudson river, six of the leading daily papers of New York City will be present to ascertain all about the resources, climate and ex- isting opportunities for capital in Marion county. Photographs will be furnished our representative to be given eastern newspapers and wherever she goes the people will know that Marion county is on the map and offers homes to thousands of our eastern friends who freeze to death in winter and die of heat in summer.

Why Take Business Home?

The cause of this tense condition is in your stomach. Your food does not digest properly. Nine-tenths of all dyspepsia and indigestion is of the nervous type and the only cer- tain cure is to rick the cause. Tonics, brain foods, bitters, etc., are mere temporary stimulants. Your stomach and small intestines have become deranged by improper selec- tion of foods, imperfect mastication and irregularity both as to time and amount of eating.

CAN'T THROW OFF HIS CARES.

The mucous coating of the stom- ach and intestines has lost its pow- er of secreting the gastric juice (an important factor in digestion) the muscles of the middle coating are correspondingly lifeless in grinding up the food, and as a result, the food lies in your stomach fermenting, poisoning the blood, irritating the nerves and breaking down the sys- tem.

Something must be done to arouse the digestive organs to action. Stuart's Dyspepsia Tablets alone have been found capable of digesting the food for the unhealthy stomach. They contain diastase, pepsin and other digestive agents which the stomach itself possesses when in health. These agents digest the food for the stomach and give the stomach a chance to rest and regain its normal powers.

Stuart's Dyspepsia Tablets are not a patent medicine, for the formula for their preparation having been made public and known to 40,000 physicians in the United States and Great Britain. By government tests, Stuart's Dyspepsia Tablets have been shown not only to contain no harm- ful ingredients, but to possess diges- tives of higher purity than found in any other preparation.

Stuart's Dyspepsia Tablets are recommended by physicians every- where and can be bought of any druggist or direct from the manu- facturers at 50 cents per box.

If preferred, a free trial package will be sent you immediately upon receipt of name and address. F. A. Stuart Co., 73 Stuart Bldg., Marshall, Mich.
