Best draft (four horses) team to be shown in harness hitched to truck, wheels to weigh not less than 3000 pounds: First prize, \$9, to Gerrie and Lulu, Rose and Minnie, owned by J. F. Ziegler, Gervais; second prize, \$4.50, to Spaulding Lumber company, Salem; name of horses not given.

Best team of mules: Prize, \$6, to Kate and Jack, owned by McDowell Bros., Salem.

THE INCREASING LIST OF "MOTHER" STATES. Ohio may be the "mother of presidents", but Mississippi is apparently entitled to the distinction of being the "mother of senators".

This unique fact was recently set forth in a burst of patriotic oratory by Congressman Spight of Mississippi and comes to us embalmed, but still palatable, in the pages of the Congressional Record.

"Today we have what can be claimed by no other state in the Union, seven native sons of Mississippi in the Senate of the United States—Money and Percy, from Mississippi; Clarke, from Arkansas; Newlands, from Nevada; Gore, from Oklahoma; Chamberlain from Oregon; and Bailey from Texas. This is a record which has never been equaled."

Seven senators all at the same time! That is being a "mother" on the grand scale. Ohio may well tremble for her prestige. She has never been able to be the "mother" of more than one president at once. This looks almost like barrenness when compared with Mississippi's achievement.

So Say We All of Us. (Harney County News.) Regardless of any interpretation that may be put upon the language of the "corrupt practices act" by any official or politician, The News will publish such matter as it sees fit for or against any measure or candidate, whether the article be signed or unsigned, editorial or news, and will take all responsibility upon its own shoulders. It will be enforced that shall dictate to a newspaper what it shall publish or shall not, for or against any public measure or candidate.

Old Ocean Was There Once. The well on Mrs. Davey's desert claim north of Narrows was down 379 feet at last accounts and the drill was still in hard shale rock, which the drillers think is the capping for a strong water course. When a depth of about 250 feet was reached the drill buckets brought up as nice ocean-beach sand as you can find anywhere, full of beautiful crystals and fragments of shells, indicating that this valley must have been a great sea at one time. When that shale rock is penetrated, something is going to come to the surface.—Harney County News.

FARMER NELSON DECLARES HIMSELF FOR GOVERNORSHIP

Polk Co., Ore., April 7, 1910. Col. E. Hofer:—Through the kind courtesy of the Capital Journal permit me to make a few remarks pertaining to the office of Governor, to which position I aspire. My first and principal qualification is honesty. A further and very essential characteristic is intelligence or competency. He should be a man of good physical, mental and moral abilities;—one who loves his fellow-man, and has the good of his country at heart. In selecting a ruler choose one who is ever ready to do right and afraid to do wrong. Let the Chief Executive attend strictly to his own business, and the coordinate departments to theirs;—each receiving his authority as expressed in the Constitution of the state. In the intelligence of the good people of Oregon I rest my case.

Personally, I care little whether elected or defeated—yet that others may understand my attitude on different questions before the people, I will say—

First—I favor the Direct Primary law and Statement No. 1. Second—I stand committed to the development of the entire state; especially in the matter of common schools and good roads.

Third—I propose to have a clean, economical administration of state affairs. Fourth—it is my belief that Local Option gives all parties as near justice as any other law.

Fifth—Last, but not least, I endorse Woman Suffrage, because it is right. In conclusion, if you believe in Equal rights—equal laws and equal justice to every citizen, you have an opportunity of aiding in carrying out these principles as far as is possible.

Respectfully yours etc. N. F. NELSON.

PORTLAND CREMATORY PLANT TO BE BUILT

(Portland Journal.) The new crematory for which a contract was let yesterday by the city health board will be of such a capacity that 240 tons of garbage daily may be destroyed if necessary. As the normal amount of refuse will not exceed 150 tons a day the plant can be operated with two shifts of workmen, thus reducing the cost of operation greatly from what would be the cost if a plant of smaller capacity were built.

The plant will be what is known as a double unit plant. When working at its maximum it will consume 10 tons of garbage every hour. It is planned that the plant shall receive the refuse as fast as it is hauled in by the garbage wagons. This means that the expense of rehandling will be saved.

Another good feature of the crematory will be that it may be closed down for eight hours out of the 24, thus giving an opportunity to repair the machines in case repairs should be needed.

When the present incinerator at Guild's lake was repaired last year it had to be shut down for a week. The cost of the burner will be \$99,900. Under the terms of the contract, which will be signed by the Public Works Engineering company, to whom the award was made, the plant must be completed within six months from the date of signing. Thirty per cent of the contract price is to be paid the company when the burner is half finished; 30 per cent when it is completed; and 40 per cent with interest on the unpaid balance from the date of completion until the city accepts the plant, provided it complies with the plans and specifications.

SALEM CITIZEN WHO LIKES THE SERMONS

Salem, Ore., April 9. Editor Journal:—I have been a resident of Oregon for one year and been a subscriber for your paper all that length of time and wish to say I am an interested reader of the sermons of Charles Kussell and having purchased a complete set of his Scripture Studies, thought several times of writing you and requesting you to publish an article to call the attention of others interested so that we could arrange for a meeting (or at least to become acquainted) as I find several can do better in a scriptural study than alone.

If as many as are interested in organizing a class would drop me a card at R. D. S, box 23, I would be glad to meet them and make arrangements for organizing. Yours respectfully, W. K. BROWN.

COLONIST RATES TO OREGON AND THE Great Northwest

The management of the Southern Pacific Co., (Lines in Oregon) takes great pleasure in announcing that the low rates from Eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this spring DAILY from March 1 to April 15, inclusive.

People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all home-builders. Do all you can to let Eastern people know about it, and encourage them to come here, where land is cheap and home-building easy and attractive.

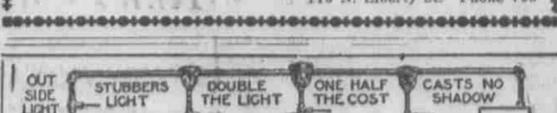

FARES CAN BE PREPAID at home if desired. Any agent of the road named is authorized to receive the required deposit and telegraph ticket to any point in the East.

REMEMBER THE RATES—From Chicago, \$33; from St. Louis, \$32; from Omaha and Kansas City, \$25. This reduction is proportionate from all other cities.
