BORN STATE NEWS

Cos Bay Times: E. L. Robinson, of Marshfield, has been engaged by Warren Reed, of Reedsport, to lay out a summer townsite on Winchester Bay, dividing a 50-acre tract adjoining the bay on the south into building lots, thus providing for a summer resort on that spot which has for many years brought many visitors from outside during the warm months. The bay is protected from the winds, has plenty of clear creeks, the woods are just behind while but a little to the west is the open ocean with its miles of beach stretching down to the Cos Bay bar. A trail will be built over to the bay, and later on, so it is said, an auto road will be constructed. It is claimed that 2,000 people last year visited Winchester Bay.

Marshfield Record: John A. Westerman gives the following method of ridding the fields of ground squirrels: "To the farmer who is bothered with ground squirrels: Take a small cloth of any description and put several tablespoonfuls of gasoline on it and with a stick then push the cloth down into the hole and then tramp the hole shut. That is all you have to do. If you want to know the consequence in fifteen or twenty minutes dig with a spade and you will find the squirrels dead. The gas soon kills them. I have at different times dug two dead ones out of one hole. It is sure death. Simply try it and be convinced."

Roseburg Review: John Oliver, manager of the Grand Hotel, is the latest person to get stung on the pen of "Irish bats" stationed near the store of D. P. Fisher, on Oak street. Mr. Oliver was passing along Oak street yesterday afternoon when he noticed the unique pen. On its side was a large placard bearing the words, "Irish bats." Inquisitive to know what the pen contained, Mr. Oliver peered through the heavy wire covering. On the bottom of the pen lay two bricks.

Medford Mail-Tribune: With a continuation of the present weather conditions Rogue River strawberries will be ready for the market by Saturday, the fruit ripening rapidly under the warm sunshine. Hood River strawberries will not be on the market for 10 days and Kennebec, Wash., berries whose chief value is their earliness, are just beginning to ripen. Baldy Worthington this noon picked a strawberry the size of half a tea cup out of his garden.

Heppner Gazette-Times: Dan McDevitt, a young farmer who resides west of Heppner about four miles, recited Saturday from the lower Sand county, where he had spent 15 days hunting for coyotes. He brought back the pelts of 97. Most of the slain were young coyote pups, there being only two old ones in the entire lot.

Albany Democrat: The river stands at 24 feet above low water today and the owners of the launch which has been scheduled to run between here and Corvallis announce that they will be unable to make the trip at this stage of the water. The launch draws about 30 inches of water, which is about twice what the river boats take.

Speaking of the business of the coyote hunter, the Condon Times says: "The boys are digging out the dens and generally get the old she coyote and her litter of pups, which average from four to nine. When you figure these at \$3 per scalp, it runs into money. There is no doubt the days of the coyote in Gilliam county are numbered."

Silver Lake Leader: During the institute the unique fact was developed that every teacher in this end of the county is a homesteader, with the exception of two, and these belong to homesteaders' families. This is a fact true probably of no other county in the United States. Another fact about our teachers in this county, they are nearly all single, and—singularly, attractive.

Baker optimism, as voiced by the Herald: "With many indications of good grain, sheep and cattle seasons, with lumber mills resuming and with mines starting, the Baker district is destined to be even more prosperous than before."

Sherwood Journal: "Life" says, "Silence is the college yell of the school of experience." That's all very well, but Sherwood and Tualatin will be better and more favorably known if we all get out and make an effort to promote the best interests of the community.

Albany Democrat: A number of uniforms for the Albany Pheasants arrived this morning and are being distributed today. They are cream serge and will make a fine showing when worn by the marching club at public functions.

If it's for sale, a Journal Want Ad will sell it.

Last Monday L. M. Meeker sold his stock in the Canby State Bank and the First National Bank of Canby. Mr. Meeker had been cashier of both banks and disposed of these interests in order to give the greater part of his attention to the Hubbard institution.

Hubbard was the first point on the coast where he became financially interested and although invested in other banks he never felt like changing his residence.

Mr and Mrs. E. A. McKey arrived in Hubbard last Friday evening to make their home. Since their marriage last fall their home has been at Oak Harbor, Washington, but they are of the opinion that greater opportunities await them here and E. A. is already busy with a crop of onions. Mr. and Mrs. McKey came through on a motorcycle, stopping one day at Winlock and two days at Seattle. Although quite tired when they arrived it was a great trip.

The Hubbard Cemetery association will hold a meeting Saturday to arrange for the annual cleanup of the grounds. There is a growing sentiment in favor of giving more attention to the appearance of the cemetery throughout the year. The sooner this plan is perfected and carried out the better it will suit everybody. If money for this purpose could be drawn from the general fund and administered by an elected trustee the path of the local cemetery association would be much smoother.

The Hubbard band is announcing another of its high class concerts to be given Saturday evening May 15. Their complete program is not ready to announce excepting the appearance of the Steelhammer brothers of Salem. Oscar Steelhammer who made friends in Hubbard with his trombone solos at the last concert given by the band will be on the program. This will be the first appearance of Mr. John Steelhammer before a Hubbard audience. His favorite instrument is the violin. He is spoken of as very good and all music lovers will want to hear him.—Enterprise.
