HIGHLAND SCHOOL TO BE PERMITTED TO RETAIN NAME

Wishes Of Parent-Teacher's Association To Be Respected by School Board

Out of deference to the wishes of the Highland section of the city the Salem school board will probably not change the name of the Highland school as was done in the case of the East school, the name of which was changed to the Washington.

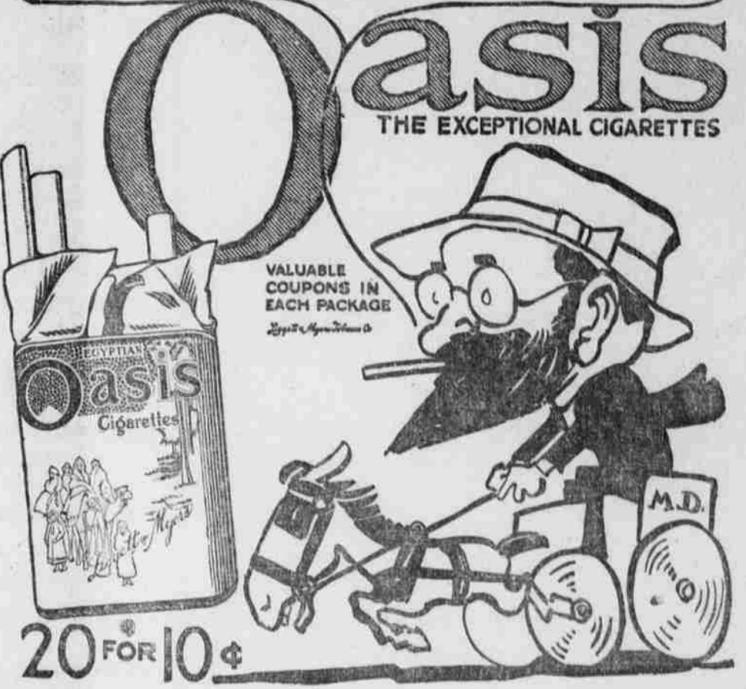

At a previous meeting when the school board chose the name of McKinley for the new Salem Heights grade school, to be constructed this summer, and also the East to Washington, the directors decided not to adopt new names for the other grade schools until the patrons of the different school were consulted and their wishes in the matter obtained and the matter was left to the parent-teacher's associations of the different schools. In conformity with this resolve the parent-teacher's association of the Highland school met and decided to retain the name of Highland, which was satisfactory to all concerned. They have so notified the board and the communication was received and placed on file.

Report Minor Changes.

At last night's adjourned meeting, held for the purpose of further consideration and probable adoption of the plans and specifications for the McKinley school, the committee on buildings and grounds, Directors Buren and Barnes, reported that a few minor changes had been made in the specifications which necessitated re-arrangement and re-copying of the specifications and the matter was deferred to another date.

At last night's adjourned meeting, which was presided over by Director Lee in the absence of Chairman Miles, Clerk W. H. Burgardt, Jr., was authorized to draw a warrant in the sum of \$650 in payment of the semiannual interest due upon the \$25,000 popular loan, and also to draw warrants for payment of the monthly salaries of principals, teachers, janitors, etc. of the schools.

OPEN FORUM

To the Taxpayers of Salem:—Soon it will be time to elect another member on the school board. The question is: Are we going to elect the same kind of a man that we have been electing for the last six or eight years? We have been electing men who have been adopting every fad that the higher educators are minded to suggest. Too much to the detriment of our boys and girls, they get just a little smattering of too many subjects and nothing thorough.

Or are we going to elect a man that advocates: First, turning out better scholars; and, second, at the same time reducing our taxes. To reduce taxes we must begin somewhere. I, as well as a great many others that I have talked to of late, am in favor of electing a man that will advocate taking out of the schools the following: Manual training, gymnastics, music, domestic science, drawing, painting, the business course, etc. The above I maintain are fads and are not essential to a common school education. Doing away with the above ought to reduce our taxes about twenty to twenty-five thousand dollars per year.

I have talked with professors and teachers who are anxious to see some of the non-essentials done away with and get down to studies that are more essential to a common school education.

Taxpayers, what have you to say? Now is the time to get busy.

Take Advantage of Opportunity.

Editor Journal: In reading the Norfolk, Nebraska, Daily Journal, we saw the following: "Never before was there so vast a tide of travel toward the Pacific coast as this season. Every thing compares to encourage the See-America-First idea. European pleasure tours are suspended by the war. There is the special attraction offered by the exposition and the ever-present attraction of the wonderful scenery. It is surely proving a great year for the Pacific coast."

After reading the above I could but wonder if Oregon in general and Salem in particular realized the benefit that may be derived from this source, and whether we were doing our utmost to attract attention to this part of the coast. Unless we do our part toward advertising this city and its surroundings, many of these people will pass through Salem without stopping, and others may take boats from San Francisco to Portland and thus avoid us

SALEM ATTORNEY IN Big Eugene Lawsuit

The case of Mrs. Elizabeth Murray against Susan Lowell and others, heirs of the estate of the late James Sanford, in which she seeks to be decreed the owner of about \$40,000 worth of the property left by him, is being tried in circuit court before Judge G. F. Skippworth. The case came up yesterday and it promises to result in a big legal battle for the possession of the property.

Mrs. Murray was housekeeper for Sanford for many years, cared for him and helped him about while he was blind and attended to his many wants during his declining years, claims that he promised to give her a good share of his property and that he provided for this in his will, but that the will was lost.

The trial of the case will probably last a day or two longer. Mrs. Murray is represented by Thompson and Hardy while the heirs are represented by E. B. Tongue, of Hillsboro; John H. McNary, of Salem; L. Blyden and Woodcock, Smith and Bryson, of Eugene.—Eugene Register.

Frank Johnson, of Eugene, went to Portland the first part of this week and has secured a position as traveling salesman for the Royal Typewriter company, with headquarters in Salem. Mr. Johnson was formerly a member of the circulation staff of the Guard and was after employed by the Oregon Typewriter company of Eugene.—Eugene Guard.
