APPRECIATE PLAN OF STATE INSURANCE
An appreciation of the work of the State Industrial Accident commission comes from E. J. Adams, president of the Harbor Sound Investment company of Eugene. Mr. Adams' letter follows:
Eugene, Oregon, July 31, 1914.
State Industrial Accident commission, Salem, Oregon.
Gentlemen: We take great pleasure in enclosing our report for the month of July and check No. 2361 to cover same.
While in our business of general construction work we have never had a man seriously hurt, we have always felt it a necessary business precaution to carry liability insurance.
Under the insurance system, had one of our men received a serious injury, the suffering and need of those dependent upon him as well as of himself would have been forced to the background and the question of whose negligence was the cause of the injury, together with the ever-present question of assumed risk, contributory negligence and the fellow servant doctrine, brought to the front and threatened over while those least able to bear the loss and suffering compelled to stand it, at least during the period of adjustment and possible litigation.
We are grateful that under the workmen's compensation law the day of haggling over these questions is past and immediate attention given to the extent of the injuries and assistance to the dependent ones as a matter of right and not a charity.
We hail the dawn of this new day when our business interests as well as human interests can be one with our faithful employees should any one of them unfortunately receive a serious injury, and are very glad we can contribute our share to this fund for relief, instead of a fund for defense.
The law in this state is not perfect, but it has come to stay for the principal of it is right and experience will point out the defects and means of strengthening the weak points.
Trusting your administration of it may be pleasing to both the employers and employees of the state, we beg to wish you success and remain,
Very truly yours,
Harbor Sound Investment Co.

PRESIDENT ASKS ALL TO KEEP THEIR HEADS
Says Government Is Prepared to Meet Any Financial Situation That May Arise From European War.
Washington, Aug. 3.—President Wilson appealed today, through the Washington newspaper correspondents, to the press of the country not to publish any sensational or unverified statements. He declared that the United States was expected to meet any financial situation which might arise from the European war.
Unfounded newspaper reports, he said, might cause unreasonable alarm.
The president told the correspondents that America could reap great and lasting glory by "seeing that no one lost his head."
"So far as this country is concerned," said President Wilson, "the excitement is without cause. There will be some temporary inconvenience to the money market, exchanges and in the handling of crops, but America is absolutely prepared to meet the financial situation and straighten out everything without difficulty."
The president urged calmness, saying bankers and business men everywhere were co-operating with the administration's efforts to prevent even the semblance of a panic.

EXCHANGES CLOSED THE WORLD AROUND
Montevideo, Uruguay, Aug. 3.—Not only was the bourse here closed today but the banks also failed to open. This was in accordance with the terms of a decree issued Sunday, suspending financial transactions until August 8 on account of the European war situation.
Clearing House Plans.
New York, Aug. 3.—Banks belonging to the clearing house association here today voted to go temporarily upon a clearing house certificate basis.
Same in Chicago.
Chicago, Aug. 3.—Local banks were issuing clearing house certificates today. Savings depositors were being required to give the legal notice before withdrawing their funds.
Japan Closes Exchanges.
Tokyo, Aug. 3.—Japanese exchanges were closed here today owing to the slump in securities due to the European war situation.
Americans Are Safe.
Washington, Aug. 3.—A cable was received today from United States Ambassador Herrick, in Paris, saying that Americans there were in no danger. He added that they would be able to leave soon.

RUSSIAN DOWAGER EMPRESS IN GERMANY
London, Aug. 3.—The dowager empress of Russia has been detained in Germany, by the kaiser's order, it was learned today.
The dowager had been visiting her sister, the English queen mother, but at the outbreak of hostilities started for St. Petersburg. From London she went to New Haven, crossed from there to Dieppe and took a train for the Russian capital. She had entered German territory when railroad service was suspended except for military purposes.
The kaiser, it was said, would either return her to London or send her to Copenhagen. She was a Danish princess.
For a time she could not be located, and the greatest anxiety concerning her was felt.
If you are looking for paying patrons of the better kind, or for a house where your room, meals and treatment will give you comfort, no matter which side of the proposition you are on, the widest choice will be found in the Journal Want Ad Columns.

HOP CROP IS SMALLER THAN THAT OF 1913
Junction City, Ore., Aug. 3.—An inspection of the hop yards along the Willamette River from Springfield to Harrisburg indicates that the yield will be at least 15 per cent less than last year. In every yard there is a large percentage of hills, in past years loaded with long shoots containing large clusters of hops and all of a uniform size, where this year the shoots or arms are very short and the hops scattering. Among the early varieties there is a very large percentage of the hops that are hardly above the blooming stage, while some clusters are two and three inches long. Unless rains are had soon the shortage will reach as high as 25 per cent of last year's crop. There are a great many hills missing in all the yards.

THE ROUND-UP
Bend is to have a free drinking basin for horses and at least two modern sanitary drinking fountains for thirsty folks on the streets, the council having accepted the offered donations of two local banks.
Tribute to human gameness, in the Cottage Grove Leader: "If the fire boys stand to their work with the same determination and grit they displayed in their water fight, there will never be any danger of a fight going against them, where it lies in human power to win."
"The Port of Columbia Commercial club," says the Astorian, "received a letter yesterday from Will Madison, now at Shipherd Springs, which was addressed 'Forty Feet of Water, Astoria.' It arrived O. K., and contained a dollar bill to pay for a month's dues in the organization."

PHYSICIAN SUICIDES.
Los Angeles, Cal., Aug. 3.—Dr. Edna M. Cahen, chief physician for the Southern California Edison company, committed suicide today by shooting himself through the heart.
We regret to note that Ven Carranza's desire to treat with Vie Huerta on the battlefield will not be gratified. Vie is now headed for Europe, and hereafter will do all of his treating in Paris.

LOGANBERRY JUICE COMPANY FORMED
Portland, Ore., Aug. 3.—That loganberry juice, made from the Oregon loganberry, is going to take a prominent place alongside of grape juice as a beverage, is the opinion of F. A. Breck, who has organized the Breck Fruit Juice company.
O. L. Ferris, president of the Columbia Investment company, is associated with Mr. Breck. Articles of incorporation were forwarded to the corporation department at Salem yesterday.
For this season the company is putting out between 2500 and 3000 gallons

RUMOR WOMAN WAS KILLED BY HER VICTIM'S SON
London, Aug. 3.—Communication with the continent was so badly interrupted today that it was impossible to learn anything further concerning Sunday's rumor that ex-Finance Minister Joseph Caillaux of France, whose wife was recently acquitted on a charge of murdering Editor Gaston Calmette, of the Paris "Figaro," had been assassinated by Calmette's 17-year-old son. The report's truth, however, was strongly doubted here.

ARRANGING TO TRANSFER MEXICAN GOVERNMENT
Saltillo, Mex., Aug. 3.—David Gutierrez Alencas and General Lauro Villar, President Carranza's peace commissioners, were here today to confer with General Venustiano Carranza, commander-in-chief of the constitutionalist army, regarding the transfer of the government to the constitutionalists.
General Carranza has received a telegram from General Francisco Villa at Chihuahua congratulating Carranza on the stand he had taken in regard to the peace commissioners.

Summer Advertising
Sales naturally go down in summer time because cheaper things are used and there are fewer wants to be satisfied.
But wise storekeepers realize they can utilize the warm weather to build business.
A customer who has a small summer need well satisfied is apt to remember it and return later when desires are more important.
Up-to-date merchants go after business in a definite, aggressive way in the "dull months." Evidence of this progressive spirit will be found in the advertising in today's Journal.
The men whose names are printed there want business, and they intend to make their advertising pay by supplementing it with good service.
